Westchester County Board of Legislators
800 Michaelian Office Building
White Plains, New York 10601

Dear Members of the Board of Legislators:

Transmitted herewith for your review and approval is an amended bond act (the "Amended Bond Act") which, if adopted, would authorize the County of Westchester (the "County") to issue an additional \$7,315,000 in bonds to finance the following capital project:

P0027 – Bronx River Parkway (North of Greenacres Ave) Over Bronx River, Scarsdale ("P0027").

The Amended Bond Act, in the total amount of \$8,515,000, which includes \$1,200,000 in previously authorized bonds of the County, would finance the cost of design, construction management and construction associated with the replacement of the existing bridge structure, including construction of pile foundations, abutments, structural deck, approaches, railings, and related work.

The Department of Public Works and Transportation (the "Department") has advised that this bridge, which was built in 1920 and has an annual daily traffic count ("AADT") of 35,663, is in need of rehabilitation to maintain a safe roadway for the traveling public. In 2022 the New York State Department of Transportation gave the bridge a condition rating of 4.81 and the roadway has continued to deteriorate. This rating system, using a scale of 1 ("hazardous") through 7 ("new"), is a weighted average of the condition of an evaluated bridge. A rating below 5 indicates that a bridge requires work and delay of this work could result in the continued deterioration of the bridge.

The design is currently underway by consultant and shall be completed by the 4th Quarter of 2023. It is anticipated that construction will take approximately twenty-four (24) months to complete and will begin after award and execution of the construction contracts.

Your Honorable Board has previously authorized the County to issue bonds associated with this project as follows: Bond Act No. 2019-161 in the amount of \$1,200,000, which funded design and construction management. No bonds have been issued under Bond Act No. 2019-161. Accordingly, the authority of your Honorable Board is now requested to amend Bond Act No. 2019-161 to increase the initial amount of bonds authorized by \$7,315,000, from \$1,200,000 to \$8,515,000, to expand the scope of work to include construction, and to increase the period of probable usefulness of said bonds.

The Planning Department has advised that based on its review, the above-referenced capital project may be classified as a "Type II" action pursuant to the State Environmental Quality Review Act ("SEQR") and its implementing regulations, 6 NYCRR Part 617. Therefore, no environmental review is required. As you know, your Honorable Board may use such expert advice to reach its own conclusion.

Based on the importance of this project to the County, favorable action on the proposed Amended Bond Act is respectfully requested.

Sincerely,

George Latimer
County Executive

**HONORABLE BOARD OF LEGISLATORS
THE COUNTY OF WESTCHESTER, NEW YORK**

Your Committee is in receipt of a transmittal from the County Executive recommending approval by the County of Westchester (“County”) of an amended bond act (the “Amended Bond Act”) in the total amount of \$8,515,000, which includes \$1,200,000 in previously authorized bonds of the County, to finance capital project P0027 – Bronx River Parkway (North of Greenacres Ave) Over Bronx River, Scarsdale (“P0027”).

The Amended Bond Act, which was prepared by the law firm Harris Beach PLLC, will finance the cost of design, construction management and construction associated with the replacement of the existing bridge structure, including construction of pile foundations, abutments, structural deck, approaches, railings, and related work.

The Department of Public Works and Transportation (the “Department”) has advised that this bridge, which was built in 1920 and has an annual daily traffic count (“AADT”) of 35,663, is in need of rehabilitation to maintain a safe roadway for the traveling public. In 2022 the New York State Department of Transportation gave the bridge a condition rating of 4.81 and the roadway has continued to deteriorate. This rating system, using a scale of 1 (“hazardous”) through 7 (“new”), is a weighted average of the condition of an evaluated bridge. A rating below 5 indicates that a bridge requires work and delay of this work could result in the continued deterioration of the bridge.

The design is currently underway by consultant and shall be completed by the 4th Quarter of 2023. It is anticipated that construction will take approximately twenty-four (24) months and will begin after award and execution of the construction contracts.

