Westchester County Board of Legislators
800 Michaelian Office Building
White Plains, New York 10601

Dear Members of the Board of Legislators:

Transmitted herewith for your review and approval is an Act which, if adopted, would authorize the County of Westchester ("County") to amend its current year Capital Budget ("Capital Budget Amendment"), as well to as adopt a related amended bond act ("Amended Bond Act") to finance the following capital project:

RWPR5 – Ward Pound Ridge Reservation Fire Tower ("RWPR5").

The proposed Capital Budget Amendment will amend the County's capital budget to increase the County share for RWPR5 by \$900,000. The Department of Parks, Recreation and Conservation ("Department") has advised that the Capital Budget Amendment is necessary to fund construction of the fire tower at the County's Ward Pound Ridge Reservation ("Reservation").

The Amended Bond Act, in the total amount of \$1,700,000, which increases the amount authorized by \$1,400,000 and includes \$300,000 in previously authorized bonds of the County, would finance the cost of installation of a fire tower at Ward Pound Ridge Reservation and all associated site work. It should be noted that the estimated maximum cost of RWPR5 is \$1,800,000, which includes \$100,000 in non-County shares.

The Department has advised that that the financing is necessary to replace an iconic feature at the Reservation. The new fire tower will be installed at the site of the former fire tower, located on the highest point in the Reservation, which is 860 feet above sea level. The site is accessible via the Reservation's blue trail from the Kimberly Bridge picnic area and, once constructed, will be a fantastic destination point with spectacular views across the entire Reservation.

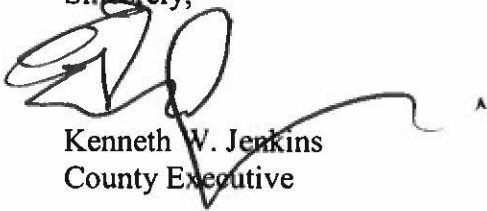

Design is currently being undertaken by a consultant and is expected to be completed by the second quarter of 2025. It is estimated that construction will take twelve months to complete and will begin after award and execution of the construction contracts.

It should be noted that your Honorable Board has authorized the County to issue bonds for RWPR5 as follows: Bond Act No. 188-2021 in the amount of \$300,000, which authorized financing for installation of a fire tower at the Ward Pound Ridge Reservation and all associated site work. These bonds have not been sold. Accordingly, it is now requested that Bond Act No. 188-2021 be amended to increase the amount authorized by \$1,400,000, for a total authorized amount, as amended, of \$1,700,000.

Section 167.131 of the County Charter mandates that a capital budget amendment that introduces a new capital project or changes the location, size or character of an existing capital project be accompanied to the Board of Legislators by a report of the Westchester County Planning Board (the "Planning Board") with respect to the physical planning aspects of the project. Accordingly, the necessary Planning Board report for RWPR5 is annexed.

Based on the importance of this project to the County, favorable action on the proposed Amended Bond Act and Capital Budget Amendment is respectfully requested.

Sincerely,

A handwritten signature in black ink, appearing to read 'K. W. Jenkins', with a long, sweeping horizontal line extending to the right.

County Executive

**HONORABLE BOARD OF LEGISLATORS
THE COUNTY OF WESTCHESTER, NEW YORK**

Your Committee is in receipt of a transmission from the County Executive recommending approval by the County of Westchester (“County”) of an act amending the County’s current-year capital budget (“Capital Budget Amendment”), as well as adoption of a related amended bond act (“Amended Bond Act”) which, if adopted, will authorize the County to issue up to \$1,700,000 in bonds of the County to finance capital project RWPR5 – Ward Pound Ridge Reservation Fire Tower (“RWPR5”).

Your Committee is advised that proposed Capital Budget Amendment will amend the County’s capital budget to increase the County share for RWPR5 by \$900,000. The Department of Parks, Recreation and Conservation (“Department”) has advised that the Capital Budget Amendment is necessary to fund construction of the fire tower at the County’s Ward Pound Ridge Reservation (“Reservation”).

The Amended Bond Act, in the total amount of \$1,700,000, which increases the amount authorized by \$1,400,000 and includes \$300,000 in previously authorized bonds of the County, would finance the cost of installation of a fire tower at Ward Pound Ridge Reservation and all associated site work. It should be noted that the estimated maximum cost of RWPR5 is \$1,800,000, which includes \$100,000 in non-County shares.

The Department has advised that that the financing is necessary to replace an iconic feature at the Reservation. The new fire tower will be installed at the site of the former fire tower, located on the highest point in the Reservation, which is 860 feet above sea level. The site is accessible via the Reservation’s blue trail from the Kimberly Bridge picnic area and, once constructed, will be a fantastic destination point with spectacular views across the entire Reservation.

Design is currently being undertaken by a consultant and is expected to be completed by the second quarter of 2025. It is estimated that construction will take twelve months to complete and will begin after award and execution of the construction contracts.

It should be noted that your Honorable Board has authorized the County to issue bonds for RWPR5 as follows: Bond Act No. 188-2021 in the amount of \$300,000, which authorized

financing for installation of a fire tower at the Ward Pound Ridge Reservation and all associated site work. These bonds have not been sold. Accordingly, it is now requested that Bond Act No. 188-2021 be amended to increase the amount authorized by \$1,400,000, for a total authorized amount, as amended, of \$1,700,000.

