

**THE HONORABLE BOARD OF LEGISLATORS
THE COUNTY OF WESTCHESTER**

Your Committee is in receipt of a transmittal from the County Executive recommending approval of a bond act (the "Bond Act"), which if adopted, would authorize the County of Westchester (the "County") to issue up to \$725,000.00 in bonds to finance a component of capital project BPL26 - Flood Mitigation ("BPL26"). Also attached is an act (the "Act") authorizing an intermunicipal agreement (the "IMA") with the Village of Croton-on-Hudson (the "Village") setting forth the terms of the flood mitigation project (the "Project").

Your Committee is advised that the Bond Act, in the amount of Seven Hundred Twenty Five Thousand (\$725,000.00) Dollars, prepared by the law firm of Hawkins Delafield & Wood LLP, would finance up to 50% of the costs associated with the construction of new stormwater infrastructure to reduce flooding on residential and commercial properties along Brook Street between Old Post Road and North Riverside Avenue in the Village (the "Property"). The Property is identified as Flood Problem Areas CRO-3 and CRO-6 in the stormwater reconnaissance plan for the Peekskill and Haverstraw Bays Watershed. It is estimated that this Project will take approximately two (2) years to complete.

Your Committee is advised that the proposed IMA sets forth the responsibilities of the County and the Village in connection with the Project. Under the proposed IMA, the Village will grant a non-exclusive easement to the County over the Property in order to facilitate the issuance of County bonds to finance the capital project's construction and such easement shall encumber the Property for so long as the bonds of the County are outstanding. The Village shall construct, operate, maintain, repair, replace, inspect or restore the Project. In accordance with the IMA, the County and the Village will each provide up to fifty (50%) percent of the total cost of the project which is estimated to be One Million Four Hundred and Two Thousand (\$1,402,000.00) Dollars. The County will pay to the Village, on a reimbursement basis, an amount not to exceed Seven Hundred and One Thousand (\$701,000.00) Dollars. Should the project costs exceed the amount contributed by the County, the Village shall be solely responsible for any additional amount. Following construction, the Village will be responsible for the operation, maintenance, scheduling and security of the Property and the Project at its expense. The term of the IMA will commence upon execution, and will continue for a period at least equal to the life of any County bonds issued to fund the project, which is estimated to be forty (40) years.

Your Honorable Board enacted the Westchester County Storm Water Management Law ("SWML") in 2011 to assist municipalities with storm water management (flood mitigation). *See* Laws of Westchester County Chapter 241, Article III-A, Sections 241.252-241.260. The SWML provides for the evaluation of flooding within the County through preparation of watershed "reconnaissance plans," and the SWML authorizes County cooperation with municipalities, including funding assistance, to improve storm water management and reduce flooding.

By Act No. 135 - 2014, your Honorable Board approved the Stormwater Reconnaissance Plan for the Peekskill and Haverstraw Bays Watershed dated August 4, 2014. The Village is identified as an area of recurring flooding in this plan. Criteria for funding stormwater management (flood mitigation) projects are also described in the plan, including discretionary fund policy requirements to affirmatively further fair housing. The IMA requires the Village to adopt regulations and policies consistent with the flood mitigation criteria in the Stormwater Reconnaissance Plan for the Saw Mill River - Pocantico River Watershed.

Your Committee notes that this Honorable Board has previously authorized the County to issue bonds which have financed prior components of this project as set forth on the attached fact sheet.

Your Committee is further advised that since BPL26 is a "general fund" project, specific components are subject to a capital budget amendment. Section 1 of the Bond Act authorizes an amendment to the County's capital budget to the extent the project scope is inconsistent with any details set forth in the current capital budget. Accordingly, the Bond Act, in addition to authorizing the issuance of bonds for this project, will also amend the 2025 capital budget to reflect the specific location of this project component.

In addition, section 167.131 of the Laws of Westchester County mandates that a capital budget amendment that introduces a new capital project or changes the location, size or character of an existing capital project be accompanied to the Board of Legislators by a report of the Westchester County Planning Board (the "Planning Board") with respect to the physical planning aspects of the project. Accordingly, the Planning Board Report for BPL26 is annexed.

