RE: Message Requesting Immediate Consideration: **CBA & Bond Act – BPS35 – Emergency Services Unit Truck.**

Transmitted herewith for your review and approval is an Act to amend the current-year capital budget (“Capital Budget Amendment”), as well as a related bond act (“Bond Act,”) which, if adopted, would authorize the County of Westchester (“County”) to issue up to \$285,000 in bonds of the County to finance the following capital project: BPS35.

Therefore, since this communication is of the utmost importance, it is respectfully submitted that the County Board of Legislators accepts this submission for April 17, 2023 “blue sheet” calendar.

Thank you for your prompt attention to this matter.

Westchester County Board of Legislators
800 Michaelian Office Building
White Plains, New York 10601

Dear Members of the Board of Legislators:

Transmitted herewith for your review and approval is an Act to amend the current-year capital budget ("Capital Budget Amendment"), as well as a related bond act ("Bond Act,") which, if adopted, would authorize the County of Westchester ("County") to issue up to \$285,000 in bonds of the County to finance the following capital project:

BPS35 – Emergency Services Unit Truck ("BPS35").

The proposed Capital Budget Amendment will amend the County's current-year capital budget to increase the County share for BPS35 by \$35,000. The Department of Public Safety ("Department") has advised that the Capital Budget Amendment is required because the cost of parts and materials has risen sharply since the original early 2021 estimate.

The Bond Act, in the amount of \$285,000, would finance the cost of acquisition of a new emergency services truck for the Department's Special Operations Division.

The Department has advised that the Department has only one truck remaining for its daily patrol and Emergency Services Unit ("ESU") deployments. The new truck was planned to replace an eight-year old vehicle, but that vehicle was recently damaged beyond repair in a motor vehicle accident. The ESU provided specialized support and equipment to other DPS units as well as other local municipalities. Members of the ESU are cross-trained in multiple disciplines for police, emergency medical care, HAZMAT and rescue work and the new emergency services truck will ensure continuous service.

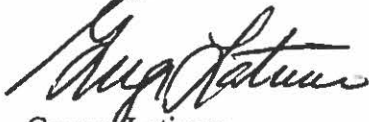

Following bonding authorization, it is anticipated that it will take the Department approximately 12-18 months to acquire the new emergency services truck.

The Planning Department has advised that based on its review, BPS35 has been classified as a "Type II" action pursuant to the State Environmental Quality Review Act ("SEQR") and its implementing regulations, 6 NYCRR Part 617. Therefore, no further environmental review is required. As you know, your Honorable Board may use such expert advice to reach its own conclusion.

The Planning Department has advised that the Planning Board has previously reviewed this project and issued a report, and that since there is no change in the scope of the work and this is simply a change in the financing plan, no further action by the Planning Board is necessary at this time.

Based on the importance of this capital project to the County, favorable action on the annexed proposed Acts is respectfully requested.

Sincerely,

**HONORABLE BOARD OF LEGISLATORS
THE COUNTY OF WESTCHESTER, NEW YORK**

Your Committee is in receipt of a transmittal from the County Executive recommending approval by the County of Westchester (“County”) of an act, which, if adopted, will amend the County’s current-year capital budget (“Capital Budget Amendment”), as well as adoption of a related bond act (“Bond Act”) in the amount of \$285,000 prepared by the law firm Harris Beach, PLLC, to finance capital project BPS35 – Emergency Services Unit Truck (“BPS35”).

Your Committee is advised that the Capital Budget Amendment will amend the County’s current-year capital budget to increase the County share for BPS35 by \$35,000. The Department of Public Safety (“Department”) has advised that the Capital Budget Amendment is required because the cost of parts and materials has risen sharply since the original early 2021 estimate.

The Bond Act, in the amount of \$285,000, would finance the cost of acquisition of a new emergency services truck for the Department’s Special Operations Division.