The Planning Department has advised your Committee that based on its review, RWPR5 has been classified as an “Unlisted” action under the State Environmental Quality Review Act (“SEQR”). A Resolution, and proposed Negative Declaration, along with a full Environmental Assessment Form, prepared by the Planning Department, are attached to assist your Honorable Board in complying with SEQR. Upon review, your Committee concludes that the proposed action will not have any significant impact on the environment and recommends the adoption of the Resolution adopting the Negative Declaration. As you know, a determination of significance must be made prior to enacting the aforementioned Bond Act

Your Committee is advised that Section 167.131 of the County Charter mandates that a capital budget amendment that introduces a new capital project or changes the location, size or character of an existing capital project be accompanied to the Board of Legislators by a report of the Westchester County Planning Board (the “Planning Board”) with respect to the physical planning aspects of the project. Accordingly, the Planning Board report for RWPR5 is annexed.

Your Committee has carefully considered the proposed Capital Budget Amendment, as well as the related Amended Bond Act, and recommends approval of both of the proposed Acts, noting that the Bond Act can only be enacted following adoption of the Capital Budget Amendment. It should be noted that an affirmative vote of two-thirds of the members of your Honorable Board is required in order to amend the County's Capital Budget and to adopt the Amended Bond Act.

Dated: _____, 20____.
White Plains, New York

RESOLUTION

WHEREAS, there is pending before this Honorable Board an act to authorize the County of Westchester to issue bonds in connection with capital project RWPR5 (“Bond Act”); and

WHEREAS, this Honorable Board has determined that the proposed Bond Act would constitute an action under Article 8 of the Environmental Conservation Law, known as the New York State Environmental Quality Review Act (“SEQRA”); and

WHEREAS, pursuant to SEQRA and its implementing regulations (6 NYCRR Part 617), this project is classified as an “Unlisted action,” which requires this Honorable Board to make a determination as to whether the proposed action will have a significant impact on the environment; and

WHEREAS, the County of Westchester conducted coordinated review as permitted for Unlisted actions pursuant to Section 617.6(b)(3) of the implementing regulations and, having received no objections, is assuming the role of Lead Agency for the environmental review of this project; and

WHEREAS, this Honorable Board has carefully considered the proposed action and has reviewed the attached EAF and the criteria set forth in Section 617.7 of the implementing regulations and has identified the relevant areas of environmental concern, as described in the attached EAF, to determine if this proposed action will have a significant impact on the environment.

NOW, THEREFORE, be it resolved by the County Board of Legislators of the County of Westchester, State of New York, as follows:

RESOLVED, that based upon the Honorable Board's review of the EAF and for the reasons set forth therein, this Board finds that there will be no significant adverse impact on the environment from the Bond Act and be it further

RESOLVED, that the Clerk of the Board of Legislators is authorized and directed to sign the "Determination of Significance" in the EAF, which is attached hereto and made a part hereof, as the "Responsible Officer in Lead Agency"; to issue this "Negative Declaration" on behalf of this Board in satisfaction of SEQRA and its implementing regulations; and to immediately transmit same to the Commissioner of Planning to be filed, published and made available pursuant to the requirements of Part 617 of 6 NYCRR; and be it further

RE: **NO-ACTION MEMO - Capital Budget Amendment – RWPR5 Ward Pound Ridge Fire Tower (2025 CBA)**

The County Executive is requesting an amendment to the 2025 Capital Budget to modify the funding of the above project. Capital project **RWPR5 Ward Pound Ridge Fire Tower (2025 CBA)** will increase the County share for RWPR5 by \$900,000. The Department of Parks, Recreation and Conservation has advised that the Capital Budget Amendment is necessary to fund construction of the fire tower at the County's Ward Pound Ridge Reservation.

The Amended Bond Act, in the total amount of \$1,700,000, which includes \$300,000 in previously authorized bonds of the County, would finance the cost of installation of a fire tower at Ward Pound Ridge Reservation and all associated site work.

This project was classified as a PL2 in the Planning Board Report for the 2020 Capital Budget adopted February 4, 2020.

There are no substantial changes to the physical planning aspects of this project as reviewed by the Board; therefore, no further action by your Board is necessary.

Full Environmental Assessment Form
Part 2 - Identification of Potential Project Impacts

Agency Use Only [If applicable]
 Project : RWPR5 Fire Tower
 Date : February 2025

Part 2 is to be completed by the lead agency. Part 2 is designed to help the lead agency inventory all potential resources that could be affected by a proposed project or action. We recognize that the lead agency's reviewer(s) will not necessarily be environmental professionals. So, the questions are designed to walk a reviewer through the assessment process by providing a series of questions that can be answered using the information found in Part 1. To further assist the lead agency in completing Part 2, the form identifies the most relevant questions in Part 1 that will provide the information needed to answer the Part 2 question. When Part 2 is completed, the lead agency will have identified the relevant environmental areas that may be impacted by the proposed activity.

If the lead agency is a state agency and the action is in any Coastal Area, complete the Coastal Assessment Form before proceeding with this assessment.