The Department of Planning has advised your Committee that based on its review the proposed flood mitigation project may be classified as an "Unlisted" action under the State Environmental Quality Review Act and its implementing regulations 6 NYCRR, Part 617 ("SEQRA"). A Resolution and Short Environmental Assessment form ("EAF"), prepared by the Department of Planning, are attached to assist your Honorable Board in complying with SEQRA. For the reasons set forth in the attached EAF, your Committee believes that the proposed action will not have any significant adverse impact on the environment and urges your Honorable Board to adopt the annexed Resolution prior to enacting the Bond Act and Act authorizing the IMA.

Please note that an affirmative vote of two-thirds of the members of your Honorable Board is required in order to adopt the Bond Act, while a simple majority of the voting strength of your Honorable Board is required to adopt the Act authorizing the IMA.

Based on the importance of this project to the County, your Committee recommends favorable action on the annexed Bond Act and Act authorizing the IMA.

RESOLUTION NO. 2025 - _____

WHEREAS, there is pending before this Honorable Board a Bond Act to authorize the County of Westchester (the “County”) to issue bonds in connection with capital project BPL26 – Flood Mitigation (Unique ID# 3005) and an Act to authorize the County to enter into an intermunicipal agreement with the Village of Croton-on-Hudson (the “Village”) in connection with a flood mitigation project to construct new stormwater infrastructure to reduce flooding on residential and commercial properties along Brook Street between Old Post Road and North Riverside Avenue in the Village (together the “Project”); and

WHEREAS, this Honorable Board has determined that the proposed Project would constitute an action under Article 8 of the Environmental Conservation Law, known as the State Environmental Quality Review Act (“SEQRA”); and

WHEREAS, pursuant to SEQRA and its implementing regulations (6 NYCRR Part 617) this project is classified as an “Unlisted” action, which requires this Honorable Board to make a determination as to whether the proposed action will have a significant impact on the environment; and

WHEREAS, the County is the only involved agency with discretionary authority for this action and, therefore, is assuming the role of Lead Agency; and

WHEREAS, in accordance with SEQRA and its implementing regulations, a Short Environmental Assessment Form has been prepared to assist this Honorable Board in its environmental assessment of this proposed action; and

WHEREAS, this Honorable Board has carefully considered the proposed action and has reviewed the attached Short Environmental Assessment Form and the criteria set forth in Section 617.7 of the implementing regulations and has identified the relevant areas of environmental concern, as described in the attached Short Environmental Assessment Form, to determine if this proposed action will have a significant adverse impact on the environment.

NOW, THEREFORE, be it resolved by the County Board of Legislators of the County of Westchester, State of New York, as follows:

RESOLVED, that based upon this Honorable Board's review of the Short Environmental Assessment Form and the reasons set forth therein, this Board finds that there will be no significant adverse impact on the environment in connection with the Project; and be it further

RESOLVED, the Clerk of the Board of Legislators is authorized and directed to sign the Determination of Significance in the Short Environmental Assessment Form, which is attached and made a part hereof, as responsible officer in Lead Agency; to issue this "Negative Declaration" on behalf of this Board in satisfaction of SEQRA; and to immediately transmit same to the Commissioner of Planning to be filed, published and made available pursuant to the requirements of Part 617 of 6 NYCRR; and be it further

RESOLVED, that this Resolution shall take effect immediately.

SUBJECT: **STATE ENVIRONMENTAL QUALITY REVIEW FOR CAPITAL PROJECT:
BPL26 FLOOD MITIGATION – BROOK STREET DRAINAGE
IMPROVEMENTS (CROTON-ON-HUDSON)**

The Planning Department has reviewed the above referenced capital project (Fact Sheet Unique ID 3005) in accordance with the State Environmental Quality Review Act and its implementing regulations, 6 NYCRR Part 617 (SEQR).

Pursuant to SEQR, this project has been classified as an Unlisted action. The County, in an effort to expedite the project, is conducting uncoordinated review as permitted by SEQR. A Short Environmental Assessment Form has been prepared for the project for consideration by the Board of Legislators.

Please contact me if you require any additional information regarding this document.

Part 1 - Project Information

Instructions for Completing

Part 1 - Project Information. The applicant or project sponsor is responsible for the completion of Part 1. Responses become part of the application for approval or funding, are subject to public review, and may be subject to further verification. Complete Part 1 based on information currently available. If additional research or investigation would be needed to fully respond to any item, please answer as thoroughly as possible based on current information.