Your Committee notes that your Honorable Board has previously authorized the County to issue bonds associated with this project as follows: Bond Act No. 2019-161 in the amount of \$1,200,000, which funded design and construction management. No bonds have been issued under Bond Act No. 2019-161. Accordingly, the authority of your Honorable Board is now requested to amend Bond Act No. 2019-161 to increase the initial amount of bonds authorized by \$7,315,000, from \$1,200,000 to \$8,515,000, to expand the scope of work to include construction, and to increase the period of probable usefulness of said bonds.

The Planning Department has advised your Committee that based on its review, the above-referenced capital project may be classified as a Type “II” action pursuant to the State Environmental Quality Review Act (“SEQR”) and its implementing regulations, 6 NYCRR Part 617. Therefore, no environmental review is required. Your Committee has reviewed the annexed SEQR documentation and concurs with this recommendation.

It should be noted that an affirmative vote of two-thirds of the members of your Honorable Board is required in order to adopt the Amended Bond Act. Your Committee recommends the adoption of the proposed Amended Bond Act.

Transmitted herewith for your review and approval is an amended bond act (the “Amended Bond Act”) which, if adopted, would authorize the County of Westchester (the “County”) to issue an additional \$8,245,000 in bonds to finance the following capital project:

RB03X – Louisa Street Over Hudson Division Railroad, Peekskill (BIN 2262400) (“RB03X”).

The Amended Bond Act, in the total amount of \$9,120,000, which includes \$875,000 in previously authorized bonds of the County, would finance the cost of design, construction management and construction associated with the reconstruction of the Louisa Street bridge over the Hudson Division Railroad in the City of Peekskill. Work will include removal and replacement of the existing asphalt wearing surface and waterproofing, replacement of the steel joint system with a new elastomeric concrete joint system, rehabilitation to the top of the structural deck, as required, and rehabilitation of the concrete stringers, substructure, abutments and fascia railing and fencing.

The Department of Public Works and Transportation (“Department”) has advised that this bridge, which was built in 1984 and has an annual daily traffic count (“AADT”) of 7,385, is in need of rehabilitation to maintain a safe roadway for the traveling public. In 2022, the New York State Department of Transportation gave the bridge a condition rating of 4.29 and the roadway has continued to deteriorate. This rating system, using a scale of 1 (“hazardous”) through 7 (“new”), is a weighted average of the condition of an evaluated bridge. A rating below 5 indicates that a bridge requires work and delay of this work could result in the continued deterioration of the bridge.

Design is currently underway by a consultant and shall be completed by the 4th Quarter of 2023. It is anticipated that construction will take approximately twelve (12) months to complete and will begin after award and execution of the construction contracts.

Your Honorable Board has previously authorized the County to issue bonds associated with this project as follows: Bond Act No. 2020-7 in the amount of \$875,000, which funded design services. No bonds have been issued under Bond Act No. 2020-7. Accordingly, the authority of your Honorable Board is now requested to amend Bond Act No. 2020-7 to increase the initial amount of bonds authorized by \$8,245,000, from \$875,000 to \$9,120,000, to expand the scope of work to include construction and construction management, and to increase the period of probable usefulness of said bonds.

Therefore, no environmental review is required. As you know, your Honorable Board may use such expert advice to reach its own conclusion.

Based on the importance of this project to the County, favorable action on the proposed Amended Bond Act is respectfully requested.

Westchester County Board of Legislators

Dear Members of the Board of Legislators:

Transmitted herewith for your review and approval is an amended Bond Act (“Amended Bond Act”) which, if adopted, would authorize the County of Westchester (“County”) by and on behalf of the Refuse Disposal District #1 (“District”) to issue an additional \$14,380,000 in bonds of the County in connection with the following capital project:

RD017 – Material Recovery Facility and Transfer Station Rehabilitation (“RD017”).

The Amended Bond Act, in the total amount of \$15,830,000, which amount includes \$1,000,000 in previously authorized bonds of the County, would finance the costs of design, construction management and construction costs for various improvements to District transfer stations and the Materials Recovery Facility, a class of objects or purposes, including, but not limited to, incidental expenses in connection therewith, replacement of new compactors and optical sorters, reconstruction of paper bunkers, rehabilitation of tipping floors, reconstruction of the roof with reinforcement for the potential installation of solar panels.