Tips for completing Part 2:

- Review all of the information provided in Part 1.
- Review any application, maps, supporting materials and the Full EAF Workbook.
- Answer each of the 18 questions in Part 2.
- If you answer "Yes" to a numbered question, please complete all the questions that follow in that section.
- If you answer "No" to a numbered question, move on to the next numbered question.
- Check appropriate column to indicate the anticipated size of the impact.
- Proposed projects that would exceed a numeric threshold contained in a question should result in the reviewing agency checking the box "Moderate to large impact may occur."
- The reviewer is not expected to be an expert in environmental analysis.
- If you are not sure or undecided about the size of an impact, it may help to review the sub-questions for the general question and consult the workbook.
- When answering a question consider all components of the proposed activity, that is, the "whole action".
- Consider the possibility for long-term and cumulative impacts as well as direct impacts.
- Answer the question in a reasonable manner considering the scale and context of the project.

Full Environmental Assessment Form
Part 3 - Evaluation of the Magnitude and Importance of Project Impacts
and
Determination of Significance

Part 3 provides the reasons in support of the determination of significance. The lead agency must complete Part 3 for every question in Part 2 where the impact has been identified as potentially moderate to large or where there is a need to explain why a particular element of the proposed action will not, or may, result in a significant adverse environmental impact.

Based on the analysis in Part 3, the lead agency must decide whether to require an environmental impact statement to further assess the proposed action or whether available information is sufficient for the lead agency to conclude that the proposed action will not have a significant adverse environmental impact. By completing the certification on the next page, the lead agency can complete its determination of significance.

Reasons Supporting This Determination:

To complete this section:

- Identify the impact based on the Part 2 responses and describe its magnitude. Magnitude considers factors such as severity, size or extent of an impact.
- Assess the importance of the impact. Importance relates to the geographic scope, duration, probability of the impact occurring, number of people affected by the impact and any additional environmental consequences if the impact were to occur.
- The assessment should take into consideration any design element or project changes.
- Repeat this process for each Part 2 question where the impact has been identified as potentially moderate to large or where there is a need to explain why a particular element of the proposed action will not, or may, result in a significant adverse environmental impact.
- Provide the reason(s) why the impact may, or will not, result in a significant adverse environmental impact
- For Conditional Negative Declarations identify the specific condition(s) imposed that will modify the proposed action so that no significant adverse environmental impacts will result.
- Attach additional sheets, as needed.

The proposed fire tower will have minimal environmental impacts since it will be placed in the same location as the original fire tower, which remains an open area with scenic views and is accessible via an old access drive that now serves as a trail for park visitors to hike to the top. Exposed bedrock is found throughout the project site. Rock impacts will be limited to the anchoring of the new tower, which will consist of four concrete foundation piers, each being only 18 inches square, that will be secured to the bedrock with rods.

The only other disturbance will be to the old access drive, much of which will be on some degree of slope, which will require some improvements to minimize impacts associated with the use of construction vehicles during installation. The improvements will include the removal of ditches and laying of fresh gravel to prevent erosion and control stormwater runoff. Some sections may need slight widening and vegetation to be pruned back to provide adequate clearance for construction equipment, but this will be limited to the immediate area of the existing access drive and there will be no significant impact to the acidic talus slope woodlands.

At 110 feet tall on the highest point of the park, the top of the tower is likely to be seen from other locations. However, it's visibility will be diminished by distance, since the tower site is located 2,000 feet or more from the park boundaries, and limited by the surrounding mature forest. The tower will taper to a 9-foot square observation deck with a hip roof, reminiscent of old fire towers. Galvanized steel will weather to a dull gray finish. Lighting of the structure is not required by FAA; therefore, the tower will not be lit and there will be no nighttime impacts. A 155-foot cellular tower is located approximately 1.5 miles to the southeast.

Archaeological resources at the park will not be impacted as none of the known sites are within or adjacent to the project areas and the project will only affect areas that have previously been disturbed.

The project will enhance the recreational component of the park's CEA designation.

Determination of Significance - Type 1 and Unlisted Actions

SEQR Status: Type 1 Unlisted

Identify portions of EAF completed for this Project: Part 1 Part 2 Part 3

Upon review of the information recorded on this EAF, as noted, plus this additional support information

and considering both the magnitude and importance of each identified potential impact, it is the conclusion of the County of Westchester, acting by and through its Board of Legislators, _____ as lead agency that:

A. This project will result in no significant adverse impacts on the environment, and, therefore, an environmental impact statement need not be prepared. Accordingly, this negative declaration is issued.

B. Although this project could have a significant adverse impact on the environment, that impact will be avoided or substantially mitigated because of the following conditions which will be required by the lead agency:

There will, therefore, be no significant adverse impacts from the project as conditioned, and, therefore, this conditioned negative declaration is issued. A conditioned negative declaration may be used only for UNLISTED actions (see 6 NYCRR 617.d).

C. This Project may result in one or more significant adverse impacts on the environment, and an environmental impact statement must be prepared to further assess the impact(s) and possible mitigation and to explore alternatives to avoid or reduce those impacts. Accordingly, this positive declaration is issued.

