

ACT 245 - 2025
(BOND) ACT 246 - 2025

Reference RB199

**HONORABLE BOARD OF LEGISLATORS
THE COUNTY OF WESTCHESTER, NEW YORK**

Your Committee is in receipt of a transmittal from the County Executive recommending approval of an act, which, if adopted, will authorize the County of Westchester ("County") to amend the County's current-year capital budget ("Capital Budget Amendment"), as well as adopt a related amended bond act (the "Amended Bond Act") in the total amount of \$8,550,000, which includes \$3,900,000 in previously authorized bonds of the County, to finance capital project RB199 – Tuckahoe Road, CR 36 & CR 59, Yonkers ("RB199").

Your Committee is advised that the Capital Budget Amendment will amend the County's current-year capital budget to increase the County share for RB199 by \$4,650,000. The Department of Public Works and Transportation ("Department") has advised that the bids received for the construction contract exceeded the available funding for the project. There have been significant material cost increases across the construction industry due to current global and national economic conditions. The market volatility has resulted in unknown material costs day-to-day and thus, asphalt and steel suppliers are increasing prices to account for the ever-changing prices. On a regional level, there is a shortage of ready-mix concrete suppliers in Westchester County, which has led to less competitive bidding and increased material costs for concrete items. Therefore, \$4,650,000 in additional appropriations are needed to award the construction contract.

Your Committee is further advised that the Amended Bond Act, prepared by the law firm of Harris Beach Murtha, would finance additional construction management and construction costs associated with the rehabilitation of approximately 1.5 miles of roadway from Cassilis Avenue to the southbound I-87 entrance ramp, including milling, resurfacing, concrete curb replacement, drainage repairs, new traffic loops, new pavement markings and related work.

The Department has advised that this road, which has an average annual daily traffic count ("AADT") of 14,138, is in need of rehabilitation to provide a safe roadway for the travelling public. The associated pavement condition index ("PCI") in 2023 was 62 and the roadway has continued to deteriorate. The PCI rating is a pavement condition rating with a range of 0 to 100, with 0 signifying that the road requires reconstruction and 100 signifying that the road is new. Based on this rating, this road requires corrective rehabilitation to extend the life of the roadway.

Your Committee is advised that design has been completed for this project by an outside consultant. Construction is estimated to take eighteen (18) months and shall begin after award and execution of the construction contracts.

It should be noted that your Honorable Board has previously authorized the County to issue bonds for RB199 as follows: Bond Act No. 31-2020 in the amount of \$3,900,000 which financed the cost of design, construction management and construction associated with this project. \$348,929 in bonds authorized by Bond Act No. 31-2020 have been sold. Accordingly, authority is now requested to amend Bond Act No. 31-2020 to increase the initial amount authorized thereunder by \$4,650,000, for a total authorized amount, as amended, of \$8,550,000.00, to include additional construction and construction management costs necessary to complete this project.

The Department of Planning has advised your Committee that based on its review, the authorization of the proposed referenced capital project may be classified as a Type "II" action pursuant to the State Environmental Quality Review Act and its implementing regulations, 6 NYCRR Part 617 ("SEQR"). Therefore, no environmental review is required. Your Committee has reviewed the annexed SEQR documentation and concurs with this recommendation.

The Planning Department has further advised your Committee that the Planning Board has previously reviewed this project and issued a report, and that since there is no change in the scope

of the work but simply a change in the financing plan, no further action by the Planning Board is necessary at this time.

Your Committee has carefully considered the proposed Capital Budget Amendment, as well as the related Amended Bond Act, and recommends approval of both proposed Acts, noting that the Amended Bond Act may only be enacted following adoption of the Capital Budget Amendment. It should also be noted that an affirmative vote of two-thirds of the members of your Honorable Board is required in order to amend the County's Capital Budget and to adopt the Amended Bond Act.