The Department has advised that the Department has only one truck remaining for its daily patrol and Emergency Services Unit (“ESU”) deployments. The new truck was planned to replace an eight-year old vehicle, but that vehicle was recently damaged beyond repair in a motor vehicle accident. The ESU provided specialized support and equipment to other DPS units as well as other local municipalities. Members of the ESU are cross-trained in multiple disciplines for police, emergency medical care, HAZMAT and rescue work and the new emergency services truck will ensure continuous service.

Following bonding authorization, it is anticipated that it will take the Department approximately 12-18 months to acquire the new emergency services truck.

The Planning Department has advised your Committee that based on its review, BPS35 has been classified as a Type “II” action pursuant to the State Environmental Quality Review Act (“SEQR”) and its implementing regulations, 6 NYCRR Part 617. Therefore, no further

environmental review is required. Your Committee has reviewed the annexed SEQR documentation and concurs with this conclusion.

The Planning Department has advised your Committee that the Planning Board has previously reviewed this project and issued a report, and that since there is no change in the scope of the work and this is simply a change in the financing plan, no further action by the Planning Board is necessary at this time.

Your Committee has carefully considered the proposed Capital Budget Amendment, as well as the related Bond Act, and recommends approval of both of the proposed Acts, noting that the Bond Act may only be enacted following adoption of the Capital Budget Amendment. It should also be noted that an affirmative vote of two-thirds of the members of your Honorable Board is required in order to amend the County’s Capital Budget and to adopt the Bond Act.

Dear Honorable Members of the Board of Legislators:

Transmitted herewith for your review and approval is a bond act ("Bond Act") which, if adopted, would authorize the County of Westchester ("County") to issue bonds in the amount of \$650,000 to finance the following capital project:

BIT33 – Radio Site Infrastructure ("BIT33").

The Bond Act, in the amount of \$650,000, would finance the cost of rehabilitation or replacement of critical radio tower site equipment and infrastructure, including antenna systems, equipment shelter components, primary and backup electrical power systems, security and access control systems, and HVAC systems (collectively, the "Radio Site Equipment"), as needed, at the following radio sites: 60-Control (Mount Pleasant), DPS HQ (Mount Pleasant), Mohansic (Yorktown), Adams Lane (Pound Ridge), Dunwoodie (Yonkers), Mountain Ave (Mount Kisco), Airport Hangar E2 (Harrison), EOC (Mount Pleasant), Mountain Lakes (North Salem), Alpine (Alpine, NJ), Fox Lane (Bedford), Playland (Rye City), Benefield Blvd (Peekskill), Grasslands (Mount Pleasant), Putnam Valley (Putnam Valley), Cerrato (Mount Pleasant), Guard Hill (Bedford), Summit Ave (Port Chester), CMF (Yonkers), Hardscrabble Rd (Mount Pleasant), WHUD (Philipstown), Courthouse (White Plains), Maryknoll (New Castle), Wilmot Rd (New Rochelle), Croton Point Park (Croton-on-Hudson), MOB (White Plains), and Winged Foot (Mamaroneck Town).

The Department of Information Technology ("Department") has advised that the Radio Site Equipment is used to operate the County trunked and paging radio systems, as well as the County F1/F3 radio systems. Through the operation of these radio systems, the County provides public safety radio communication services for the Department of Emergency Services ("DES"), the Department of Public Safety ("DPS"), the Department of Public Works and Transportations ("DPWT") Bee-Line transit operations, and municipal first responders. The County radio systems are vital to the protection of life and property, and therefore the supporting infrastructure must be maintained before age or wear and tear reduce reliability to levels unsuitable for these vital systems.

Following the approval of the Bond Act by your Honorable Board, design will be scheduled and is anticipated to take eight months to complete. It is estimated that the rehabilitation and replacement work will take eight months to complete and will begin after required procurement

steps have been completed and the necessary contracts are in place. It is anticipated that the design work will be completed by in-house staff that will provide specifications and approve plans prepared by the County's contractors.

