

**HONORABLE BOARD OF LEGISLATORS
THE COUNTY OF WESTCHESTER, NEW YORK**

Your Committee is in receipt of a transmittal from the County Executive recommending approval by the County of Westchester ("County") of an act, which, if adopted, will amend the County's current-year capital budget ("Capital Budget Amendment"), as well as adoption of a related amended bond act ("Amended Bond Act") in the total amount of \$1,000,000 prepared by the law firm Harris Beach, PLLC, to finance capital project BLR10 – Labs & Research Infrastructure Improvements 2017-2021 ("BLR10").

Your Committee is advised that the Capital Budget Amendment will will amend the County's current-year capital budget to increase the County share for BLR10 by \$400,000. The Department of Labs & Research ("Department") has advised that the increase is required because of the bids received for BLR10. The Department has also advised that its original intent was to rehabilitate the existing equipment, however, during design and in consultation with the original equipment manufacturer, it was determined that it would be prudent to replace the existing equipment, which is over forty years old and is leaking conditioned air from its joints.

The Department has advised that that BLR10 is necessary to ensure that the Microbiology Laboratory remains in compliance with instrument parameters and New York State Clinical Laboratory Evaluation Program requirements. The instrumentation used in the Microbiology Laboratory may only operate within very strict humidity ranges. Testing performed outside of those ranges are subject to erroneous results. The new equipment will use a variable frequency drive, newer coil technology. The new equipment will eliminate the hot water heating completely and use existing steam at the facility, and thereby will be more energy-efficient.

The Amended Bond Act, in the total amount of \$1,000,000, which includes \$400,000 in previously authorized bonds of the County, would finance the cost of heating and air conditioning improvements of the Department facilities, located at the County's Valhalla

Campus at Grasslands, including construction and construction management to address humidity control in the Microbiology division.

Design has been completed by in-house staff. It is estimated that construction will take four months to complete and will begin after award and execution of construction contracts.

It should be noted that your Honorable Board has authorized the County to issue bonds for BLR10 as follows: Bond Act No. 137-2020 in the amount of \$600,000, which authorized financing for partial reconstruction of Department facilities. These bonds have not been sold. Accordingly, it is now requested that Bond Act No. 137-2020 be amended to increase the amount authorized by \$400,000, for a total authorized amount, as amended, of \$1,000,000, to revise the scope of Bond Act No. 137-2020 to more accurately reflect the work to be undertaken, and to increase the period of probable usefulness of said bonds.

The Planning Department has advised your Committee that based on its review, the above-referenced capital project has been classified as a Type "II" action pursuant to the State Environmental Quality Review Act ("SEQR") and its implementing regulations, 6 NYCRR Part 617. Therefore, no further environmental review is required. Your Committee has reviewed the annexed SEQR document and concurs with this conclusion.

The Planning Department has advised your Committee that the Planning Board has previously reviewed this project and issued a report, and that since there is no change in the scope of the work and this is simply a change in the financing plan, no further action by the Planning Board is necessary at this time.

Your Committee has carefully considered the proposed Capital Budget Amendment, as well as the related Amended Bond Act, and recommends approval of both of the proposed Acts, noting that the Amended Bond Act may only be enacted following adoption of the Capital Budget Amendment. It should also be noted that an affirmative vote of two-thirds of the members of your Honorable Board is required in order to amend the County's Capital Budget and to adopt the Amended Bond Act.

However, during design and in consultation with the original equipment manufacturer, it was determined that it would be prudent to replace the existing 40+ year old equipment which has conditioned air leaking from the joints.

Energy Efficiencies:
THE NEW EQUIPMENT WILL BE MORE ENERGY EFFICIENT BY USING A VARIABLE FREQUENCY DRIVE, NEWER COIL TECHNOLOGY AND ELIMINATION OF THE HOT WATER HEATING COMPLETELY AND UTILIZING THE EXISTING STEAM AT THE FACILITY.
