

**HONORABLE BOARD OF LEGISLATORS
THE COUNTY OF WESTCHESTER**

Your Committee is in receipt of a communication from the County Executive recommending approval of legislation, which, if approved by your Honorable Board, will authorize the County of Westchester ("County") in partnership with the City of Yonkers ("City"), to create a riverfront park on the Hudson River, in the Ludlow Section of Yonkers, as follows:

- 1) a local law ("Local Law"), which will authorize the County to enter into an intermunicipal agreement ("IMA") with the City of Yonkers (the "City"), pursuant to which the County will (i) contribute up to \$15,000,000.00 for the creation of a riverfront park on the Hudson River, in the Ludlow section of Yonkers ("Park," "Property" or "Fernbrook/Ludlow Waterfront Park") and (ii) lease the Park from the City, which Park is comprised of certain riverfront properties owned by the City located on Water Grant Street, Pier Street and Yerks Place, Yonkers, NY, more particularly identified as Section 1, Block 615, Lots 1, 6, 10 and 35.45, Section 1, Block 622, Lots 1 and 8 and Section 1, Block 623, Lots 1, 2 and 4 on the tax maps of the City of Yonkers, and certain County property which is being conveyed to the City and leased back to the County, as more particularly detailed in subparagraph 2) below.

Your Committee is advised that under the proposed IMA, the County will contribute up to \$15,000,000.00 to finance the construction of upland site work improvements to create the Park, including, but not limited to, remediation work. Pursuant to the IMA, the Park will be operated and maintained solely by the City and remain accessible to all County residents for park purposes, in perpetuity and free of any parking entry charges or use fees, except for the renting of picnic facilities, kayak equipment or other activities mutually approved by the parties, provided (i) such fees are reasonable and (ii) the City will charge the same fees to residents and non-residents of the City of Yonkers.

Your Committee is also advised that the term of the proposed IMA will commence upon the start of construction of the upland site work improvements on the Park and shall continue

for the life of the bonds which is anticipated to be fifteen (15) years, unless the Agreement is terminated sooner in accordance with the terms of this Agreement.

Your Committee is further advised that, pursuant to the proposed IMA, the City will be responsible for all labor and equipment to create the Fernbrook/Ludlow Waterfront Park, including procuring design services and construction of the Park improvements. Such procurement will be in compliance with all applicable laws, rules and regulations. The City will not deviate from the approved drawings and specifications without the prior written consent of the County's Department of Planning Commissioner ("Planning Commissioner") and the Department of Public Works and Transportation Commissioner.

Your Committee is also advised that, pursuant to Section 104.11(5)(e) of the Laws of Westchester County, authorization of the proposed IMA, pursuant to which the County will lease the Park from the City requires the passage of a Local Law. Also attached is a Resolution authorizing a Public Hearing as required by §209.141(4) of the Laws of Westchester County.

- 2) an act ("Conveyance Act"), which will authorize the County to convey to the City certain County-owned land located at 1 Fernbrook Street, Yonkers, New York, consisting of approximately 0.4 acres of vacant unused land, as more particularly identified as Section 1, Block 600, portion of Lot 1 in the tax maps of the City of Yonkers (the "County Parcel") to be added to the Park for the construction of certain upland park improvements by the City. Those improvements will include, but are not limited to, the installation of a parking lot and three (3) electric vehicle ("EV") charging stations, capable of charging six (6) cars at the same time, to be used by all County residents desirous of enjoying the Park for park and recreational purposes.

Your Committee is advised that the County acquired title to the County Parcel and other County property in 1970. The County Parcel is adjacent to (more particularly located on the north side of) the County's Wastewater Treatment Plant, also known as the Yonkers Joint Resource Recovery Facility ("Facility").