It should be noted that the Bond Act, if approved by your Honorable Board, would, finance the rehabilitation and replacement of Radio Site Equipment at four County parks. Having the Radio Site Equipment in the parks benefits the parks and park patrons. In particular, the Radio Site Equipment provides public safety radio communication services and reliable on-street portable (hand held) radio coverage for County and municipal first responders when performing their duties and responding to calls and emergencies in the parks, as well as in the surrounding communities. The Radio Site Equipment benefits the parks by helping to keep the parks, their buildings, facilities and patrons safe and secure, and, thus, helps to assure that park patrons have a safe and enjoyable experience while at the parks.

It should be noted that your Honorable Board has previously authorized the County to issue bonds in connection with BIT33 as indicated in the annexed fact sheet.

The Planning Department has advised that based on its review, BIT33 has been classified as a "Type II" action pursuant to the State Environmental Quality Review Act ("SEQR") and its implementing regulations, 6 NYCRR Part 617. Therefore, no further environmental review is required. As you know, your Honorable Board may use such expert advice to reach its own conclusion.

Based on the importance of this project to the County, favorable action on the proposed Bond Act is respectfully requested.

Sincerely,

George Latimer

THE COUNTY OF WESTCHESTER, NEW YORK**

Your Committee is in receipt of a transmittal from the County Executive recommending approval by the County of Westchester (“County”) of a bond act (“Bond Act”) in the amount of \$650,000 to finance capital project BIT33 – Radio Site Infrastructure (“BIT33”). The Bond Act, which was prepared by the law firm Harris Beach, PLLC, will finance the cost of rehabilitation or replacement of critical radio tower site equipment and infrastructure, including antenna systems, equipment shelter components, primary and backup electrical power systems, security and access control systems, and HVAC systems (collectively, the “Radio Site Equipment”), as needed, at the following radio sites: 60-Control (Mount Pleasant), DPS HQ (Mount Pleasant), Mohansic (Yorktown), Adams Lane (Pound Ridge), Dunwoodie (Yonkers), Mountain Ave (Mount Kisco), Airport Hangar E2 (Harrison), EOC (Mount Pleasant), Mountain Lakes (North Salem), Alpine (Alpine, NJ), Fox Lane (Bedford), Playland (Rye City), Benefield Blvd (Peekskill), Grasslands (Mount Pleasant), Putnam Valley (Putnam Valley), Cerrato (Mount Pleasant), Guard Hill (Bedford), Summit Ave (Port Chester), CMF (Yonkers), Hardscrabble Rd (Mount Pleasant), WHUD (Philipstown), Courthouse (White Plains), Maryknoll (New Castle), Wilmot Rd (New Rochelle), Croton Point Park (Croton-on-Hudson), MOB (White Plains), and Winged Foot (Mamaroneck Town).

The Department of Information Technology (“Department”) has advised that the Radio Site Equipment is used to operate the County trunked and paging radio systems, as well as the County F1/F3 radio systems. Through the operation of these radio systems, the County provides public safety radio communication services for the Department of Emergency Services (“DES”), the Department of Public Safety (“DPS”), the Department of Public Works and Transportations (“DPWT”) Bee-Line transit operations, and municipal first responders. The County radio systems are vital to the protection of life and property, and therefore the supporting infrastructure must be maintained before age or wear and tear reduce reliability to levels unsuitable for these vital systems.

Following the approval of the Bond Act by your Honorable Board, design will be scheduled and is anticipated to take eight months to complete. It is estimated that the rehabilitation and replacement work will take eight months to complete and will begin after required procurement steps have been completed and the necessary contracts are in place. It is anticipated that the design work will be completed by in-house staff that will provide specifications and approve plans prepared by the County's contractors.

It should be noted that the Bond Act, if approved by your Honorable Board, would, finance the rehabilitation and replacement of Radio Site Equipment at four County parks. Having the Radio Site Equipment in the parks benefits the parks and park patrons. In particular, the Radio Site Equipment provides public safety radio communication services and reliable on-street portable (hand held) radio coverage for County and municipal first responders when performing their duties and responding to calls and emergencies in the parks, as well as in the surrounding communities. The Radio Site Equipment benefits the parks by helping to keep the parks, their buildings, facilities and patrons safe and secure, and, thus, helps to assure that park patrons have a safe and enjoyable experience while at the parks.