The Department of Environmental Facilities (“Department”) has advised that the facility, which was built in 1992, requires certain upgrades to maintain the safety and efficiency of the facility in the ever-changing recyclables market. RD017 will help with these upgrades; the roof replacement, which includes a modern misting system to reduce airborne contaminants, replacement of failing compactors to allow for continued processing of municipal solid waste, optical sorters and paper bunker reconstruction to ensure the continued ability to process and market recyclables.

The Department has further advised that this component of RD017 has previously received approval by the New York State Comptroller (“Comptroller”) in accordance with Section 268 of the New York State County Law by an Order of the Comptroller dated January 26, 2018.

For the components requiring design, design is or will be undertaken by a consultant, and each project is expected to be completed within different timeframes. The Department is currently working on the roof replacement, which is in the design phase with a consultant, which is anticipated to be completed in the fourth quarter of 2023. permits. The Department is also working a consultant to review the compactor installation, the first two of which are anticipated to be installed by third quarter of 2023.

It should be noted that your Honorable Board has authorized the County to issue bonds for RD017 as indicated in the annexed fact sheet and as follows: Bond Act No. 156-2022 in the amount of \$1,000,000 to finance design in connection with this component of RD017. These bonds have not been sold. Accordingly, it is now requested that Bond Act No. 156-2022 be amended to increase the amount authorized by \$14,830,000, for a total authorized amount, as amended, of \$15,830,000, to revise the scope of Bond Act No. 156-2022 to include work associated with the construction phase of RD017, and to increase the period of probable usefulness of said bonds.

The Department of Planning has advised that based on its review, RD017 may be classified as a "Type II" action pursuant to the State Environmental Quality Review Act ("SEQR") and its implementing regulations, 6 NYCRR Part 617. Therefore, no environmental review is required. As you know, your Honorable Board may use such expert advice to reach its own conclusion.

Based on the importance of this project to the County, favorable action on the proposed Amended Bond Act is respectfully requested.

George Latimer
County Executive

July 28, 2023

Westchester County Board of Legislators
800 Michaelian Office Building
White Plains, New York 10601

Dear Members of the Board of Legislators:

Transmitted herewith for your review and approval is an amended bond act (“Amended Bond Act”), which, if adopted by your Honorable Board, would authorize the County of Westchester (“County”) to issue additional bonds to finance the following capital project:

SSM21 – Saw Mill Section B Relief Sewer (“SSM21”).

The Amended Bond Act, in the total amount of \$15,000,000, which includes \$11,500,000 in previously authorized bonds of the County, would finance the cost of design, construction management and construction costs for a new relief sewer for a section of the County’s Saw Mill Section B sanitary trunk sewer along Hunt’s Lane in the Town of New Castle in order to handle all existing and future sewer flow in this area of the County’s Saw Mill Sanitary Sewer District (“District”), presently expected to include but not limited to, excavation, backfill, tunneling, paving and other roadwork, and installation of sanitary sewer pipe and manholes.

The Department of Environmental Facilities (“Department”) has advised that SSM21 will provide a new relief sewer parallel to the existing trunk sewer to eliminate a “bottleneck” in the collection system to ensure sufficient capacity for all current and anticipated future flow in this area of the District. The increased sewer capacity would allow the County to extend services to parcels the sewer district reserve which are currently not connected and/or planned for future development.

Design is currently being undertaken by a consultant and is expected to be completed by the end of the third quarter of 2023. It is estimated that construction will take 16 months to complete and will begin after award and execution of the construction contracts.

It should be noted that your Honorable Board has authorized the County to issue bonds for SSM21 as indicated in the annexed fact sheet and as follows: Bond Act No. 186-2021 in the amount of \$11,500,000 to finance design and construction. These bonds have not been sold. Accordingly, it is now requested that Bond Act No. 186-2021 be amended to increase the amount authorized by \$3,500,000, for a total authorized amount, as amended, of \$15,000,000.