Your Committee is also advised that the County has determined that the County Parcel is no longer required for any County purpose and desires that the County Parcel be used for park purposes. As a condition for the conveyance of the County Parcel to the City, the City (i) will grant to the County a permanent easement over the County Parcel for any purpose whatsoever related to the operation of the Facility, including, but not limited to, inspecting, installing and operating the steel bulkhead running along the Hudson River ("County Bulkhead"), new bulkheads, underground utilities, underground storm drainage and other sewer lines and improvements such as, but not limited to, protective barriers and fences and fire hydrants related to the Facility or the County Bulkhead, together with the right of ingress and egress to exercise all such rights; and (ii) shall assume full responsibility for the maintenance, repair and replacement of the existing railroad tie bulkheads ("Railroad Bulkheads") and other existing infrastructure or systems, to the County's reasonable satisfaction. The City will also agree to, in the event necessary, to replace the Railroad Bulkheads with new bulkheads to be designed at the discretion of the City engineer to meet current design and use standards. The County and the City agree to execute and record an easement agreement setting forth the rights and responsibilities of each party thereunder.

Your Committee is further advised that, pursuant to Section 209.101(8) of the Laws of Westchester County, the County may sell or convey any surplus real property to be used in perpetuity for park and municipal recreation purposes for the sum of \$1.00. The proposed Land Conveyance Act will authorize the sale of the County Parcel to the City for \$1.00 to be used by all County residents desirous of enjoying the Park for park and recreational purposes, free of any parking or use fees, except as indicated above. A Report from the Planning Commissioner, required pursuant to Section 191.41 of the Laws of Westchester County, recommending disposition of the County Parcel is attached hereto for your consideration.

- 3) an act ("Bond Act"), which will authorize the County to issue \$15,000,000.00 in bonds of the County, to finance the construction of upland site work improvements to create the Park, including remediation work. The total estimated cost for the creation of the Park is approximately \$21,000,000.00, of which \$15,000,000.00 will be funded by the County under

the Bond Act and the remaining amount or other excess amounts will be funded by the City to finance the creation of the Park.

- 4) an act (“Capital Budget Amendment Act”), which will amend the current-year capital budget to increase the County share for this specific capital project BLA1A (2800) –Yonkers Waterfront Park (“BLA1A”) by \$5,000,000.00, from \$10,000,000.00 to \$15,000,000.00, which continues capital project BLA1A Parkland Acquisition/Westchester Legacy Program.

The Department of Planning has advised your Committee that pursuant to the State Environmental Quality Review Act and its implementing regulations, 6 NYCRR Part 617 (“SEQRA”), the City classified this capital project as an Unlisted action. Pursuant to a resolution approved on October 22, 2024, the City Council declared itself as the lead agency and circulated the Environmental Assessment Form (“EAF”), supplemental attachments and the criteria set forth in SEQRA and has identified and carefully considered the relevant areas of environmental concern which are set forth in the EAF, to determine if this proposed action will have a significant impact upon the environment. On December 10, 2024, the City Council issued a Negative Declaration for the project. Since the City undertook coordinated review and the County was included as an involved agency, then, in accordance with SEQRA, no further environmental review is required by the County. Your Committee concurs with this recommendation.

In addition, Section 167.131 of the County Charter mandates that a capital budget amendment that introduces a new capital project or changes the location, size or character of an existing capital project be accompanied to the Board of Legislators by a report of the County Planning Board in respect to the physical planning aspects of the project. The Department of Planning has advised that since the Planning Board has reviewed the project and issued a report, which is attached hereto for your consideration, no further action by the Planning Board is necessary at this time.

Your Committee has also been informed that the adoption of the Local Law, the Land Conveyance Act, Capital Budget Amendment as well as the related Bond Act each require an affirmative vote of two-thirds of all the members of your Honorable Board. Your Committee is

further advised that the Bond Act can only be enacted following adoption of the Capital Budget Amendment. Additionally, as indicated in subparagraph 1) above, prior to taking any action on the proposed Local Law, this Honorable Board must hold a public hearing pursuant to 209.141(4) of the Laws of Westchester County, and a resolution providing for the hearing is annexed hereto.

Your Committee has carefully considered this matter and recommends that your Honorable Board adopt the annexed Local Law and Acts authorizing the County to enter into the IMA, sell the County Property to the City for \$1.00 for park purposes and accept an easement, amend the current-year capital budget and issue bonds in the amount of \$15,000,000.00 to finance the needed upland park improvements, including remediation work.

