HONORABLE BOARD OF LEGISLATORS THE COUNTY OF WESTCHESTER, NEW YORK

Your Committee is in receipt of a transmittal from the County Executive recommending approval by the County of Westchester ("County") of a bond act ("Bond Act") in the amount of \$1,009,000 to finance capital project CC106 – Technology Upgrade On-Campus 2022/23-2026/27 ("CC106"). The Bond Act, which was prepared by the law firm Harris Beach, will finance the County's approximately 50% share of technology upgrades on campus at the Westchester Community College ("College"), including replacements for College's personal computers, laptops, tablets, test equipment, printers, scanners, phone system, routers, keyboard video mouse, consoled management system, firewalls, academic technology initiatives, wireless enhancement, digital signage, firewall replacement, Network Access Controller AC security replacement equipment, expansion of tablet and mobile device technology.

The College has advised that it is essential to purchase new computer hardware equipment for the college community.

The College has advised that the total amount appropriated for CC106 is \$2,018,000. This bond request in the amount of \$1,009,000, represents the County's 50% share of CC106. The remaining 50% will be funded by New York State.

Following bonding authorization, it is anticipated that CC106 will take 24 months to complete. It is anticipated that the work will be completed by in-house staff.

The Planning Department has advised your Committee that based on its review, CC106 may be classified as a Type "II" action pursuant to the State Environmental Quality Review Act ("SEQR") and its implementing regulations, 6 NYCRR Part 617. Therefore, no environmental review is required. Your Committee has reviewed the annexed SEQR documentation and concurs with this recommendation.

It should be noted that an affirmative vote of two-thirds of the members of your Honorable Board is required in order to adopt the Bond Act. Your Committee recommends the adoption of the proposed Bond Act.