Office of the County Executive

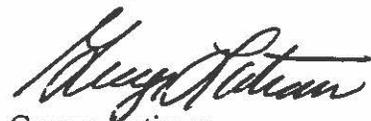

Michaelian Office Building
148 Martine Avenue
White Plains, New York 10601

Telephone: (914) 995-2900 E-mail: ceo@westchestercountyny.gov

The Planning Department has advised that based on its review, SSM21 has been classified as an “Unlisted” action under the State Environmental Quality Review Act (“SEQR”) and that SSM21 was previously reviewed by the Westchester County Board of Legislators, which classified the project as an Unlisted action under SEQR. In accordance with SEQR, a Short Environmental Assessment Form was prepared and, on October 18, 2021, a Negative Declaration was issued by the Board of Legislators (Resolution 178-2021). Since the current request is for an increase in funding with no change in the scope of the project, the original Negative Declaration remains valid and no further environmental review is required.

Based on the importance of this project to the County, favorable action on the proposed Amended Bond Act is respectfully requested.

Sincerely,

A handwritten signature in black ink, appearing to read "George Latimer", written in a cursive style.

George Latimer

**HONORABLE BOARD OF LEGISLATORS
THE COUNTY OF WESTCHESTER, NEW YORK**

Your Committee is in receipt of a transmission from the County Executive recommending approval by the County of Westchester (“County”) of an amended bond act (“Amended Bond Act”) which, if adopted, will authorize the County to issue up to \$3,500,000 in additional bonds of the County to finance capital project SSM21 – Saw Mill Section B Relief Sewer (“SSM21”).

The Amended Bond Act in the total amount of \$15,000,000 was prepared by the law firm Norton Rose Fulbright and includes \$11,500,000 in previously authorized bonds of the County would finance the cost of design, construction management and construction costs for a new relief sewer for a section of the County’s Saw Mill Section B sanitary trunk sewer along Hunt’s Lane in the Town of New Castle in order to handle all existing and future sewer flow in this area of the County’s Saw Mill Sanitary Sewer District (“District”), presently expected to include but not limited to, excavation, backfill, tunneling, paving and other roadwork, and installation of sanitary sewer pipe and manholes.

The Department of Environmental Facilities (“Department”) has advised that SSM21 will provide a new relief sewer parallel to the existing trunk sewer to eliminate a “bottleneck” in the collection system to ensure sufficient capacity for all current and anticipated future flow in this area of the District. The increased sewer capacity would allow the County to extend services to parcels the sewer district reserve which are currently not connected and/or planned for future development.

Design is currently being undertaken by a consultant and is expected to be completed by the end of the third quarter of 2023. It is estimated that construction will take 16 months to complete and will begin after award and execution of the construction contracts.

It should be noted that your Honorable Board has authorized the County to issue bonds for SSM21 as indicated in the annexed fact sheet and as follows: Bond Act No. 186-2021 in the amount of \$11,500,000 to finance design and construction. These bonds have not been sold. Accordingly, it is now requested that Bond Act No. 186-2021 be amended to increase the amount authorized by \$3,500,000, for a total authorized amount, as amended, of \$15,000,000.

The Planning Department has advised your Committee that based on its review, SSM21 has been classified as an “Unlisted” action under the State Environmental Quality Review Act (“SEQR”) and that SSM21 was previously reviewed by the Westchester County Board of Legislators, which classified the project as an Unlisted action under SEQR. In accordance with SEQR, a Short Environmental Assessment Form was prepared and, on October 18, 2021, a Negative Declaration was issued by the Board of Legislators (Resolution 178-2021). Since the current request is for an increase in funding with no change in the scope of the project, the original Negative Declaration remains valid and no further environmental review is required. Your Committee has reviewed the annexed SEQR documentation and concurs with this recommendation.

Your Committee has carefully considered the Amended Bond Act, and recommends approval of the Amended Bond Act. It should be noted that an affirmative vote of two-thirds of the members of your Honorable Board is required in order to adopt the Amended Bond Act.

