

ACT 259 - 2023
(BOND) ACT 260 - 2023

Reference RMAC4

**HONORABLE BOARD OF LEGISLATORS
THE COUNTY OF WESTCHESTER, NEW YORK**

Your Committee is in receipt of a transmittal from the County Executive recommending approval by the County of Westchester ("County") of an act, which, if adopted, will amend the County's current-year capital budget (the "Capital Budget Amendment"), as well as adoption of a related bond act (the "Amended Bond Act") in the amount of \$3,000,000, to finance capital project RMAC4– Woodlands Lake Dam at V.E. Macy Park ("RMAC4").

Your Committee is advised that the Capital Budget Amendment will amend the County's current-year capital budget to increase the County share for RMAC4 by \$3,000,000. The Department of Parks, Recreation & Conservation (the "Department") has advised that the Capital Budget Amendment is required to finance the increased construction costs associated with this project.

The Amended Bond Act, which was prepared by the law firm Hawkins, Delafield & Wood, LLP, in the total amount of \$8,000,000, which includes \$5,000,000 in previously authorized bonds of the County, would finance additional construction costs associated with modifications to the pedestrian footbridge foundation, earthwork operations and site utility changes. The Department has advised that the existing stone masonry dam structure which was intended to serve as the foundation for the new pedestrian bridge structure was deemed unsuitable to support the new pedestrian bridge. New reinforced concrete footings, piers and abutments are needed to support the new bridge structure. Additional excavation of sediment and filling of suitable backfill materials are needed to meet design elevations and to stabilize the edges of the new stone channel. Existing utility lines and structures could not be reused as initially intended and are in need of replacement.

Your Committee is advised that the design work was completed by a consultant and the project is currently in construction. It is anticipated that the additional construction work will take approximately six (6) months to complete and will begin after award and execution of the construction contracts.

Your Committee notes that this Honorable Board has previously authorized the County to issue bonds which financed this project, as follows: Bond Act No. 64 -2021 in the amount of \$5,000,000 which funded the cost of removing a portion of the existing Woodlands Lake Dam at V. E. Macy Park in Ardsley, stabilizing and reconstructing the river adjacent to the dam, replacing the bridge and railing, as well as associated infrastructure and site work. Of the \$5,000,000 in bonds authorized under Bond Act No. 64 -2021, \$589,088 have been issued. Accordingly, it is now requested that Bond Act No. 64-2021 be amended to increase the amount authorized by an additional \$3,000,000, from an amount of \$5,000,000, to a new amount of \$8,000,000, to finance the additional construction costs associated with this project.

The Planning Department has advised your Committee that based on its review, RMAC4 was previously reviewed by the County Board of Legislators, which classified the project as a Type I action under SEQR. In accordance with SEQR, a Full Environmental Assessment Form was prepared and, on April 26, 2021, a Negative Declaration was issued by the Board of Legislators (Resolution 88-2021). Since the current request is for an increase in funding to address issues encountered during construction due to unforeseen existing field conditions but the overall scope of work remains the same, the original Negative Declaration remains valid and no further environmental review is required.

The Planning Department has also advised your Committee that the Planning Board has previously reviewed RMAC4 and issued a report, and that since there are no changes to the physical planning aspects of this project, no further action by the Planning Board is necessary at this time.

Your Committee has carefully considered the proposed Capital Budget Amendment, as well as the related Amended Bond Act, and recommends approval of both of the proposed

Acts, noting that the Amended Bond Act may only be enacted following adoption of the Capital Budget Amendment. It should also be noted that an affirmative vote of two-thirds of the members of your Honorable Board is required in order to amend the County's Capital Budget and to adopt the Amended Bond Act.

RE: **Capital Budget Amendment –
RMAC4 Woodlands Lake Dam at V.E Macy Park**

The County Executive is requesting an amendment to the 2023 Capital Budget to modify the funding of the above project. Capital project RMAC4 Woodlands Lake Dam at V.E Macy Park includes rebuilding existing masonry, bridge structure repairs, repointing and grouting, installation of shot-crete, concrete and reinforcement bars, waterproofing, railing replacement, paving, and other site work and safety item installation. The capital budget amendment will fund the additional costs associated with modifications to the pedestrian footbridge foundation, earthworks, and site utilities. The existing dam structure was deemed to be unsuitable to support the pedestrian bridge and new footings, piers and abutments are needed, as well as additional stabilization and replacement of utilities.

A Capital Budget Amendment in the amount of \$3,000,000 is being requested to provide additional funding to address increased costs due to existing site conditions. This project was classified as a PL2, a project with physical planning aspects by the Planning Board in the 2017 Report on the Capital Project Requests adopted July 12, 2016.

There are no changes to the physical planning aspects of this project as reviewed by the Board; therefore, no further action by your Board is necessary.

A capital budget amendment in the amount of \$3,000,000 is requested and shown under review to fund the increase in costs associated with modifications to the pedestrian footbridge foundation, earthwork operations and site utility changes. The existing stone masonry dam structure which was intended to serve as the foundation for the new pedestrian bridge structure was deemed unsuitable to support the new pedestrian bridge. New reinforced concrete footings, piers and abutments are needed to support the new bridge structure. Additional excavation of sediment and filling of suitable backfill materials are needed to meet design elevations and to stabilize the edges of the new stone channel. Existing utility lines and structures could not be reused as initially intended and are in need of replacement.