SUBJECT: **STATE ENVIRONMENTAL QUALITY REVIEW FOR CAPITAL PROJECT:
BLA1A, PARKLAND AND HISTORICAL PRESERVATION PROGRAM
YONKERS WATERFRONT PARK ON FERNBOOK STREET**

The Planning Department has reviewed the above referenced capital project (Fact Sheet Unique ID: 2800) with respect to the State Environmental Quality Review Act and its implementing regulations, 6 NYCRR Part 617 (SEQR).

This capital project will provide funding to support the creation of a new waterfront park on Fernbrook Street, south of Ludlow Street, in the City of Yonkers. The park will include a playground, a pavilion, walking paths, lawn areas, an observation area overlooking the Hudson River, and a parking lot. This is part of a larger project that is being undertaken by the City of Yonkers that will include facilities for the Yonkers Fire and Police departments and for the Yonkers Paddling and Rowing Club. In addition to the provision of funding, which will require an inter-municipal agreement and a temporary lease over the City-owned property, the County will convey approximately 0.4 acres of land on the north side of the Yonkers Joint Treatment Plant to the City to be added to the new park, which will be open to all county residents. The County will retain a permanent easement over the property to be conveyed to allow the County to utilize the property as necessary to maintain the treatment plant and its operations.

Pursuant to SEQR, the Yonkers City Council classified the overall project as an Unlisted action. On November 1, 2024, the City sent out a notice of intent to serve as lead agency, along with Part 1 of a full Environmental Assessment Form. On December 10, 2024, the Yonkers City Council adopted a Negative Declaration for the project. Since the City undertook coordinated review and the County of Westchester was included as an involved agency, then, in accordance with section 617.6(b)(3), no further environmental review is required by the County.

Please do not hesitate to contact me if you have any questions regarding this matter.

SUBJECT: Disposition of 0.43 acres of undeveloped land adjacent to the County's
Wastewater Treatment Plant in the City of Yonkers

Pursuant to Section 191.41 of the County Charter, this is the required report of the Commissioner of Planning on the proposed disposition of 0.43 acres of undeveloped land adjacent to the County's Wastewater Treatment Plant in the City of Yonkers for the development of the Fernbrook Waterfront Park. The proposed Land Conveyance Act will authorize the sale of the County Property to the City of Yonkers for park and recreational purposes.

The disposition of the .43-acre parcel for the purposes of creating park and recreational opportunities in the City of Yonkers is recommended for the following reasons:

1. the park will be accessible to all County residents;
2. there are few waterfront recreational opportunities in this densely populated area of Westchester County;
3. the property is pedestrian accessible as well as via Metro-North commuter rail and Bee-Line bus service;
4. there are approximately 18,000 persons who live within a 0.5-mile radius of the site;
5. the property being disposed will provide much needed parking for the site;
6. the project is consistent with the policies of *Westchester 2025*, in that it will enhance the quality of Westchester's parks and recreation facilities

Based on this record, I have no objection to the disposition of the parcel owned by Westchester County. Attached is a copy of the resolution adopted by the Planning Board in support of the proposed disposition.

Project Description

This project continues Capital Project BLA01 Parkland Acquisition/Westchester Legacy Program. The Legacy Program is designed to aggressively pursue land acquisition for three major objectives:

1. Purchase parkland for active recreation such as baseball and soccer fields, trailways, and bike paths.
2. Preserve green space, protect natural habitats and protect rivers, streams, and lakes.
3. Preserve land for historic preservation and protection of our cultural landscape.

The project will provide funding for the construction of upland site work improvements to create a riverfront park in the Ludlow neighborhood in the City of Yonkers. The 2024 capital budget amendment (CBA) is to move \$5 Million in Under Review to this project. The project has \$10 Million in existing appropriations from 2021 for this project. The total county contribution will be \$15 Million. The project also includes an Act to approve conveyance of County property to the City for open space, with the County accepting an easement for access over such property.