Complete all items in Part 1. You may also provide any additional information which you believe will be needed by or useful to the lead agency; attach additional pages as necessary to supplement any item.

Part 1 - Project and Sponsor Information							
Brook Street Drainage Corridor Improvements - Village of Croton-on-Hudson							
Name of Action or Project: Brook Street Drainage Corridor Improvements							
Project Location (describe, and attach a location map): Along Brook Street and Terrace Place between Old Post Road and Riverside Avenue in Croton-on-Hudson, NY							
Brief Description of Proposed Action: Construction of new drainage infrastructure along Brook Street and Terrace Avenue, between Old Post Road and Riverside Avenue, to reduce flooding on residential and commercial properties. Specific improvements include new storm drainage routes which will include catch basins and pipes that will divert stormwater drainage from a series of open and closed culverts running through several properties along and under Brook Street.							
Name of Applicant or Sponsor: Village of Croton-on-Hudson		Telephone: (914) 271-4848 E-Mail: bhealy@crotononhudson-ny.gov					
Address: 1 Van Wyck Street							
City/PO: Croton-on-Hudson		State: NY	Zip Code: 10520				
1. Does the proposed action only involve the legislative adoption of a plan, local law, ordinance, administrative rule, or regulation? If Yes, attach a narrative description of the intent of the proposed action and the environmental resources that may be affected in the municipality and proceed to Part 2. If no, continue to question 2.			<table border="1" style="width: 100%; text-align: center;"> <tr> <th style="width: 50%;">NO</th> <th style="width: 50%;">YES</th> </tr> <tr> <td>☒</td> <td>☐</td> </tr> </table>	NO	YES	☒	☐
NO	YES						
☒	☐						
2. Does the proposed action require a permit, approval or funding from any other governmental Agency? If Yes, list agency(s) name and permit or approval: Westchester County Stormwater Advisory Board, Westchester County Board of Legislators			<table border="1" style="width: 100%; text-align: center;"> <tr> <th style="width: 50%;">NO</th> <th style="width: 50%;">YES</th> </tr> <tr> <td>☐</td> <td>☒</td> </tr> </table>	NO	YES	☐	☒
NO	YES						
☐	☒						
3.a. Total acreage of the site of the proposed action?		+/- 2.6 acres					
b. Total acreage to be physically disturbed?		+/- 2.6 acres					
c. Total acreage (project site and any contiguous properties) owned or controlled by the applicant or project sponsor?		+/- 2.6 acres					
4. Check all land uses that occur on, adjoining and near the proposed action. ☐ Urban ☐ Rural (non-agriculture) ☐ Industrial ☒ Commercial ☒ Residential (suburban) ☐ Forest ☐ Agriculture ☐ Aquatic ☐ Other (specify): _____ ☐ Parkland							

5. Is the proposed action, a. A permitted use under the zoning regulations?	NO ☐	YES ☐	N/A ☒
b. Consistent with the adopted comprehensive plan?	☐	☒	☐
6. Is the proposed action consistent with the predominant character of the existing built or natural landscape?	NO ☐	YES ☒	
7. Is the site of the proposed action located in, or does it adjoin, a state listed Critical Environmental Area? If Yes, identify: <u>Reason: Exceptional or unique character, Agency: Westchester County, Date: 1-31-90</u>	NO ☐	YES ☒	
8. a. Will the proposed action result in a substantial increase in traffic above present levels?	NO ☒	YES ☐	
b. Are public transportation service(s) available at or near the site of the proposed action?	☐	☒	
c. Are any pedestrian accommodations or bicycle routes available on or near site of the proposed action?	☐	☒	
9. Does the proposed action meet or exceed the state energy code requirements? If the proposed action will exceed requirements, describe design features and technologies:	NO ☒	YES ☐	
10. Will the proposed action connect to an existing public/private water supply? If No, describe method for providing potable water:	NO ☒	YES ☐	
11. Will the proposed action connect to existing wastewater utilities? If No, describe method for providing wastewater treatment:	NO ☒	YES ☐	
12. a. Does the site contain a structure that is listed on either the State or National Register of Historic Places?	NO ☒	YES ☐	
b. Is the proposed action located in an archeological sensitive area?	☐	☒	
13. a. Does any portion of the site of the proposed action, or lands adjoining the proposed action, contain wetlands or other waterbodies regulated by a federal, state or local agency?	NO ☐	YES ☒	
b. Would the proposed action physically alter, or encroach into, any existing wetland or waterbody? If Yes, identify the wetland or waterbody and extent of alterations in square feet or acres:	☒	☐	
<u>Stormwater will be diverted from a drainage route identified in the National Wetlands Inventory as a riverine waterbody. The existing route will not be moved or removed. Some drainage will be diverted from the route to new catch basins and pipes, to then re-enter the drainage route downstream.</u>			
14. Identify the typical habitat types that occur on, or are likely to be found on the project site. Check all that apply: ☐ Shoreline ☐ Forest ☐ Agricultural/grasslands ☐ Early mid-successional ☐ Wetland ☐ Urban ☒ Suburban			
15. Does the site of the proposed action contain any species of animal, or associated habitats, listed by the State or Federal government as threatened or endangered?	NO ☐	YES ☒	
16. Is the project site located in the 100 year flood plain?	NO ☒	YES ☐	
17. Will the proposed action create storm water discharge, either from point or non-point sources? If Yes, a. Will storm water discharges flow to adjacent properties? ☐ NO ☐ YES	NO ☒	YES ☐	
b. Will storm water discharges be directed to established conveyance systems (runoff and storm drains)? If Yes, briefly describe: ☐ NO ☐ YES			