SSM21 SAW MILL SECTION B RELIEF SEWER**

The Planning Department has reviewed the above referenced capital project (Fact Sheet Unique ID: 2130) in accordance with the State Environmental Quality Review Act and its implementing regulations, 6 NYCRR Part 617 (SEQR).

The project was previously reviewed by the Westchester County Board of Legislators, which classified the project as an Unlisted action under SEQR. It is hereby determined that it is to the financial advantage of the County not to impose and collect from registered owners of such bonds any charges for mailing, shipping and insuring bonds transferred or exchanged by the fiscal agent, and, accordingly, pursuant to paragraph c of Section 70.00 of the Local Finance Law, no such charges shall be so collected by the fiscal agent. Such bonds shall contain substantially the recital of validity clause provided for in Section 52.00 of the Local Finance Law and shall otherwise be in such form and contain such recitals in addition to those required by Section 52.00 of the Local Finance Law, as the Commissioner of Finance shall determine.

Westchester County Board of Legislators
800 Michaelian Office Building
White Plains, New York 10601

Dear Members of the Board of Legislators:

Transmitted herewith for your review and approval is an Act which, if adopted, would authorize the County of Westchester ("County") to amend its current year Capital Budget ("Capital Budget Amendment"), as well to as adopt a related bond act (the "Bond Act") to finance the following capital project:

SY038 – Yonkers Joint Treatment Plant Engine Replacement & Blower Reconditioning ("SY038").

The proposed Capital Budget Amendment will amend the County's 2023 capital budget to move \$5,000,000 originally appropriated for 2024 to 2023, and to revise the project financing plan for the non-county shares.

The Bond Act, in the amount of \$6,320,600, would finance additional construction funding for the replacement of the two remaining diesel/methane dual fuel engines with natural gas/anaerobic digester gas dual fuel engines and all their auxiliary systems and appurtenances, including all structural, electrical, controls, plumbing, and HVAC systems.

The Department of Environmental Facilities ("Department") has advised that this is a previously programmed project which originally requested funds for replacement of the three diesel/methane dual fuel engines and reconditioning of the blowers. The project was revised to provide for refurbishment of the engines, and reconditioning of the blowers. Further revision is now required by the New Title V Air Permit Emissions Limits which require the replacement of the existing diesel/methane engines with cleaner more efficient methane/natural gas fired engines and all their auxiliary systems and appurtenances. This multi-phased project will also replace the existing aeration blowers with new more efficient turbo blowers and controls, provide for aeration system upgrades and install a new natural gas main.

Design is currently underway by a consultant and is expected to be completed by the end of the 3rd quarter of 2023. It is estimated that construction will take 24 months to complete and will begin after award and execution of the construction contracts.

Office of the County Executive

Michaelian Office Building
148 Martine Avenue
White Plains, New York 10601

Telephone: (914) 995-2900

It should be noted that your Honorable Board has previously authorized the County to issue bonds for SY038 as indicated in the annexed fact sheet.

The Planning Department has advised that based on its review, SY038 may be classified as a "Type II" action pursuant to the State Environmental Quality Review Act ("SEQR") and its implementing regulations, 6 NYCRR Part 617. Therefore, no environmental review is required. As you know, your Honorable Board may use such expert advice to reach its own conclusion.

The Planning Department has advised that the Planning Board has previously reviewed SY038 and issued a report, and that since there is no change in the scope of the work and this is simply a change in the financing plan, no further action by the Planning Board is necessary at this time.

Based on the importance of this project to the County, favorable action on the proposed Amended Bond Act and Capital Budget Amendment is respectfully requested.

Sincerely,

George Latimer
County Executive

**HONORABLE BOARD OF LEGISLATORS
THE COUNTY OF WESTCHESTER, NEW YORK**

Your Committee is in receipt of a transmission from the County Executive recommending approval by the County of Westchester (“County”) of an act amending the County’s current-year capital budget (“Capital Budget Amendment”), as well as adoption of a related bond act (the “Bond Act”) which, if adopted, will authorize the County to issue an additional \$6,320,600 in bonds to finance capital project SY038 – Yonkers Joint Treatment Plant Engine Replacement & Blower Reconditioning (“SY038”).