Appropriations/Requests

2020: Funding for acquisition of properties for parkland and historic preservation (\$1,000,000)
2021: Creation of a new park in Ludlow Park, Yonkers (\$10,000,000); 4th Street Playground, Mt. Vernon (\$2,000,000); RiverWalk Improvements, Yonkers (\$5,000,000)
2022: Funding for environmental reviews for the design and construction of RiverWalk trail connections in Tarrytown (\$1,300,000)
2023: Funding for a True Linear RiverWalk Park in Yonkers (\$5,000,000) and Flint Park Turf Field, Larchmont (\$1,000,000), Habirshaw County Park (2020 appropriations)
2024: \$1,000,000 for Improvements to RiverWalk in Tarrytown. BOL add of \$2,000,000 for Silliman Park in Ardsley ¹; BOL add of \$427,000 for Rye Town Interior Bathhouse ². \$500,000 was added for general purposes and cost inflation,
Under Review: \$5,000,000 additional funding for parkland preservation

Justification

The Westchester County park and open space system has contributed greatly to the quality of life in the County. Municipal officials and residents throughout Westchester have indicated that open space preservation remains a top priority. The acquisition and protection of lands for environmental protection helps to build on this legacy. The County has played an important role in expanding opportunities for active recreation; traditionally it was municipalities and school districts that developed athletic fields.

¹ This Board of Legislator late addition to the Capital Plan 2024-2028 has not yet been reviewed by the County Planning Board.

² This Board of Legislator late addition to the Capital Plan 2024-2028 has not yet been reviewed by the County Planning Board.

The 1999 Open Space Policies were adopted by both the Planning and Parks Boards. These policies have goals for a continued County park and open space acquisition program that includes:

1. Provision of opportunities for active and passive recreation, with emphasis on locations close to concentrations of the County's population;
2. Establishment of a series of open space linkages to provide a connected system of parklands;
3. Preservation of significant amounts of the Hudson River waterfront;
4. Protection of environmentally significant properties; and
5. Preservation of properties considered to be of historic significance.

CONSISTENCY WITH PROGRAMS OR PLANS: The project is consistent with the policies of *Westchester 2025*, the County's long-range land use policies, and the 1999 Open Space Policies in that it supports open space preservation, provides opportunities for active and passive recreation, promotes open space linkages, preserves environmentally significant properties and helps preserve properties considered to be of historic significance.

Planning Board Analysis:

PL2: The Planning Board supports this project to improve parkland in the densely populated City of Yonkers. The Planning Board supports projects with the goal to keep park facilities in a well-maintained state. Performing physical improvements on a priority basis reflects a comprehensive approach to undertaking capital improvements.

As per Westchester County policy, stormwater management must be addressed with every capital project. Designs should comply with the NYS Stormwater Management Design Manual and the NYS Standards and Specifications for Erosion and Sediment Control.

The County will not withhold payment pursuant to this paragraph for more than sixty (60) days after payment would otherwise be due pursuant to the provisions of this Section 2.0, but the County shall not be restricted from withholding payment for cause found in the course of such audit or because of failure of the Municipality to cooperate with such audit. The County shall, in addition, have the right to audit such books and records subsequent to payment, if such audit is commenced within one year following termination of this Agreement.

ARTICLE III

Section 4.5. Following construction of park improvements on the Property, the Park shall be available to the public at all times as required by this Agreement except that the Municipality (i) may occasionally schedule certain specific uses in certain areas of the Park, as deemed appropriate; and (ii) may reserve for official municipal uses only certain areas of the Park including municipal offices, garages, storage space, certain parts of the pier, provided such area of the Park reserved for municipal use is *de minimis* compared to the overall size of the Park.

Section 4.6. In addition, the

Municipality shall install sign(s) on the Property: (i) indicating that the Park is open to all County residents and (ii) providing warning indications of possible sewer discharge at the existing outfall.

ARTICLE V
RIGHTS AND RESPONSIBILITIES OF THE MUNICIPALITY REGARDING THE
COUNTY PROPERTY

Section 5.0. The parties hereby acknowledge, represent and covenant, that, as further consideration for the City's investment and obligations in the construction of upland park improvements at the Property, the County will convey the County Parcel, an unimproved County-owned land located at 1 Fernbrook Street, Yonkers, New York 10705, as more particularly described on Schedule "A-1," to be used in perpetuity as part of the Property for park purposes, for \$1.00. It is hereby understood by the parties that title to the County Parcel shall revert to the County (i) if the Park is not completed by the Municipality within five (5) years from the date the Municipality obtains all necessary permits and approvals, or (ii) in the event the County Parcel is no longer used for park purposes, or (ii) any parking, entry or use fees (other than those expressly allowed herein) are charged to Westchester County residents.