18. Does the proposed action include construction or other activities that result in the impoundment of water or other liquids (e.g. retention pond, waste lagoon, dam)? If Yes, explain purpose and size: _____ _____	NO	YES
	☒	☐
19. Has the site of the proposed action or an adjoining property been the location of an active or closed solid waste management facility? If Yes, describe: _____ _____	NO	YES
	☒	☐
20. Has the site of the proposed action or an adjoining property been the subject of remediation (ongoing or completed) for hazardous waste? If Yes, describe: _____ Hudson River PCB Sediments (546031) and Harmon Railroad Yard - Waste Water Area (360010) _____	NO	YES

Short Environmental Assessment Form

Part 2 - Impact Assessment

Part 2 is to be completed by the Lead Agency.

Answer all of the following questions in Part 2 using the information contained in Part 1 and other materials submitted by the project sponsor or otherwise available to the reviewer. When answering the questions the reviewer should be guided by the concept "Have my responses been reasonable considering the scale and context of the proposed action?"

	No, or small impact may occur	Moderate to large impact may occur
1. Will the proposed action create a material conflict with an adopted land use plan or zoning regulations?	☒	☐
2. Will the proposed action result in a change in the use or intensity of use of land?	☒	☐
3. Will the proposed action impair the character or quality of the existing community?	☒	☐
4. Will the proposed action have an impact on the environmental characteristics that caused the establishment of a Critical Environmental Area (CEA)?	☒	☐
5. Will the proposed action result in an adverse change in the existing level of traffic or affect existing infrastructure for mass transit, biking or walkway?	☒	☐
6. Will the proposed action cause an increase in the use of energy and it fails to incorporate reasonably available energy conservation or renewable energy opportunities?	☒	☐
7. Will the proposed action impact existing:	☒	☐
a. public / private water supplies?	☒	☐
b. public / private wastewater treatment utilities?	☒	☐
8. Will the proposed action impair the character or quality of important historic, archaeological, architectural or aesthetic resources?	☒	☐
9. Will the proposed action result in an adverse change to natural resources (e.g., wetlands, waterbodies, groundwater, air quality, flora and fauna)?	☒	☐
10. Will the proposed action result in an increase in the potential for erosion, flooding or drainage problems?	☒	☐
11. Will the proposed action create a hazard to environmental resources or human health?	☒	☐

Short Environmental Assessment Form Part 3 Determination of Significance

For every question in Part 2 that was answered "moderate to large impact may occur", or if there is a need to explain why a particular element of the proposed action may or will not result in a significant adverse environmental impact, please complete Part 3. Part 3 should, in sufficient detail, identify the impact, including any measures or design elements that have been included by the project sponsor to avoid or reduce impacts. Part 3 should also explain how the lead agency determined that the impact may or will not be significant. Each potential impact should be assessed considering its setting, probability of occurring, duration, irreversibility, geographic scope and magnitude. Also consider the potential for short-term, long-term and cumulative impacts.

