

(BOND) ACT 225 - 2025
ACT 226 - 2025

Reference: BPL26 (Unique ID# 2980)

**THE HONORABLE BOARD OF LEGISLATORS
THE COUNTY OF WESTCHESTER**

DRAFT
IMA ON FILE

Your Committee is in receipt of a transmittal from the County Executive recommending approval of a bond act (the "Bond Act"), which if adopted, would authorize the County of Westchester (the "County") to issue up to \$3,000,000.00 in bonds to finance a component of capital project BPL26 - Flood Mitigation ("BPL26"). Also attached is an act (the "Act") authorizing an intermunicipal agreement (the "IMA") with the Village of Bronxville (the "Village") setting forth the terms of the flood mitigation project (the "Project").

Your Committee is advised that the Bond Act, in the amount of \$3,000,000, prepared by the law firm of Hawkins Delafield & Wood LLP, would finance the County's share of the cost of a flood mitigation project in the area of Crawford Street, in the Village of Bronxville, identified as Flood Problem Area ECH-3 in the Stormwater Reconnaissance Plan for the Coastal Long Island Sound Basin.

Design has been completed by the Village. It is estimated that construction will take two years to complete and will begin after execution of the IMA and award and execution of the construction contracts.

The proposed IMA sets forth the responsibilities of the County and the Village in connection with the Project. Under the proposed IMA, the Village will grant the County a non-exclusive easement over the Property in order to facilitate the issuance of County bonds to finance the capital project's construction and such easement shall encumber the Property for so long as the bonds of the County are outstanding. The Village shall construct, operate, maintain, repair, replace, inspect or restore the Project. In accordance with the IMA, the County and the Village will each provide up to fifty (50%) percent of the total cost of the project which is estimated to be \$5,950,000. The County will pay to the Village, on a reimbursement basis, an amount not to exceed \$2,975,000. Should the project costs exceed the amount contributed by the County, the Village shall be solely responsible for any additional amount. Following construction, the Village will be responsible for the operation, maintenance, scheduling and security of the Property and the Project at its expense. The term of the IMA will commence upon execution, and will continue

for a period at least equal to the life of any County bonds issued to fund the Project, which is estimated to be thirty (30) years.

In 2011 your Honorable Board enacted the Westchester County Storm Water Management Law ("SWML") to assist municipalities with storm water management (flood mitigation). See Laws of Westchester County Chapter 241, Article III-A, Sections 241.252-241.260. The SWML provides for the evaluation of flooding within the County through preparation of watershed "reconnaissance plans," and the SWML authorizes County cooperation with municipalities, including funding assistance, to improve storm water management and reduce flooding.

By Act No. 134 – 2014, your Honorable Board approved the Stormwater Reconnaissance Plan for the Coastal Long Island Sound Watershed dated August 4, 2014. The Village is identified as an area of recurring flooding in this plan. Criteria for funding stormwater management (flood mitigation) projects are also described in the plan, including discretionary fund policy requirements to affirmatively further fair housing. The IMA requires the Village to adopt regulations and policies consistent with the flood mitigation criteria in the Stormwater Reconnaissance Plan for the Coastal Long Island Sound Watershed.

Your Committee notes that this Honorable Board has previously authorized the County to issue bonds which have financed prior components of this project as set forth on the attached fact sheet.

Your Committee is further advised that since BPL26 is a "general fund" project, specific components are subject to a capital budget amendment. Section I of the Bond Act authorizes an amendment to the County's capital budget to the extent the project scope is inconsistent with any details set forth in the current capital budget. Accordingly, the Bond Act, in addition to authorizing the issuance of bonds for this project, will also amend the 2025 capital budget to reflect the specific location of this project component.

In addition, section 167.131 of the Laws of Westchester County mandates that a capital budget amendment that introduces a new capital project or changes the location, size or character of an existing capital project be accompanied to the Board of Legislators by a report of the Westchester County Planning Board (the "Planning Board") with respect to the physical planning aspects of the project. Accordingly, the Planning Board Report for BPL26 is annexed.

The Planning Department has advised that the Village of Bronxville classified this project as an Unlisted action. On July 17, 2025, the Village Board of Trustees issued a notice of intent to serve as lead agency and circulated Part 1 of a short Environmental Assessment Form. On September 8, 2025, the Village Board issued a Negative Declaration for the project. Since the Village undertook coordinated review and the County was included as an involved agency, then, in accordance with 6 NYCRR, 617.6(b)(3), no further environmental review is required by the County.

Please note that an affirmative vote of two-thirds of the members of your Honorable Board is required in order to adopt the Bond Act, while a simple majority of the voting strength of your Honorable Board is required to adopt the Act authorizing the IMA.

Based on the importance of this project to the County, your Committee recommends favorable action on the annexed Bond Act and Act authorizing the IMA.

Project Description

This project provides funding for County and local municipal flood mitigation projects that are recommended by the County Stormwater Advisory Board and identified in watershed-based flood action plans and the County-wide hazard mitigation plan and proposed by local municipalities. Grants and other funding sources will be sought to the greatest extent practical.

The 2025 Capital Budget Amendment to BPL26 Flood Mitigation for the site specific Crawford Drainage Basin Improvements in the Village of Bronxville will reduce flood risk for downstream properties, including areas described as Flood Problem Area ECH-3 in the stormwater reconnaissance plan for the Coastal Long Island Sound Basin. The total cost of the project is \$5.95M. Approximately half of the project cost in the amount of \$3M will utilize already appropriated funds from BPL26 Flood Mitigation. The project has received a recommendation from the Westchester Stormwater Advisory Board.

Justification

The program enables Westchester County to construct projects and partner with municipalities and other government agencies to provide funding for flood mitigation or flood damage reduction projects. Through partnerships with our municipalities and other government entities such as the US Army Corps of Engineers and NYS Department of Environmental Conservation, the County will work to reduce flooding problems and impacts on people and property throughout Westchester County.

Consistency with Programs or Plans

This project is consistent with the policies of "**Westchester 2025**", the County's long-range land use policies. As per Westchester County policy, stormwater management must be addressed with every capital project where feasible.

Planning Board Analysis

PL2 Planning Department staff will monitor the progress of design to address physical and environmental planning concerns including the stormwater management. Standards contained in the "Management Design Manual and the NYS Standards and Specifications for Erosion and Sediment Control" should be maintained.