Section 5.1. The Municipality acknowledges, represents and covenants that it has examined the County Parcel and has determined it to be suitable for its intended use. The Municipality accepts the County Parcel in its present, "as is" condition, without any representations or warranties from the County as to its suitability for any purpose, state of repair or quality of any other matter whatsoever. The Municipality further acknowledges and understands that the waters adjacent to the County Parcel are often subject to frequent sewer discharges at the existing outfall. The Municipality bears all risk of loss in connection with the use of the County Parcel, and expressly releases the County from any and all liability to it.

In furtherance of this Agreement, the Municipality agrees to do the following prior to completion of all Park improvements:

- i) To replace the existing native trees that will be removed by the Municipality on the County Property with the same number of native trees to be located on the Park as determined to be appropriate by the Municipality;
- ii) To conduct and provide the County with a mark out depicting all existing utilities on the County Parcel;
- iii) To install, operate and maintain at all times a number of Electric Vehicle ("EV") Charging Stations, to be located on the County Parcel, equivalent to twenty percent (20%) of the total number of parking spaces available at the County Parcel at any given time, and to install the necessary power supply, charging cable, connectors and other appurtenant equipment necessary to facilitate the installation of additional EV Charging Stations, as required by applicable law in order to properly accommodate the demands and needs of all County residents for additional EV Charging Stations;
- iv) To inspect, upgrade any existing storm, sewer or combined sewer system equipment under, on or above the Park area.

Section 5.2. In furtherance of this Agreement, the Municipality shall act in strict accordance with all applicable federal, state and local laws and regulations. The County shall have no financial or other obligation or liability with respect to the County Parcel, except for the County Bulkhead (as defined below) or other infrastructure or systems installed, maintained and operated by the County comprising or related to the Facility (as defined in Section 6.0) or the County Bulkhead.

Without limiting any other provisions of this Agreement, the Municipality, at its expense, will at all times maintain and keep the County Parcel and all improvements thereon, including the existing railroad tie bulkheads ("Railroad Bulkheads") and other infrastructure or systems at the County Parcel not related to the Facility or the County Bulkhead (as defined below), in compliance with all federal, state, and local laws, rules and regulations designed to prevent or control the discharge of substances in the land, water, or air, and the Municipality agrees to indemnify, hold harmless and defend County from and against any and all suits, actions, proceedings, fines, claims, or the cleanup, response, removal or remediation of any environmental condition arising from or alleged to arise from a violation of any such environmental law, rule, or regulation unless caused solely by the County. The steel bulkhead ("County Bulkhead") shall remain the property and responsibility of the County.

Upon the effective date of the conveyance of the County Parcel to the Municipality, the Municipality shall assume full responsibility for the County Parcel in all respects, including, but not limited, the responsibility for the maintenance, repair and replacement of the Railroad Bulkheads, other existing infrastructure or systems, to the County's reasonable satisfaction. The Municipality hereby acknowledges, represents and covenants that in event it is necessary to replace the Railroad Bulkheads, the new bulkheads shall be designed at the discretion of the City Engineer and shall meet current design and use standards.

The Municipality shall permit the County and its contractors full, unrestricted and unconditional access to the Property for the purpose of inspecting the Railroad Bulkheads and other existing infrastructure or systems for which the Municipality is responsible to maintain to the satisfaction of the County. The County shall have the right, but not the obligation, to conduct any required maintenance to the Railroad Bulkhead or other infrastructure or systems and the Municipality shall provide the County all information requested by the County regarding same for which the Municipality is responsible. Prior to undertaking any work the County shall notify the City in writing. In the event the City has not responded to the County within forty-five (45) days from receipt of written notice, the County may proceed with the maintenance. The County shall be reimbursed by the Municipality for any costs incurred in connection with any Municipality's obligations regarding the County Parcel and/or the Railroad Bulkhead, within ninety (90) days of receipt of an invoice, with supporting documentation from the County. In the event the Municipality fails to reimburse the County within said ninety (90) day period, in addition to any other remedies it may have, the County shall have the right to deduct from future contract payments under any contracts the County may have with the Municipality any funds the County may determine are owed to the County under this Agreement. It is hereby understood and acknowledged by the Municipality that the County's completion of any of Municipality's obligations hereunder shall not be deemed a waiver of the Municipality's obligations under this Agreement.