Your Committee is advised that the Capital Budget Amendment will amend the County’s 2023 capital budget to move \$5,000,000 originally appropriated for 2024 to 2023, and to revise the project financing plan for the non-county shares.

The related Bond Act, prepared by the law firm Norton Rose Fulbright, would finance additional construction funding for the replacement of the two remaining diesel/methane dual fuel engines with natural gas/anaerobic digester gas dual fuel engines and all their auxiliary systems and appurtenances, including all structural, electrical, controls, plumbing, and HVAC systems.

The Department of Environmental Facilities (“Department”) has advised that this is a previously programmed project which originally requested funds for replacement of the three diesel/methane dual fuel engines and reconditioning of the blowers. The project was revised to provide for refurbishment of the engines, and reconditioning of the blowers. Further revision is now required by the New Title V Air Permit Emissions Limits which require the replacement of the existing diesel/methane engines with cleaner more efficient methane/natural gas fired engines and all their auxiliary systems and appurtenances. This multi-phased project will also replace the existing aeration blowers with new more efficient turbo blowers and controls, provide for aeration system upgrades and install a new natural gas main.

Your Committee is advised that Design is currently underway by a consultant and is expected to be completed by the end of the 3rd quarter of 2023. It is estimated that construction will take 24 months to complete and will begin after award and execution of the construction contracts.

It should be noted that your Honorable Board has previously authorized the County to issue bonds for prior components of SY038 as indicated in the annexed fact sheet.

The Planning Department has advised your Committee that based on its review, SPC38 may be classified as a Type “II” action pursuant to the State Environmental Quality Review Act (“SEQR”) and its implementing regulations, 6 NYCRR Part 617. Therefore, no environmental review is required. Your Committee has reviewed the annexed SEQR documentation and concurs with this recommendation.

The Planning Department has further advised your Committee that the Planning Board has previously reviewed SY038 and issued a report, and that since there is no change in the scope of the work and this is simply a change in the financing plan, no further action by the Planning Board is necessary at this time.

Your Committee has carefully considered the proposed Capital Budget Amendment, as well as the related Bond Act, and recommends approval of both of the proposed Acts, noting that the Bond Act can only be enacted following adoption of the Capital Budget Amendment. It should be noted that an affirmative vote of two-thirds of the members of your Honorable Board is required in order to amend the County’s Capital Budget and to adopt the Bond Act.

RE: **Capital Budget Amendment –
SY038 Yonkers Joint Treatment Plant Engine Replacement (2023 CBA)**

The County Executive is requesting an amendment to the 2023 Capital Budget to modify the funding of the above project. Capital project **SY038 Yonkers Joint Treatment Plant Engine Replacement (2023 CBA)** will fund the rehabilitation of the engine blowers at the Yonkers Joint Treatment Plant. The capital budget amendment will fund increased costs in construction.

A Capital Budget Amendment (CBA) in the amount of \$5,000,000 is being requested to provide additional construction funding to address increased costs. This project was classified as a PL2, a project with physical planning and historic aspects by the Planning Board in the 2013 Report on the Capital Project Requests adopted July 24, 2012.

There are no changes to the physical planning aspects of this project as reviewed by the Board; therefore, no further action by your Board is necessary.

RE: **Message Requesting Immediate Consideration: CBA & Bond Act – SY057 – Replacement of Tarrytown Forcemain (Phase II) And Route 119 Gravity Sewer.**

This will confirm my request that the Board of Legislators allow submission of the referenced communication to be submitted to the Board of Legislators September 18, 2023 Agenda.

Transmitted herewith for your review and approval is an Act to amend the current-year capital budget (“Capital Budget Amendment”) as well as a related bond act (“Bond Act,”) which, if adopted, would authorize the County of Westchester (“County”) to issue up to \$5,000,000 in bonds of the County to finance the following capital project: SY057.

Therefore, since this communication is of the utmost importance, it is respectfully submitted that the County Board of Legislators accepts this submission for September 18, 2023 “blue sheet” calendar.