Dear Honorable Members of the Board of Legislators:

Transmitted herewith for your review and consideration is legislation, which, if approved by your Honorable Board, will authorize the County of Westchester ("County") in partnership with the City of Yonkers ("City"), to create a riverfront park on the Hudson River, in the Ludlow Section of Yonkers, as follows:

- 1) a local law ("Local Law"), which will authorize the County to enter into an intermunicipal agreement ("IMA") with the City of Yonkers (the "City"), pursuant to which the County will (i) contribute up to \$15,000,000.00 for the creation of a riverfront park on the Hudson River, in the Ludlow section of Yonkers ("Park," "Property" or "Fernbrook/Ludlow Waterfront Park") and (ii) lease the Park from the City, which Park is comprised of certain riverfront properties owned by the City located on Water Grant Street, Pier Street and Yerks Place, Yonkers, NY, more particularly identified as Section 1, Block 615, Lots 1, 6, 10 and 35.45, Section 1, Block 622, Lots 1 and 8 and Section 1, Block 623, Lots 1, 2 and 4 on the tax maps of the City of Yonkers, and certain County property which is being conveyed to the City and leased back to the County, as more particularly detailed in subparagraph 2) below.

Under the proposed IMA, the County will contribute up to \$15,000,000.00 to finance the construction of upland site work improvements to create the Park, including, but not limited to, remediation work. Pursuant to the IMA, the Park will be operated and maintained solely by the City and remain accessible to all County residents for park purposes, in perpetuity and free of any parking entry charges or use fees, except for the renting of picnic facilities, kayak equipment or other activities mutually approved by the parties, provided (i) such fees are reasonable and (ii) the City will charge the same fees to residents and non-residents of the City of Yonkers.

The term of the proposed IMA will commence upon the start of construction of the upland site work improvements on the Park and shall continue for the life of the bonds which is anticipated

to be fifteen (15) years, unless the Agreement is terminated sooner in accordance with the terms of this Agreement.

Pursuant to the proposed IMA, the City will be responsible for all labor and equipment to create the Fernbrook/Ludlow Waterfront Park, including procuring design services and construction of the Park improvements. Such procurement will be in compliance with all applicable laws, rules and regulations. The City will not deviate from the approved drawings and specifications without the prior written consent of the County's Department of Planning Commissioner ("Planning Commissioner") and the Department of Public Works and Transportation Commissioner.

I have been advised that pursuant to Section 104.11(5)(e) of the Laws of Westchester County, authorization of the proposed IMA, pursuant to which the County will lease the Park from the City requires the passage of a Local Law. Also attached is a Resolution authorizing a Public Hearing as required by §209.141(4) of the Laws of Westchester County.

- 2) an act ("Conveyance Act"), which will authorize the County to convey to the City certain County-owned land located at 1 Fernbrook Street, Yonkers, New York, consisting of approximately 0.4 acres of vacant unused land, as more particularly identified as Section 1, Block 600, portion of Lot 1 in the tax maps of the City of Yonkers (the "County Parcel") to be added to the Park for the construction of certain upland park improvements by the City. Those improvements will include, but are not limited to, the installation of a parking lot and three (3) electric vehicle ("EV") charging stations, capable of charging six (6) cars at the same time, to be used by all County residents desirous of enjoying the Park for park and recreational purposes.

The County acquired title to the County Parcel and other County property in 1970. The County Parcel is adjacent to (more particularly located on the north side of) the County's Wastewater Treatment Plant, also known as the Yonkers Joint Resource Recovery Facility ("Facility").

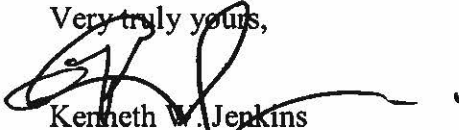

The County has determined that the County Parcel is no longer required for any County purpose and desires that the County Parcel be used for park purposes. As a condition for the conveyance of the County Parcel to the City, the City (i) will grant to the County a permanent easement over the County Parcel for any purpose whatsoever related to the operation of the Facility, including, but not limited to, inspecting, installing and operating the steel bulkhead running along the Hudson River ("County Bulkhead"), new bulkheads, underground utilities, underground storm drainage and other sewer lines and improvements such as, but not limited to, protective barriers and fences and fire hydrants related to the Facility or the County Bulkhead, together with the right of ingress and egress to exercise all such rights; and (ii) shall assume full responsibility for the maintenance, repair and replacement of the existing railroad tie bulkheads ("Railroad Bulkheads") and other existing infrastructure or systems, to the County's reasonable satisfaction. The City will also agree to, in the event necessary, to replace the Railroad Bulkheads with new bulkheads to be designed at the discretion of the City engineer to meet current design and use standards. The County and the City agree to execute and record an easement agreement setting forth the rights and responsibilities of each party thereunder.

Pursuant to Section 209.101(8) of the Laws of Westchester County, the County may sell or convey any surplus real property to be used in perpetuity for park and municipal recreation purposes for the sum of \$1.00. The proposed Land Conveyance Act will authorize the sale of the County Parcel to the City for \$1.00 to be used by all County residents desirous of enjoying the Park for park and recreational purposes, free of any parking or use fees, except as indicated above. A Report from the Planning Commissioner, required pursuant to Section 191.41 of the Laws of Westchester County, recommending disposition of the County Parcel is attached hereto for your consideration.