The project involves the diversion of stormwater from existing drainage infrastructure via the installation of eleven new catch basins and approximately 1,400 linear feet of high-density polyethylene (HDPE) pipe along Terrace Place, Old Post Road North and Brook Street. In addition, two existing catch basins and associated inlets on Brook Street will be rehabilitated to support proposed drainage improvements.

All work will occur in previously disturbed areas. As such the proposed action will not result in any significant adverse environmental impacts. Although there are several historic properties listed on the national register within the area, the closest structure is over 300 feet away. Furthermore, proposed improvements are not associated with any historic structures and no adverse impact on the area's historic character is anticipated.

Croton Point Park and River is a designated Critical Environmental Area located nearby. All County park lands were designated Critical Environmental Areas as they possess recreational, educational, social, cultural and ecological values for residents and visitors. The action will not impact the values provided by Croton Point Park and River as proposed improvements involve stormwater infrastructure approximately 3 miles away.

☐	Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action may result in one or more potentially large or significant adverse impacts and an environmental impact statement is required.
☒	Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action will not result in any significant adverse environmental impacts.

BPL26 Flood Mitigation**FIVE YEAR CAPITAL PROGRAM (in thousands)**

	Estimated Ultimate Total Cost	Approp- riated	2025	2026	2027	2028	2029	Under Review
Gross	120,750	76,500	44,250					
Non-County Share								
County Share	120,750	76,500	44,250					

Project Description

This project provides funding for County and local municipal flood mitigation projects that are recommended by the County Stormwater Advisory Board and identified in watershed-based flood action plans and the County-wide hazard mitigation plan and proposed by local municipalities. Grants and other funding sources will be sought to the greatest extent practical.

This 2025 Capital Budget Amendment to BPL26 Flood Mitigation for \$725,000 is to construct new stormwater infrastructure to reduce flooding on properties on Brook Street between Old Post Road and North Riverside Avenue in the Village of Croton-on-Hudson. The area was identified as Flood Problem Areas CRO-3 and CRO-6 in the stormwater reconnaissance plan for the Peekskill and Haverstraw bays watershed. The project has received a recommendation from the Westchester Stormwater Advisory Board.

Appropriation Requests

2009: \$5,400,000 for Flood Mitigation of County facilities.

2012: \$5,000,000 for Flood mitigation.

2013: \$5,000,000 for Flood mitigation.

2015: \$150,000 for Flood mitigation.

2016: \$5,000,000 for Flood mitigation.

2021: \$200,000 for Flood mitigation.

2022: \$11,000,000 for Flood mitigation.

2023: \$17,500,000 for Flood mitigation

1. \$17,000,000 for Village of Mamaroneck from the Sheldrake and Mamaroneck Rivers.
2. BOL add of \$300,000 for Town of Mamaroneck Drainage Study,
3. \$200,000 for Yonkers Scottl Field flood projects, and

2024 BOL adds (\$27,250,000 total)

1. Pelham Flood Mitigation, \$16,000,000
2. Pelham Manor Flood Mitigation, \$6,000,000
3. Bronxville Stormwater Conveyance system, \$ 200,000
4. City of Rye Stormwater System Improvements for Flood Mitigation, \$250,000
5. County Share of ACE Project in Village of Mamaroneck, \$4,000,000
6. Flood Mitigation Study - Village of Mamaroneck Jefferson Avenue Parking Lot, \$150,000
7. Village of Mamaroneck Detention Retention Enhancement Study, \$150,000
8. Ardsley Road and Edgemont Road Drainage Study in Edgemont, \$500,000

2025: \$10M additional flood mitigation funds for continuation of this project. \$34,250,000 for BOL additions to the 2025 appropriations

Justification

The program enables Westchester County to construct projects and partner with municipalities and other government agencies to provide funding for flood mitigation or flood damage reduction projects. Through partnerships with our municipalities and other government entities such as the US Army Corps of Engineers and NYS Department of Environmental Conservation, the County will work to reduce flooding problems and impacts on people and property throughout Westchester County.

Consistency with Programs or Plans

This project is consistent with the policies of “**Westchester 2025**”, the County’s long-range land use policies. As per Westchester County policy, stormwater management is required.

Planning Board Analysis

PL2 Planning Department staff will monitor the progress of design to address physical and environmental planning concerns including the stormwater management. Standards contained in the “Management Design Manual and the NYS Standards and Specifications for Erosion and Sediment Control” should be maintained.