Thank you for your prompt attention to this matter.

Dear Members of the Board of Legislators:

Transmitted herewith for your review and approval is an Act to amend the current-year capital budget ("Capital Budget Amendment") as well as a related bond act ("Bond Act,") which, if adopted, would authorize the County of Westchester ("County") to issue up to \$5,000,000 in bonds of the County to finance the following capital project:

SY057 – Replacement of Tarrytown Forcemain (Phase II) And Route 119 Gravity Sewer ("SY057").

The proposed Capital Budget Amendment will amend the County's current-year capital budget to increase the County share for SY057 by \$5,000,000 by advancing the 2024 appropriation to 2023.

The Department of Environmental Facilities ("Department") has advised that the first 4,200-foot force main section was replaced under capital project SY020 and was completed in 2017. The remaining section of forcemain and the gravity sewer section have reached the end of their useful life. A break in the old section of forcemain occurred in September, 2021 and was thereafter repaired. A second force main break occurred on January 26, 2022, which was also repaired. A third break occurred on July 10, 2023 and was repaired. Future breaks in this pipe can be expected if the pipe is not replaced as expeditiously as possible. The Department received a Notice of Violation for the release of partially treated discharge from the New York State Department of Environmental Conservation on July 13, 2023 advising the County that it is required to institute a corrective action plan ("Plan") by August 31, 2023. The Plan was timely submitted. This legislation seeking a Capital Budget Amendment and related bond act are a necessary first step in implementing that corrective action plan.

The Bond Act, in the amount of \$5,000,000, will finance the cost of design and construction management for the replacement or rehabilitation of a portion of the Tarrytown force main, including incidental expenses.

The Department has advised that SY057 provides for replacement of a section of the Tarrytown force main that was not replaced in the previous project. The scope of work involves replacement and/or rehabilitation of approximately 10,500 linear feet of 30" diameter force main and 1,300 linear feet of 30" gravity sewer. The Tarrytown force main carries sewage under pressure approximately 2.75 miles from the Tarrytown Pumping Station in the Village of Tarrytown to a quarter-mile section of gravity sewer that connects to the Saw Mill Trunk Sewer in the Village of Elmsford.

Following bonding authorization, design will be scheduled and is estimated that design will take twelve months to complete. It is anticipated that design will be completed using consultants. It is estimated that construction will take twenty-four months to complete and will begin after award and execution of the construction contracts, subject to approval of construction financing by your Honorable Board.

The Planning Department has advised that based on its review, SY057 may be classified as a "Type II" action pursuant to the State Environmental Quality Review Act ("SEQR") and its implementing regulations, 6 NYCRR Part 617. Therefore, no environmental review is required. As you know, your Honorable Board may use such expert advice to reach its own conclusion.

Section 167.131 of the County Charter mandates that a capital budget amendment that introduces a new capital project or changes the location, size or character of an existing capital project be accompanied to the Board of Legislators by a report of the Westchester County Planning Board (the "Planning Board") with respect to the physical planning aspects of the project. Accordingly, the Planning Board report for SY057 has been annexed.

Based on the importance of this capital project to the County, favorable action on the annexed proposed Acts is respectfully requested.

Sincerely,

George Latimer
County Executive

**HONORABLE BOARD OF LEGISLATORS
THE COUNTY OF WESTCHESTER, NEW YORK**

Your Committee is in receipt of a transmittal from the County Executive recommending approval by the County of Westchester (“County”) of an act, which, if adopted, will amend the County’s current-year capital budget (“Capital Budget Amendment”), as well as adoption of a related bond act (“Bond Act”) in the amount of \$5,000,000 prepared by the law firm Norton Rose Fulbright to finance capital project SY057 – Replacement of Tarrytown Forcemain (Phase II) And Route 119 Gravity Sewer (“SY057”).

Your Committee is advised that the Capital Budget Amendment will amend the County’s current-year capital budget to increase the County share for SY057 by \$5,000,000 by advancing the 2024 appropriation to 2023.