- 3) an act (“Bond Act”), which will authorize the County to issue \$15,000,000.00 in bonds of the County, to finance the construction of upland site work improvements to create the Park, including remediation work. The total estimated cost for the creation of the Park is approximately \$21,000,000.00, of which \$15,000,000.00 will be funded by the County under the Bond Act and the remaining amount or other excess amounts will be funded by the City to finance the creation of the Park.
- 4) an act (“Capital Budget Amendment Act”), which will amend the current-year capital budget to increase the County share for this specific capital project BLA1A (2800) –Yonkers Waterfront Park (“BLA1A”) by \$5,000,000.00, from \$10,000,000.00 to \$15,000,000.00, which continues capital project BLA1A Parkland Acquisition/Westchester Legacy Program.

I urge your Honorable Board’s approval of the annexed legislation.

Very truly yours,

Kenneth W. Jenkins

The proposed Land Conveyance Act will authorize the sale of the County Parcel to the City for \$1.00 to be used by all County residents desirous of enjoying the Park for park and recreational purposes, free of any parking or use fees, except as indicated above. A Report from the Planning Commissioner, required pursuant to Section 191.41 of the Laws of Westchester County, recommending disposition of the County Parcel is attached hereto for your consideration.

- 3) an act (“Bond Act”), which will authorize the County to issue \$15,000,000.00 in bonds of the County, to finance the construction of upland site work improvements to create the Park, including remediation work. The total estimated cost for the creation of the Park is approximately \$21,000,000.00, of which \$15,000,000.00 will be funded by the County under

the Bond Act and the remaining amount or other excess amounts will be funded by the City to finance the creation of the Park.

- 4) an act (“Capital Budget Amendment Act”), which will amend the current-year capital budget to increase the County share for this specific capital project BLA1A (2800) –Yonkers Waterfront Park (“BLA1A”) by \$5,000,000.00, from \$10,000,000.00 to \$15,000,000.00, which continues capital project BLA1A Parkland Acquisition/Westchester Legacy Program.

The Department of Planning has advised your Committee that pursuant to the State Environmental Quality Review Act and its implementing regulations, 6 NYCRR Part 617 (“SEQRA”), the City classified this capital project as an Unlisted action. Pursuant to a resolution approved on October 22, 2024, the City Council declared itself as the lead agency and circulated the Environmental Assessment Form (“EAF”), supplemental attachments and the criteria set forth in SEQRA and has identified and carefully considered the relevant areas of environmental concern which are set forth in the EAF, to determine if this proposed action will have a significant impact upon the environment. On December 10, 2024, the City Council issued a Negative Declaration for the project. Since the City undertook coordinated review and the County was included as an involved agency, then, in accordance with SEQRA, no further environmental review is required by the County. Your Committee concurs with this recommendation.

In addition, Section 167.131 of the County Charter mandates that a capital budget amendment that introduces a new capital project or changes the location, size or character of an existing capital project be accompanied to the Board of Legislators by a report of the County Planning Board in respect to the physical planning aspects of the project. The Department of Planning has advised that since the Planning Board has reviewed the project and issued a report, which is attached hereto for your consideration, no further action by the Planning Board is necessary at this time.

Your Committee has also been informed that the adoption of the Local Law, the Land Conveyance Act, Capital Budget Amendment as well as the related Bond Act each require an affirmative vote of two-thirds of all the members of your Honorable Board. Your Committee is

further advised that the Bond Act can only be enacted following adoption of the Capital Budget Amendment. Additionally, as indicated in subparagraph 1) above, prior to taking any action on the proposed Local Law, this Honorable Board must hold a public hearing pursuant to 209.141(4) of the Laws of Westchester County, and a resolution providing for the hearing is annexed hereto.

Your Committee has carefully considered this matter and recommends that your Honorable Board adopt the annexed Local Law and Acts authorizing the County to enter into the IMA, sell the County Property to the City for \$1.00 for park purposes and accept an easement, amend the current-year capital budget and issue bonds in the amount of \$15,000,000.00 to finance the needed upland park improvements, including remediation work.

SUBJECT: **STATE ENVIRONMENTAL QUALITY REVIEW FOR CAPITAL PROJECT:
BLA1A, PARKLAND AND HISTORICAL PRESERVATION PROGRAM
YONKERS WATERFRONT PARK ON FERNBOOK STREET**

The Planning Department has reviewed the above referenced capital project (Fact Sheet Unique ID: 2800) with respect to the State Environmental Quality Review Act and its implementing regulations, 6 NYCRR Part 617 (SEQR).

This capital project will provide funding to support the creation of a new waterfront park on Fernbrook Street, south of Ludlow Street, in the City of Yonkers. The park will include a playground, a pavilion, walking paths, lawn areas, an observation area overlooking the Hudson River, and a parking lot. This is part of a larger project that is being undertaken by the City of Yonkers that will include facilities for the Yonkers Fire and Police departments and for the Yonkers Paddling and Rowing Club. In addition to the provision of funding, which will require an inter-municipal agreement and a temporary lease over the City-owned property, the County will convey approximately 0.4 acres of land on the north side of the Yonkers Joint Treatment Plant to the City to be added to the new park, which will be open to all county residents. The County will retain a permanent easement over the property to be conveyed to allow the County to utilize the property as necessary to maintain the treatment plant and its operations.