It should be noted that your Honorable Board has previously authorized the County to issue bonds in connection with BIT33 as indicated in the annexed fact sheet.

The Planning Department has advised your Committee that based on its review, BIT33 has been classified as a Type "II" action pursuant to the State Environmental Quality Review Act ("SEQR") and its implementing regulations, 6 NYCRR Part 617. Therefore, no further environmental review is required. Your Committee has reviewed the annexed SEQR documentation and concurs with this conclusion.

It should be noted that an affirmative vote of two-thirds of the members of your Honorable Board is required in order to adopt the Bond Act. Your Committee recommends the adoption of the proposed Bond Act.

RLEN2 – Lenoir Preserve Buildings.**

This will confirm my request that the Board of Legislators allow submission of the referenced communication to be submitted to the Board of Legislators April 17, 2023 Agenda.

Transmitted herewith for your review and approval is an Act which, if adopted, would authorize the County of Westchester ("County") to amend its current year Capital Budget (the "Capital Budget Amendment"), as well as adopt a related Bond Act ("Bond Act") which, if adopted, would authorize the County to issue bonds in the amount of \$1,200,000 to finance the following capital project: RLEN2.

Therefore, since this communication is of the utmost importance, it is respectfully submitted that the County Board of Legislators accepts this submission for April 17, 2023 "blue sheet" calendar.

Thank you for your prompt attention to this matter.

Dear Members of the Board of Legislators:

Transmitted herewith for your review and approval is an Act which, if adopted, would authorize the County of Westchester ("County") to amend its current year Capital Budget (the "Capital Budget Amendment"), as well as adopt a related Bond Act ("Bond Act") which, if adopted, would authorize the County to issue bonds in the amount of \$1,200,000 to finance the following capital project:

RLEN2 – Lenoir Preserve Buildings ("RLEN2").

The proposed Capital Budget Amendment will amend the County's current year capital budget to increase the County share for RLEN2 by \$1,200,000 to fund increased costs associated with this project.

The Bond Act, in the amount of \$1,200,000, would finance additional costs associated with the reconstruction of the porch substructure, new security system infrastructure and a new stormwater retention system for the roof leader drains.

The Department of Parks, Recreation and Conservation ("Department") has advised that significant deterioration of the porch's substructure, as well as settling of the foundation walls, were discovered during the construction phase of this project. The new stormwater system will direct roof leader drainage away from the porch and the building alleviating any future settlement issues. In addition, recent vandalism incidents at the mansion have necessitated enhanced security measures to protect the County's investment in this building.

Design has been completed. It is anticipated that construction will take nine months to complete and will begin after award and execution of the construction contracts.

It should be noted that your Honorable Board has previously authorized the County to issue bonds to finance prior phases of RLEN2 as follows: Bond Act No. 131-2018 in the amount of \$745,000 which financed design; and Bond Act No. 110-2020, which amended Bond Act No. 131-2018 by increasing the total amount authorized by \$4,385,000 for construction funding, thereby increasing the total bonding amount from \$745,000 to \$5,130,000. \$1,632,607 in bonds under Bond Act No. 110-2020 have been sold. The proposed Bond Act will authorize the County to finance an additional \$1,200,000 for this project for the aforesaid purposes.

The Planning Department has advised that based on its review, the above-referenced capital project has been classified as a "Type II" action pursuant to the State Environmental Quality Review Act ("SEQR") and its implementing regulations, 6 NYCRR Part 617. Therefore, no further environmental review is required. As you know, your Honorable Board may use such expert advice to reach its own conclusion.

In addition, Section 167.131 of the County Charter mandates that a capital budget amendment that introduces a new capital project or changes the location, size or character of an existing capital project be accompanied to the Board of Legislators by a report of the Westchester County Planning Board (the "Planning Board") with respect to the physical planning aspects of the project. The Planning Department has advised that the Planning Board has previously reviewed this project and issued a report, and that since there is no change in the scope of the work and this is simply a change in the financing plan, no further action by the Planning Board is necessary at this time.

