Westchester County Board of Legislators
800 Michaelian Office Building
White Plains, New York 10601

Dear Members of the Board of Legislators:

Transmitted herewith for your review and approval is a bond act ("Bond Act") which, if adopted, would authorize the County of Westchester (the "County") to issue bonds in the amount of \$380,000 to finance the following capital project:

B0126 – Generator Systems Replacement, Grasslands Campus.

The Bond Act, in the amount of \$380,000, would finance the cost of design associated with the replacement of emergency generators, fuel tanks and associated equipment at various locations on the Grasslands Campus, including the Laboratories and Research Facility (425 kW generator), the Department of Corrections ("DOC") F Unit (300 kW generator), the DOC H Block (500 kW generator), and the Jail Annex (250 kW generator).

The Department of Public Works and Transportation (the "Department") has advised that the existing emergency generators and fuel tanks have reached the end of their useful lives and are in need of replacement.

Following bonding authorization, design will be scheduled and is anticipated to take six (6) months to complete and will be performed by in-house staff. It is anticipated that construction will take approximately thirty-six (36) months to complete and will begin after award and execution of the construction contracts, subject to your Honorable Board's further approval of construction funding.

The Planning Department has advised that based on its review, the above-referenced capital project may be classified as a "Type II" action pursuant to the State Environmental Quality Review Act ("SEQR") and its implementing regulations, 6 NYCRR Part 617. Therefore, no environmental review is required. As you know, your Honorable Board may use such expert advice to reach its own conclusion.

Based on the importance of this project to the County, favorable action on the proposed Bond Act is respectfully requested.

Sincerely,

George Latimer
County Executive

Dear Members of the Board of Legislators:

Transmitted herewith for your review and approval is a bond act ("Bond Act") which, if adopted, would authorize the County of Westchester (the "County") to issue bonds in the amount of \$350,000 to finance the following capital project:

B0125 – Infrastructure Rehabilitation, Record Center, Elmsford.

The Bond Act, in the amount of \$350,000, would finance the cost of design associated with the replacement of the existing 30-ton HVAC rooftop unit at the County Record Center in Elmsford.

The Department of Public Works and Transportation (the "Department") has advised that the existing HVAC unit is 33+ years old and is at the end of its useful life. The new unit will be a heat pump type unit with variable air volume, demand ventilation, and heat recovery, and will utilize the latest control strategies.

Following bonding authorization, design will be scheduled and is anticipated to take six (6) months to complete and will be performed by a consultant. It is anticipated that construction will take approximately nine (9) months to complete and will begin after award and execution of the construction contracts, subject to your Honorable Board's further approval of construction funding.

The Planning Department has advised that based on its review, the above-referenced capital project may be classified as a "Type II" action pursuant to the State Environmental Quality Review Act ("SEQR") and its implementing regulations, 6 NYCRR Part 617. Therefore, no environmental review is required. As you know, your Honorable Board may use such expert advice to reach its own conclusion.

Based on the importance of this project to the County, favorable action on the proposed Bond Act is respectfully requested.

Sincerely,

George Latimer