Pursuant to SEQR, the Yonkers City Council classified the overall project as an Unlisted action. On November 1, 2024, the City sent out a notice of intent to serve as lead agency, along with Part 1 of a full Environmental Assessment Form. On December 10, 2024, the Yonkers City Council adopted a Negative Declaration for the project. Since the City undertook coordinated review and the County of Westchester was included as an involved agency, then, in accordance with section 617.6(b)(3), no further environmental review is required by the County.

Please do not hesitate to contact me if you have any questions regarding this matter.

SUBJECT: Disposition of 0.43 acres of undeveloped land adjacent to the County's
Wastewater Treatment Plant in the City of Yonkers

Pursuant to Section 191.41 of the County Charter, this is the required report of the Commissioner of Planning on the proposed disposition of 0.43 acres of undeveloped land adjacent to the County's Wastewater Treatment Plant in the City of Yonkers for the development of the Fernbrook Waterfront Park. The proposed Land Conveyance Act will authorize the sale of the County Property to the City of Yonkers for park and recreational purposes.

The disposition of the .43-acre parcel for the purposes of creating park and recreational opportunities in the City of Yonkers is recommended for the following reasons:

1. the park will be accessible to all County residents;
2. there are few waterfront recreational opportunities in this densely populated area of Westchester County;
3. the property is pedestrian accessible as well as via Metro-North commuter rail and Bee-Line bus service;
4. there are approximately 18,000 persons who live within a 0.5-mile radius of the site;
5. the property being disposed will provide much needed parking for the site;
6. the project is consistent with the policies of *Westchester 2025*, in that it will enhance the quality of Westchester's parks and recreation facilities

Based on this record, I have no objection to the disposition of the parcel owned by Westchester County. Attached is a copy of the resolution adopted by the Planning Board in support of the proposed disposition.

Project Description

This project continues Capital Project BLA01 Parkland Acquisition/Westchester Legacy Program. The Legacy Program is designed to aggressively pursue land acquisition for three major objectives:

1. Purchase parkland for active recreation such as baseball and soccer fields, trailways, and bike paths.
2. Preserve green space, protect natural habitats and protect rivers, streams, and lakes.
3. Preserve land for historic preservation and protection of our cultural landscape.

The project will provide funding for the construction of upland site work improvements to create a riverfront park in the Ludlow neighborhood in the City of Yonkers. The 2024 capital budget amendment (CBA) is to move \$5 Million in Under Review to this project. The project has \$10 Million in existing appropriations from 2021 for this project. The total county contribution will be \$15 Million. The project also includes an Act to approve conveyance of County property to the City for open space, with the County accepting an easement for access over such property.

Justification

The Westchester County park and open space system has contributed greatly to the quality of life in the County. Municipal officials and residents throughout Westchester have indicated that open space preservation remains a top priority. The acquisition and protection of lands for environmental protection helps to build on this legacy. The County has played an important role in expanding opportunities for active recreation; traditionally it was municipalities and school districts that developed athletic fields.

¹ This Board of Legislators late addition to the Capital Plan 2024-2028 has not yet been reviewed by the County Planning Board.

² This Board of Legislators late addition to the Capital Plan 2024-2028 has not yet been reviewed by the County Planning Board.

The 1999 Open Space Policies were adopted by both the Planning and Parks Boards. These policies have goals for a continued County park and open space acquisition program that includes:

1. Provision of opportunities for active and passive recreation, with emphasis on locations close to concentrations of the County's population;
2. Establishment of a series of open space linkages to provide a connected system of parklands;
3. Preservation of significant amounts of the Hudson River waterfront;
4. Protection of environmentally significant properties; and
5. Preservation of properties considered to be of historic significance.

CONSISTENCY WITH PROGRAMS OR PLANS: The project is consistent with the policies of *Westchester 2025*, the County's long-range land use policies, and the 1999 Open Space Policies in that it supports open space preservation, provides opportunities for active and passive recreation, promotes open space linkages, preserves environmentally significant properties and helps preserve properties considered to be of historic significance.

Planning Board Analysis:

PL2: The Planning Board supports this project to improve parkland in the densely populated City of Yonkers. The Planning Board supports projects with the goal to keep park facilities in a well-maintained state. Performing physical improvements on a priority basis reflects a comprehensive approach to undertaking capital improvements.

As per Westchester County policy, stormwater management must be addressed with every capital project. Designs should comply with the NYS Stormwater Management Design Manual and the NYS Standards and Specifications for Erosion and Sediment Control.

ARTICLE IV

RIGHTS AND RESPONSIBILITIES OF THE MUNICIPALITY

REGARDING THE PARK

Section 4.0. The Municipality shall have sole authority and control over the development, operation, management, scheduling and maintenance of the Property as a riverfront park. The Property shall be operated as a city park, but shall be available to all Westchester County residents.

Section 4.1. The Municipality shall, at its sole cost and expense, assume full responsibility for the operation of the Property for park purposes in accordance with this Agreement and for repair, maintenance and security of the Property in accordance with this Agreement and applicable laws and regulations, all to the satisfaction of the County.