Based on the importance of this project to the County, favorable action on the proposed Capital Budget Amendment and Bond Act is respectfully requested.

Sincerely,

George Latimer

**HONORABLE BOARD OF LEGISLATORS
THE COUNTY OF WESTCHESTER, NEW YORK**

Your Committee is in receipt of a transmission from the County Executive recommending approval of an Act amending the County of Westchester's (the "County") current-year Capital Budget (the "Capital Budget Amendment"), as well as adoption of a related bond act (the "Bond Act") in the amount of \$1,200,000, to finance Capital Project RLEN2 – Lenoir Preserve Buildings ("RLEN2").

The proposed Capital Budget Amendment will amend the County's current year capital budget to increase the County share for RLEN2 by \$1,200,000 to fund increased costs associated with this project.

The Bond Act, which was prepared by the law firm Harris Beach, PLLC, is required to finance additional costs associated with the reconstruction of the porch substructure, new security system infrastructure and a new stormwater retention system for the roof leader drains.

The Department of Parks, Recreation and Conservation ("Department") has advised that significant deterioration of the porch's substructure, as well as settling of the foundation walls, were discovered during the construction phase of this project. The new stormwater system will direct roof leader drainage away from the porch and the building alleviating any future settlement issues. In addition, recent vandalism incidents at the mansion have necessitated enhanced security measures to protect the County's investment in this building.

Your Committee is advised that design has been completed. It is anticipated that construction will take nine (9) months to complete and will begin after award and execution of the construction contracts.

It should be noted that your Honorable Board has previously authorized the County to issue bonds to finance prior phases of RLEN2 as follows: Bond Act No. 131-2018 in the amount of \$745,000 which financed design; and Bond Act No. 110-2020, which amended Bond Act No. 131-2018 by increasing the total amount authorized by \$4,385,000 for construction funding, thereby increasing the total bonding amount from \$745,000 to \$5,130,000. \$1,632,607 in bonds under Bond Act No. 110-2020 have been sold. The proposed Bond Act will authorize the County to finance an additional \$1,200,000 for this project for the aforesaid purposes.

The Planning Department has advised your Committee that based on its review, the above-referenced capital project has been classified as a Type “II” action pursuant to the State Environmental Quality Review Act (“SEQR”) and its implementing regulations, 6 NYCRR Part 617. Therefore, no further environmental review is required. Your Committee has reviewed the annexed SEQR documentation and concurs with this conclusion.

In addition, Section 167.131 of the County Charter mandates that a capital budget amendment that introduces a new capital project or changes the location, size or character of an existing capital project be accompanied to the Board of Legislators by a report of the Westchester County Planning Board (the “Planning Board”) with respect to the physical planning aspects of the project. The Planning Department has advised that the Planning Board has previously reviewed this project and issued a report, and that since there is no change in the scope of the work and this is simply a change in the financing plan, no further action by the Planning Board is necessary at this time.

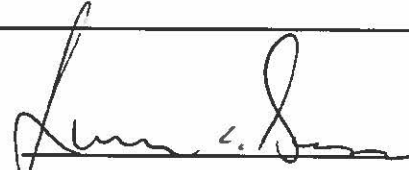

Your Committee is advised that an affirmative vote of two-thirds of the members of this Honorable Board is required in order to amend the County’s Capital Budget, as well as to adopt the related Bond Act.

Comments:

A Capital Budget Amendment in the amount of \$1,200,000 is requested and shown under review to fund the increase costs associated with the reconstruction of the porch substructure and foundation walls, new security system infrastructure and a new stormwater retention system. Significant deterioration of the porch's substructure as well as settling of the foundation walls were discovered during construction. The new stormwater system will direct roof leader drainage away from the porch and the building alleviating any future settlement issues. Recent vandalism incidents at the mansion have necessitated enhanced security measures to protect the County's investment in this building restoration.
