Re: A BOND ACT for capital project BCR5F (3230) – Infrastructure Improvements

Transmitted herewith for your review and approval is a bond act (“Bond Act”) which, if adopted, would authorize the County of Westchester (“County”) to issue bonds in the amount of \$500,000.00 to finance the following capital project:

BCR5F (3230) – Infrastructure Improvements (“BCR5F”).

The Bond Act, in the amount of \$500,000.00 would finance the with construction associated with the replacement of grinder pumps which are original to the Correctional Complex facility and are failing on a weekly basis.

The Department of Correction (“Department”) has advised that the current sewer grinder pumps must be replaced in order to ensure public health, maintain uninterrupted sanitation services, and prevent costly environmental violations. These pumps have reached the end of their useful life and mechanical wear can lead to frequent breakdowns and the risk of hazardous raw sewerage backups in all populated areas of the facility.

Following bonding authorization, the Department estimates that the construction phase will take six months to complete and will begin after award and execution of the construction contracts.

Based on the importance of this project to the County, favorable action on the proposed Bond Act is respectfully requested.

**HONORABLE BOARD OF LEGISLATORS
THE COUNTY OF WESTCHESTER, NEW YORK**

Your Committee is in receipt of a transmittal from the County Executive recommending approval by the County of Westchester (“County”) of a bond act (“Bond Act”) in the amount of \$500,000.00 to finance capital project BCR5F (3230) – Infrastructure Improvements (“BCR5F”). The Bond Act, which was prepared by the law firm of Harris Beach Murtha, will finance the construction of the replacement of grinder pumps which are original to the Correctional Complex facility and are failing on a weekly basis.

The Department of Correction (“Department”) has advised that the current sewer grinder pumps must be replaced in order to ensure public health, maintain uninterrupted sanitation services, and prevent costly environmental violations. These pumps have reached the end of their useful life and mechanical wear can lead to frequent breakdowns and the risk of hazardous raw sewerage backups in all populated areas of the facility.

Following bonding authorization, the Department estimates that the construction phase will take six (6) months to complete and will begin after award and execution of the construction contracts.

The Department of Planning has advised your Committee that based on its review, the authorization of the proposed capital project may be classified as a Type “II” action pursuant to the State Environmental Quality Review Act and its implementing regulations, 6 NYCRR Part 617 (“SEQR”). Therefore, no environmental review is required. Your Committee has reviewed the annexed SEQR documentation and concurs with this recommendation.

It should be noted that an affirmative vote of two-thirds of the members of your Honorable Board is required in order to adopt the Bond Act. Your Committee recommends the adoption of the proposed Bond Act.