Section 4.2. The Municipality shall operate the Property for the accommodation of the public for park purposes. The Property shall be open and available to the general public and under no circumstance shall access be limited solely to residents of the Municipality or other designated local government. The Municipality agrees that it will not delegate its authority to operate and maintain the Park to a third party or park/recreation commission and will not charge any parking, entry or use fees to be charged on Westchester County residents, except that the Municipality may charge use fees to park patrons for the renting of picnic facilities, kayak equipment or other activities mutually approved by the parties herein, provided such fees are reasonable. To the extent any fees are charged for the renting of park facilities, equipment or activities, the fees charged to non-residents of the Municipality who are County residents will not exceed the fees charged to the Municipality's residents.

Section 4.3. The Municipality shall, at its sole cost and expense, continuously throughout the term of this Agreement, provide reasonable and adequate security and safety at the Property through the Municipality's police department or other agency designated to provide such police services.

Section 4.4. The Municipality shall, at its sole cost and expense, repair, maintain and properly supervise the Park, it being understood and agreed that such repair, maintenance and supervision shall be performed by the Municipality when necessary and to correct hazardous conditions, in compliance with all applicable federal, state and local laws and regulations. The

Municipality shall, at its own cost and expense, keep any and all refuse in containers and remove and dispose of same as required by applicable laws and regulations. It is hereby acknowledged by the Municipality that any existing storm, sanitary or combined sewer systems or outfalls which exist within the limits of the Property will continue to be the responsibility of the Municipality. This agreement does not relieve the Municipality of maintaining these structures, associated infrastructure or performing future upgrades to the Property as required by County, State or Federal applicable laws and regulations.

Section 4.5. Following construction of park improvements on the Property, the Park shall be available to the public at all times as required by this Agreement except that the Municipality (i) may occasionally schedule certain specific uses in certain areas of the Park, as deemed appropriate; and (ii) may reserve for official municipal uses only certain areas of the Park including municipal offices, garages, storage space, certain parts of the pier, provided such area of the Park reserved for municipal use is *de minimis* compared to the overall size of the Park.

Section 4.6. The Municipality shall, at its own cost and expense, promptly comply with all statutes, ordinances, rules, orders, regulations, codes and requirements of the Federal, State, County and local governments and all insurance requirements applicable to the Property or any part thereof or applicable to this Agreement. The County's Commissioner of Parks, Recreation and Conservation or his designee (the "County Parks Commissioner") shall be entitled to enter the Property, or any part thereof, at any and all times for any and all purposes, without the need to obtain the consent or permission of the Municipality.

Section 4.7. All signage to be utilized by the Municipality in connection with the operation of the Property as a riverfront park shall be subject to the prior written approval of the County Parks Commissioner and shall be provided to the County in advance for review. The Municipality shall acknowledge the County's contribution toward improvement of the Property as a park on signs erected at the Property, and shall also obtain the County's approval for standard language to be used in all formal media advertisement mentioning the Property relating to the County's contribution and the availability of the Property to all County residents. In addition, the

Municipality shall install sign(s) on the Property: (i) indicating that the Park is open to all County residents and (ii) providing warning indications of possible sewer discharge at the existing outfall.

ARTICLE V
RIGHTS AND RESPONSIBILITIES OF THE MUNICIPALITY REGARDING THE
COUNTY PROPERTY

Section 5.0. The parties hereby acknowledge, represent and covenant, that, as further consideration for the City's investment and obligations in the construction of upland park improvements at the Property, the County will convey the County Parcel, an unimproved County-owned land located at 1 Fernbrook Street, Yonkers, New York 10705, as more particularly described on Schedule "A-1," to be used in perpetuity as part of the Property for park purposes, for \$1.00. It is hereby understood by the parties that title to the County Parcel shall revert to the County (i) if the Park is not completed by the Municipality within five (5) years from the date the Municipality obtains all necessary permits and approvals, or (ii) in the event the County Parcel is no longer used for park purposes, or (ii) any parking, entry or use fees (other than those expressly allowed herein) are charged to Westchester County residents.

Section 5.1. The Municipality acknowledges, represents and covenants that it has examined the County Parcel and has determined it to be suitable for its intended use. The Municipality accepts the County Parcel in its present, "as is" condition, without any representations or warranties from the County as to its suitability for any purpose, state of repair or quality of any other matter whatsoever. The Municipality further acknowledges and understands that the waters adjacent to the County Parcel are often subject to frequent sewer discharges at the existing outfall. The Municipality bears all risk of loss in connection with the use of the County Parcel, and expressly releases the County from any and all liability to it.

In furtherance of this Agreement, the Municipality agrees to do the following prior to completion of all Park improvements:

- i) To replace the existing native trees that will be removed by the Municipality on the County Property with the same number of native trees to be located on the Park as determined to be appropriate by the Municipality;
- ii) To conduct and provide the County with a mark out depicting all existing utilities on the County Parcel;
- iii) To install, operate and maintain at all times a number of Electric Vehicle (“EV”) Charging Stations, to be located on the County Parcel, equivalent to twenty percent (20%) of the total number of parking spaces available at the County Parcel at any given time, and to install the necessary power supply, charging cable, connectors and other appurtenant equipment necessary to facilitate the installation of additional EV Charging Stations, as required by applicable law in order to properly accommodate the demands and needs of all County residents for additional EV Charging Stations;
- iv) To inspect, upgrade any existing storm, sewer or combined sewer system equipment under, on or above the Park area.

