The CBA will amend the County's current-year Capital Budget to create an appropriation for this project in the amount of \$2,000,000. This move will more than double WCC's instructional and student support space, providing residents of Yonkers and the surrounding area expanded access to higher education and training, and offering employers in the city opportunities for customized training to meet their workforce needs. This project is required to make the expanded Yonkers Extension Center a state-of-the-art instructional and training site.