All of the provisions of this Section 5 shall survive the expiration or other termination of this Agreement.

ARTICLE VI

EASEMENTS OVER COUNTY PROPERTY
IN FAVOR OF THE COUNTY

Section 6.0. In consideration for the granting by the County to the Municipality of the County Parcel, the Municipality hereby grants and conveys to the County, its successors and assigns, a permanent easement over the County Property for any purpose whatsoever related to the operation of the County's Wastewater Treatment Plant, also known as the "Yonkers Joint Resource Recovery Facility" ("Facility"), including, but not limited to, inspecting, installing and operating the County Bulkhead, new bulkheads, underground utilities, underground storm drainage and other sewer lines and improvements such as, but not limited to, protective barriers and fences and fire hydrants related to the Facility or the County Bulkhead, together with the right of ingress and egress to exercise all of the rights herein granted.

Section 6.01. The County shall have the right, but not the obligation, to conduct any required maintenance to the Railroad Bulkheads or other infrastructure or systems, pursuant to the terms set forth in Section 5.2 hereof.

Section 6.02. The parties hereby represent, warrant and covenant to execute and record an easement agreement setting forth the rights and obligations of each party hereunder.

(b) to provide defense for and defend, at its sole expense, any and all claims, demands or causes of action directly or indirectly arising out of this Agreement and to bear all other costs and expenses related thereto; and

(c) in the event the Municipality does not provide the above defense and indemnification to the County, and such refusal or denial to provide the above defense and indemnification is found to be in breach of this provision, then the Municipality shall reimburse the County's reasonable attorney's fees incurred in connection with the defense of any action, and in connection with enforcing this provision of the Agreement.

STANDARD INSURANCE PROVISIONS **(MUNICIPALITY)**

1. . Prior to commencing work, and throughout the term of the Agreement, the Municipality shall obtain at its own cost and expense the required insurance as delineated below from insurance companies licensed in the State of New York, carrying a Best's financial rating of A or better. Municipality shall provide evidence of such insurance to the County of Westchester ("County"), either by providing a copy of policies and/or certificates as may be required and approved by the Director of Risk Management of the County ("Director"). The policies or certificates thereof shall provide that ten (10) days prior to cancellation or material change in the policy, notices of same shall be given to the Director either by overnight mail or personal delivery for all of the following stated insurance policies. All notices shall name the Municipality and identify the Agreement.

If at any time any of the policies required herein shall be or become unsatisfactory to the Director, as to form or substance, or if a company issuing any such policy shall be or become unsatisfactory to the Director, the Municipality shall upon notice to that effect from the County, promptly obtain a new policy, and submit the policy or the certificate as requested by the Director to the Office of Risk Management of the County for approval by the Director. Upon failure of the Municipality to furnish, deliver and maintain such insurance, the Agreement, at the election of the County, may be declared suspended, discontinued or terminated.

Failure of the Municipality to take out, maintain, or the taking out or maintenance of any required insurance, shall not relieve the Municipality from any liability under the Agreement, nor shall the insurance requirements be construed to conflict with or otherwise limit the contractual obligations of the Municipality concerning indemnification.

All property losses shall be made payable to the "County of Westchester" and adjusted with the appropriate County personnel.

In the event that claims, for which the County may be liable, in excess of the insured amounts provided herein are filed by reason of Municipality's negligent acts or omissions under the Agreement or by virtue of the provisions of the labor law or other statute or any other reason, the amount of excess of such claims or any portion thereof, may be withheld from payment due or to become due the Municipality until such time as the Municipality shall furnish such additional security covering such claims in form satisfactory to the Director.

In the event of any loss, if the Municipality maintains broader coverage and/or higher limits than the minimums identified herein, the County shall be entitled to the broader coverage and/or higher limits maintained by the Municipality. Any available insurance proceeds in excess of the specified minimum limits of insurance and coverage shall be available to the County.

2 The Municipality shall provide proof of the following coverage (if additional coverage is required for a specific agreement, those requirements will be described in the Agreement):