Section 5.2. In furtherance of this Agreement, the Municipality shall act in strict accordance with all applicable federal, state and local laws and regulations. The County shall have no financial or other obligation or liability with respect to the County Parcel, except for the County Bulkhead (as defined below) or other infrastructure or systems installed, maintained and operated by the County comprising or related to the Facility (as defined in Section 6.0) or the County Bulkhead.

Without limiting any other provisions of this Agreement, the Municipality, at its expense, will at all times maintain and keep the County Parcel and all improvements thereon, including the existing railroad tie bulkheads (“Railroad Bulkheads”) and other infrastructure or systems at the County Parcel not related to the Facility or the County Bulkhead (as defined below), in compliance with all federal, state, and local laws, rules and regulations designed to prevent or control the discharge of substances in the land, water, or air, and the Municipality agrees to indemnify, hold harmless and defend County from and against any and all suits, actions, proceedings, fines, claims, or the cleanup, response, removal or remediation of any environmental condition arising from or alleged to arise from a violation of any such environmental law, rule, or regulation unless caused solely by the County. The steel bulkhead (“County Bulkhead”) shall remain the property and responsibility of the County.

Upon the effective date of the conveyance of the County Parcel to the Municipality, the Municipality shall assume full responsibility for the County Parcel in all respects, including, but not limited, the responsibility for the maintenance, repair and replacement of the Railroad Bulkheads, other existing infrastructure or systems, to the County's reasonable satisfaction. The Municipality hereby acknowledges, represents and covenants that in event it is necessary to replace the Railroad Bulkheads, the new bulkheads shall be designed at the discretion of the City Engineer and shall meet current design and use standards.

The Municipality shall permit the County and its contractors full, unrestricted and unconditional access to the Property for the purpose of inspecting the Railroad Bulkheads and other existing infrastructure or systems for which the Municipality is responsible to maintain to the satisfaction of the County. The County shall have the right, but not the obligation, to conduct any required maintenance to the Railroad Bulkhead or other infrastructure or systems and the Municipality shall provide the County all information requested by the County regarding same for which the Municipality is responsible. Prior to undertaking any work the County shall notify the City in writing. In the event the City has not responded to the County within forty-five (45) days from receipt of written notice, the County may proceed with the maintenance. The County shall be reimbursed by the Municipality for any costs incurred in connection with any Municipality's obligations regarding the County Parcel and/or the Railroad Bulkhead, within ninety (90) days of receipt of an invoice, with supporting documentation from the County. In the event the Municipality fails to reimburse the County within said ninety (90) day period, in addition to any other remedies it may have, the County shall have the right to deduct from future contract payments under any contracts the County may have with the Municipality any funds the County may determine are owed to the County under this Agreement. It is hereby understood and acknowledged by the Municipality that the County's completion of any of Municipality's obligations hereunder shall not be deemed a waiver of the Municipality's obligations under this Agreement.

All of the provisions of this Section 5 shall survive the expiration or other termination of this Agreement.

ARTICLE VI

EASEMENTS OVER COUNTY PROPERTY
IN FAVOR OF THE COUNTY

Section 6.0. In consideration for the granting by the County to the Municipality of the County Parcel, the Municipality hereby grants and conveys to the County, its successors and assigns, a permanent easement over the County Property for any purpose whatsoever related to the operation of the County's Wastewater Treatment Plant, also known as the "Yonkers Joint Resource Recovery Facility" ("Facility"), including, but not limited to, inspecting, installing and operating the County Bulkhead, new bulkheads, underground utilities, underground storm drainage and other sewer lines and improvements such as, but not limited to, protective barriers and fences and fire hydrants related to the Facility or the County Bulkhead, together with the right of ingress and egress to exercise all of the rights herein granted.

The County shall have the right, but not the obligation, to conduct any required maintenance to the Railroad Bulkheads or other infrastructure or systems, pursuant to the terms set forth in Section 5.2 hereof.

Section 6.02. The parties hereby represent, warrant and covenant to execute and record an easement agreement setting forth the rights and obligations of each party hereunder.

ARTICLE VII

(b) to provide defense for and defend, at its sole expense, any and all claims, demands or causes of action directly or indirectly arising out of this Agreement and to bear all other costs and expenses related thereto; and

(c) in the event the Municipality does not provide the above defense and indemnification to the County, and such refusal or denial to provide the above defense and indemnification is found to be in breach of this provision, then the Municipality shall reimburse the County's reasonable attorney's fees incurred in connection with the defense of any action, and in connection with enforcing this provision of the Agreement.

All of the provisions of this Section 7 shall survive the expiration or other termination of this Agreement.

ARTICLE VIII

Section 12.8. The Municipality agrees to observe and obey any and all Federal, State and local laws, rules and regulations, and to require its officers, agents, employees, contractors, and suppliers to observe and obey the same.

Section 12.9. This Agreement shall be deemed executory only to the extent of funds appropriated and made available for the purpose of this Agreement and no liability on account thereof shall be incurred by the County beyond the amount of such appropriated funds.

Section 12.10.