The Department of Environmental Facilities (“Department”) has advised that the first 4,200-foot force main section was replaced under capital project SY020 and was completed in 2017. The remaining section of forcemain and the gravity sewer section have reached the end of their useful life. A break in the old section of forcemain occurred in September, 2021 and was thereafter repaired. A second force main break occurred on January 26, 2022, which was also repaired. A third break occurred on July 10, 2023 and was repaired. Future breaks in this pipe can be expected if the pipe is not replaced as expeditiously as possible. The Department received a Notice of Violation for the release of partially treated discharge from the New York State Department of Environmental Conservation on July 13, 2023 advising the County that it is required to institute a corrective action plan (“Plan”) by August 31, 2023. The Plan was timely submitted. This legislation seeking a Capital Budget Amendment and related bond act are a necessary first step in implementing that corrective action plan.

The Bond Act, in the amount of \$5,000,000, will finance the cost of design and construction management for the replacement or rehabilitation of a portion of the Tarrytown force main, including incidental expenses.

The Department has advised that SY057 provides for replacement of a section of the Tarrytown force main that was not replaced in the previous project. The scope of work involves replacement and/or rehabilitation of approximately 10,500 linear feet of 30" diameter force main and 1,300 linear feet of 30" gravity sewer. It is estimated that construction will take twenty-four months to complete and will begin after award and execution of the construction contracts, subject to approval of construction financing by your Honorable Board.

The Planning Department has advised your Committee that based on its review, SY057 may be classified as a Type "II" action pursuant to the State Environmental Quality Review Act ("SEQR") and its implementing regulations, 6 NYCRR Part 617. Therefore, no environmental review is required. Your Committee has reviewed the annexed SEQR documentation and concurs with this recommendation.

Your Committee is advised that an affirmative vote of two-thirds of the members of this Honorable Board is required in order to amend the County's Capital Budget, as well as to adopt the related Bond Act. In addition, Section 167.131 of the County Charter mandates that a capital budget amendment that introduces a new capital project or changes the location, size or character of an existing capital project be accompanied to the Board of Legislators by a report of the Westchester County Planning Board (the "Planning Board") with respect to the physical planning aspects of the project. Accordingly, the Planning Board report for SY057 is annexed.

Your Committee has carefully considered the proposed Capital Budget Amendment, as well as the related Bond Act, and recommends approval of both of the proposed Acts, noting that the Bond Act may only be enacted following adoption of the Capital Budget Amendment. It

should also be noted that an affirmative vote of two-thirds of the members of your Honorable Board is required in order to amend the County's Capital Budget and to adopt the Bond Act.

Such bonds shall contain substantially the recital of validity clause provided for in Section 52.00 of the

Local Finance Law and shall otherwise be in such form and contain such recitals in addition to those required by Section 52.00 of the Local Finance Law, as the Commissioner of Finance shall determine.

Current Bond Description: The capital budget amendment and bond request will fund design and construction management for the replacement of the section of the Tarrytown force main that was not replaced in the previous project under Capital Project SY020. The scope of work of this project involves replacement of approximately 10,500 linear feet of 30" diameter force main with a new force main pipe. Depending on the chosen route, the approximate 1,300 linear foot section of 30" gravity sewer will either be replaced or rehabilitated. The Tarrytown force main carries sewage approximately 2.75 miles from the Tarrytown Pumping Station in the Village of Tarrytown under pressure to a 0.25 mile gravity sewer section that connects to the Saw Mill Trunk Sewer in the Village of Elmsford. The first 4,200 feet of force main was replaced under capital project SY020 and was completed in 2017. The remaining section of forcemain and the gravity sewer section have reached the end of their useful life. A break in the old section of forcemain occurred in September, 2021 and was repaired. A second force main break occurred on 1/26/22, which was repaired. A third break occurred on 7/10/23 and was repaired. Future breaks in this pipe can be expected if the pipe is not replaced as expeditiously as possible. WCDEF received a Notice of Violation from the New York State Department of Environmental Conservation on July 13, 2023 and we are required to institute a corrective action plan by August 31, 2023. The submission of this CBA and bond request is the first step of that corrective action plan.
