

(BOND) ACT 21 - 2026  
ACT 22 - 2026

**HONORABLE BOARD OF LEGISLATORS  
THE COUNTY OF WESTCHESTER**

**DRAFT  
IMA ON FILE**

Your Committee is in receipt of a communication from the County Executive recommending approval of an Act which, if adopted by this Honorable Board, would authorize the County of Westchester (the "County") to enter into an intermunicipal agreement ("IMA") with the Village of Mamaroneck (the "Village") requiring the County to contribute funding toward the costs of demolition and reconstruction of the Ward Avenue Bridge ("Bridge") in order to reduce flooding of municipal and private property in the Village. The County Executive also requests the adoption of a bond act (the "Bond Act"), prepared by the law firm of Hawkins Delafield and Wood, LLP, that would authorize the issuance of up to \$1,850,000 in County bonds to finance design of the Bridge replacement to reduce flooding and flood risk, for which an appropriation exists in the County's Capital Budget in BPL 26 Flood Mitigation.

Your Committee is advised that the Bridge is owned by the Village and is located in an area identified as a flood problem area within the Stormwater Reconnaissance Plan for the Coastal Long Island Sound Watershed, prepared by the County and adopted by your Honorable Board on August 4, 2014. The Stormwater Reconnaissance Plan includes a discussion of flooding within the Village and references the United States Army Corps of Engineers ("USACE") study of the Mamaroneck and Sheldrake rivers that ultimately identified the Bridge as one of many projects to reduce flooding and flood risk within the study area.

The Village seeks the demolition and removal of the Bridge and reconstruction of a new bridge in the current location. Pursuant to Section 102 of New York Highway Law, the County superintendent of highways has supervision of all County roads and bridges comprising the county highway system, together with any other roads and bridges for which responsibility is imposed on the County under any lawful agreement made by the County. The parties propose to enter into an IMA to impose such responsibility on the County.

Your Committee is advised that the County is a party to an agreement with the New York State Department of Environmental Conservation ("NYSDEC") whereby the County will contribute funds to the United States Army Corps of Engineers ("USACE") for the Mamaroneck

and Sheldrake Rivers Flood Risk Reduction Project (the “NYSDEC Agreement”), of which the demolition and reconstruction of the Bridge is a component. In order to avoid further delays in the overall project, the Village has requested that the County advance the demolition and reconstruction of the Bridge.

Under the proposed IMA, the County will be responsible for demolition and removal of the existing Bridge and related structures and design and construction of a new bridge substructure and superstructure, bridge railing and/or parapet, sidewalks, roadway reconstruction and drainage enhancements (“Project”). The Project will be designed and constructed by the County in accordance with the New York State Department of Transportation Standard Specifications for Construction and Materials, including all applicable revisions. The County, on behalf of NYSDEC as the Non-Federal Interest and the Municipality as the owner of the Bridge, intend to satisfy the responsibilities identified by the USACE in the eventual Project Partnership Agreement (“PPA”). The design work for the Project will include survey, mapping, traffic data and accident analysis, geotechnical investigations, hydraulic analysis, construction cost estimates, and preparation of engineering plans and specifications. After the design is completed, a subsequent bond act will be submitted to your Honorable Board to finance the Project’s construction.

The IMA will require the Village to acquire any necessary property rights for the Project and convey an easement to the County in order to provide the necessary property interest for the County to issue bonds to finance the Project. The Village will be responsible for remediation of any hazardous materials found and indemnify the County for any claims related to remediation. The Village will also act as lead agency for the necessary environmental reviews required by the State Environmental Quality Review Act for the construction phase of the Project. Following completion of the Project, the Village will be responsible for maintenance of the Bridge, the surrounding land and the stream/riverbed. The total cost to the County for design, construction and construction management of the Project is currently estimated to be \$22,000,000. The term of the IMA will be for a period equal to or greater than the life of any bonds issued by the County to fund the County’s portion of the Project, which is estimated to be forty (40) years pursuant to New York Local Finance Law section 11.00.

The Planning Department has advised that, based on its review, the proposed IMA and Bond Act may be classified as a "Type II" action under the State Environmental Quality Review Act, 6 NYCRR Part 617 ("SEQRA), which is an action determined not to have a significant effect on the environment and therefore does not require further environmental review. Your Committee has reviewed the annexed SEQRA documentation and concurs with this recommendation.

Your Committee is advised that an affirmative vote of a majority of the voting strength of your Honorable Board is required for approval of the proposed Act, while approval of the Bond Act requires an affirmative vote of two-thirds of the members of this Honorable Board.

Your Committee has carefully considered and recommends approval of the attached Act and Bond Act.
