I. ITEMS FOR DISCUSSION

1. [ACT-2021-171](#) **BOND ACT-BPL26-1694-Flood Mitigation**

A BOND ACT authorizing the issuance of THREE HUNDRED FIFTY THOUSAND (\$350,000) DOLLARS in bonds of Westchester County to finance Capital Project BPL26 - Flood Mitigation.

Submitted by COMMITTEES ON BUDGET & APPROPRIATIONS, PUBLIC WORKS & TRANSPORTATION, ENVIRONMENT & HEALTH AND PLANNING, ECONOMIC DEVELOPMENT & ENERGY

Joint with B&A, E&H, and PEDE.

Guests: David Kvinge, Director of Environmental Planning - Department of Planning
Dave Kvinge, Director of Environmental Planning appeared before the joint committees to discuss the Flood Mitigation legislation for New Castle. This is a Bond Act and Inter-Municipal Agreement (IMA) that would authorize the County to issue \$350,000 in Bonds and to enter

into an agreement with the Town of New Castle setting forth the terms of the IMA.

The Bond Act would fund up to 50% of the cost associated with design, permitting and construction inspection involved with the decommissioning of the dam at Upper Minkel Pond in the Town. The project will include restoration of the area as a wetland floodplain. The project will reduce flood risk for downstream properties caused by failure of the dams as well as provide additional flood storage capacity for large storm events. This project is estimated to take 12 month.

The IMA will lay out the responsibilities of the County and the Town in connection to the project. The County and the Town will each provide up to 50% of the total cost of the project as set forth in the terms of the IMA. The total cost of the project is \$550,000. The county will pay the Town \$275,000 plus additional County cost for staff hours and administration of the project totaling \$350,000. Mr. Kvinge stated that this is the decommissioning of the dam, it will remove the storage behind the dam but it will not completely remove the dam but leave some of the dam to act as additional flood storage by leaving the retention pond into a flood storage basin. The project is for the design of this work.

Mr. Kvinge explained how this program works, and why it its beneficial for municipalities to apply for funding. Chairwoman Walter of the Environment & Health Committee asked if the State and Federal Government can help aide and lower the cost even more. Mr. Kvinge stated yes, the Department will pursue grant opportunities to lower cost to the municipalities and the County. Chairwoman Parker of the Planning, Economic Development & Energy asked Mr. Kvinge if communication in the form of the questionnaire and application to the municipalities could happen more frequently? Mr. Kvinge will send an updated letter to all municipalities.

On motion of Committee Vice-Chair Shimsky, seconded by Legislator Woodson-Samuels, the above item was signed by committee. The motion carried by the following vote:

Aye: Committee Chair Gashi, Legislator Covill, Legislator Parker, Committee Vice-Chair Shimsky, Legislator Tubiolo, Legislator Walter and Legislator Woodson-Samuels

Joint with B&A, E&H, and PEDE.

Guests: David Kvinge, Director of Environmental Planning - Department of Planning
Dave Kvinge, Director of Environmental Planning appeared before the joint committees to discuss the Flood Mitigation legislation for Yonkers. This is a Bond Act and Inter-Municipal Agreement (IMA) that would authorize the County to issue \$270,000 in Bonds and to enter into an agreement with the City of Yonkers setting forth the terms of the IMA.

The Bond Act would fund up to 50% of the cost of a flood mitigation project consisting of the rehabilitation of the dam at the Grassy Sprain Reservoir in the City of Yonkers. The project will include restoration of the area as a wetland floodplain. The project will reduce flood risk for downstream properties, including areas downstream described as Flood Problem Area YON-1 in the stormwater reconnaissance plan for the Bronx River drainage basin. This project is estimated to take 12 month.

The IMA will lay out the responsibilities of the County and the City in connection to the project. The County and the City will each provide up to 50% of the total cost of the project as set forth in the terms of the IMA. The total cost of the project is \$500,000. The county will pay the Town \$250,000 plus additional County cost for staff hours and administration of the project totaling \$270,000.

Mr. Kvinge stated that this project is the completion of the rehabilitation of the Grassy Sprain Reservoir Dam . They have a few items left to complete. The focus of the project was to rehabilitate a relief valve on the dam, which is used as a pre-release valve to provide additional flood storage. This will allow them to control the valve electronically opposed to manually. Chairwoman Walter of the Environment & Health Committee asked if this project will be done in the Spring. Mr. Kvinge stated that the City is looking to finish this project as soon as possible.
