

(BOND) ACT 120 - 2025

Reference WD103

**HONORABLE BOARD OF LEGISLATORS  
THE COUNTY OF WESTCHESTER, NEW YORK**

Your Committee is in receipt of a transmittal from the County Executive recommending approval by the County of Westchester ("County") of an amended bond act (the "Amended Bond Act") in the total amount of \$16,000,000, which includes \$6,000,000 in previously authorized bonds of the County, to finance capital project WD103 - County Water District #1 Alternate Water Supply. The Amended Bond Act, which was prepared by Norton Rose Fulbright is necessary to finance the cost of design and construction management of an alternate water supply connection to the Delaware Aqueduct at Shaft 23 in the City of Yonkers, subject to pending approval of the Office of the New York State Comptroller ("State Comptroller").

Your Committee is advised that the proposed Amended Bond Act, in the total amount of \$16,000,000, which includes \$6,000,000 in previously authorized bonds of the County, is necessary to finance the cost of design and construction management of an alternate water supply connection to the Delaware Aqueduct at Shaft 23 in the City of Yonkers, and ancillary or related work and incidental expenses thereof, all for the use and benefit of Water District No. 1. This connection will supply raw water, via a new transmission main, to a new treatment facility which will be located along the routing of the new main and prior to connection to the southern portion of the existing Kensico-Bronx Pipeline.

The Department of Environmental Facilities ("Department") has advised that the alternate water supply connection will need to be completed by 2030 which is the date that the New York City Department of Environmental Protection will begin planned shutdowns of the Catskill Aqueduct in order to support its CAT-431 project to restore the aqueduct. This compressed timeframe has resulted in increased costs for completion of this project.

Your Honorable Board will recall that, by Act No. 209-2024, your Honorable Board found, after holding a public hearing, that the project was in the public's best interest at a maximum estimated cost of \$105,000,000. Further, by Act No. 210-2024, your Honorable Board authorized that the Chairman of your Honorable Board execute all instruments and take all actions reasonable, necessary and appropriate to petition the State Comptroller pursuant to Section 268 of Article 5-A of the New York State County Law for an order approving the County's issuance of bonds up to \$105,000,000 for the maximum estimated cost of the project. Subsequently, the Chairman of your

Honorable Board submitted a verified application to the State Comptroller for such approval. Your Committee is advised that, currently, the verified application is being reviewed by the State Comptroller.

It should be further noted that your Honorable Board has previously authorized the County to issue bonds for WD103 as follows: Bond Act No. 211-2024 in the amount of \$6,000,000, which partially financed the cost of design and construction management of an alternate water supply connection to the Delaware Aqueduct at Shaft 23 in the City of Yonkers. No obligations have been issued under Bond Act No. 211-2024. Accordingly, it is now requested that Bond Act No. 211-2024 be amended to increase the amount authorized by \$10,000,000 for a total authorized amount, as amended, of \$16,000,000, subject to the approval of the State Comptroller.

Following bond authorization and approval of the State Comptroller, design is anticipated to take twenty-four (24) months to complete and will be performed by consultants. It is anticipated that construction will take approximately forty (40) months to complete and will begin after award and execution of the construction contracts, subject to your Honorable Board's further approval of construction funding.

The Department of Planning has advised your Committee that based on its review, WD103 may be classified as a Type "II" action pursuant to the State Environmental Quality Review Act and its implementing regulations, 6 NYCRR Part 617 ("SEQR"). Therefore, no further environmental review is required. Your Committee has reviewed the annexed SEQR documentation and concurs with this recommendation.

It should be noted that an affirmative vote of two-thirds of the members of your Honorable Board is required in order to adopt the Amended Bond Act. Your Committee has carefully considered the Amended Bond Act and recommends approval of same, subject to the approval of the State Comptroller.

With respect to the State Environmental Quality Review Act and its implementing regulations 6 NYCRR Part 617, the Planning Department recommends that no environmental review is required for the proposed action, because the project or component of the project for which funding is requested may be classified as a **TYPE II action** pursuant to section(s):
