

**HONORABLE BOARD OF LEGISLATORS
THE COUNTY OF WESTCHESTER, NEW YORK**

Your Committee is in receipt of a transmission from the County Executive recommending approval by the County of Westchester (“County”) of an act amending the County’s current-year capital budget (“Capital Budget Amendment”), as well as adoption of a related amended bond act (“Amended Bond Act”) which, if adopted, will authorize the County to issue up to \$16,800,000 in bonds of the County to finance capital project SPC38 – Port Chester Water Resource Recovery Facility Primary Settling Tank Rehab and Misc. Improvements (“SPC38”).

Your Committee is advised that the Capital Budget Amendment will amend the County’s capital budget to increase the County share for this project by \$6,400,000. The Department of Environmental Facilities (“Department”) has advised your Committee that the additional funds are required due to field conditions discovered while performing an emergency repair of a primary settling effluent pipe break, to replace the funds used to undertake the emergency repair work, and for additional maintenance and protection of plant operations which were determined to be necessary during the design development phase.

The related Amended Bond Act in the total amount of \$16,800,000 was prepared by the law firm Norton Rose Fulbright and includes \$7,400,000 in previously authorized bonds of the County. The Bond Act would finance the cost of design, construction management and construction costs for the rehabilitation of the Primary Settling Tanks and other improvements at the County’s Port Chester Water Resource Recovery Facility, including the replacement of the influent channel concrete roof slabs and the primary sludge piping system influent channel span beams; repair of the masonry walls and coping stones, replacement of the fire protection system and related systems, such as the installation of a new fire pump system, influent wet well rehabilitation, replacement of effluent pump piping and valves, and upgrading of all chemical containment areas plant wide, including incidental expenses, in and for the benefit of the Port Chester Sanitary Sewer District.

The Department has further advised your Committee that that the primary settling tank roof slabs and span beams, effluent pumping system, as well as the fire protection system, have all exceeded their useful lives and require replacement; and they are components of the original

treatment plant which was built by the Village of Port Chester in approximately 1962 and acquired by the County in 1975.

Design is currently being undertaken by a consultant and is expected to be completed by the 4th quarter of 2023. It is estimated that construction will take 28 months to complete and will begin after award and execution of the construction contracts.

It should be noted that your Honorable Board has authorized the County to issue bonds for SPC38 as indicated in the annexed fact sheet and as follows: Bond Act No. 32-2021 in the amount of \$7,400,000 to finance design, construction management and construction costs for the rehabilitation of the Primary Settling Tank. These bonds have not been sold. Accordingly, it is now requested that Bond Act No. 32-2021 be amended to increase the amount authorized by \$9,400,000, for a total authorized amount, as amended, of \$16,800,000, to revise the scope of Bond Act No. 32-2021 to include the above-described work.

The Planning Department has advised your Committee that based on its review, SPC38 has been classified as a Type "II" action pursuant to the State Environmental Quality Review Act ("SEQR") and its implementing regulations, 6 NYCRR Part 617. Therefore, no further environmental review is required. Your Committee has reviewed the annexed SEQR documentation and concurs with this conclusion.

The Planning Department has advised your Committee that the Planning Board has previously reviewed SPC38 and issued a report, and that since there is no change in the scope of the work and this is simply a change in the financing plan, no further action by the Planning Board is necessary at this time.

Your Committee has carefully considered the proposed Capital Budget Amendment, as well as the related Amended Bond Act, and recommends approval of both of the proposed Acts, noting that the Bond Act can only be enacted following adoption of the Capital Budget Amendment. It should be noted that an affirmative vote of two-thirds of the members of your Honorable Board is required in order to amend the County's Capital Budget and to adopt the Amended Bond Act.
