Dear Members of the Board of Legislators:

Transmitted herewith for your review and approval is a bond act (the "Bond Act") which, if adopted, would authorize the County of Westchester (the "County") to issue bonds in the total aggregate amount of \$5,800,000.00, to finance the following five (5) capital projects for 2021:

<b>Capital Project</b>	<b>Bonds to be Authorized</b>	<b>Pumping Station</b>	<b>District to be Assessed</b>
SBV95 – Pumping Station Rehabilitation Program – Bronx Valley SSD ("SBV95")	\$1,500,000	Jackson Avenue	Bronx Valley Sanitary Sewer District
SM095 – Pumping Station Rehabilitation Program – Mamaroneck SSD ("SM095")	\$1,000,000	Saxon Woods	Mamaroneck Sanitary Sewer District
SNR95 – Pumping Station Rehabilitation Program – New Rochelle SSD ("SNR95")	\$800,000	Fifth Avenue	New Rochelle Sanitary Sewer District
SNY95 – Pumping Station Rehabilitation Program – North Yonkers SSD ("SNY95")	\$1,500,000	Alexander Street and Irvington	North Yonkers Sanitary Sewer District

The Bond Act, in the total aggregate amount of \$5,800,000.00, would authorize the County to issue bonds to finance design and construction management associated with the rehabilitation of the above referenced pumping stations. Work will include, but shall not be limited to, the replacement or repair of all mechanical, plumbing, fire protection, HVAC, odor control, electrical, instrumentation, structural, and architectural systems. This includes, but is not limited to, bar screens, pumps, piping and valves, gas and fire detection equipment, odor control equipment, conduit and wire, lighting, electrical distribution equipment, emergency generator (if present), control panels, floors, walls, windows, and roofs. In addition, Flood Hazard Mitigation will also be addressed at the Alexander Street, Jackson Avenue and Water Street Pumping Stations as

recommended in a prior Vulnerability Assessment Study, including the installation of water tight hatches, raising vents, and sealing building penetrations.

It should be noted that in a departure from the County's past practice, the County Budget Department is submitting this Bond Act to your Honorable Board simultaneously with the proposed 2021 Capital Budget. It is the County's goal to submit this Bond Act now so that the referenced projects will be ready to proceed without delay in early 2021. In addition, please note that the proposed Bond Act authorizes financing for like objects or purposes in connection with multiple capital projects. It is hoped that by combining projects that have the same objects and purposes into a single bond act, the County can dramatically reduce the amount of bond legislation that your Honorable Board would be required to review, thereby expediting the approval process and avoiding backlogs.

The Planning Department has advised that based on its review, the referenced capital projects have been classified as a "Type II" actions pursuant to the State Environmental Quality Review Act ("SEQR") and its implementing regulations, 6 NYCRR Part 617. Therefore, no further environmental review is required. As you know, your Honorable Board may use such expert advice to reach its own conclusion.

Based on the importance of these projects to the County, favorable action on the proposed Bond Act is respectfully requested.

Sincerely,

George Latimer  
County Executive

<b>Capital Project</b>	<b>Bonds to be Authorized</b>	<b>Pumping Station</b>	<b>District to be Assessed</b>
SBV95 – Pumping Station Rehabilitation Program – Bronx Valley SSD ("SBV95")	\$1,500,000	Jackson Avenue	Bronx Valley Sanitary Sewer District
SM095 – Pumping Station Rehabilitation Program – Mamaroneck SSD ("SM095")	\$1,000,000	Saxon Woods	Mamaroneck Sanitary Sewer District

SPK95 – Pumping Station Rehabilitation Program – Peekskill SSD ("SPK95")	\$1,000,000	Water Street	Peekskill Sanitary Sewer District

Your Committee is advised that the Bond Act, prepared by the law firm of Norton Rose Fulbright, would authorize the County to issue bonds in the total aggregate amount of \$5,800,000, to finance design and construction management associated with the rehabilitation of the above referenced pumping stations. Work will include, but shall not be limited to, the replacement or repair of all mechanical, plumbing, fire protection, HVAC, odor control, electrical, instrumentation, structural, and architectural systems. This includes, but is not limited to, bar screens, pumps, piping and valves, gas and fire detection equipment, odor control equipment, conduit and wire, lighting, electrical distribution equipment, emergency generator (if present), control panels, floors, walls, windows, and roofs. In addition, Flood Hazard Mitigation will also be addressed at the Alexander Street, Jackson Avenue and Water Street Pumping Stations as recommended in a prior Vulnerability Assessment Study, including the installation of water tight hatches, raising vents, and sealing building penetrations.

Your Committee is advised that in a departure from the County's past practice, the County Budget Department is submitting this Bond Act to your Honorable Board simultaneously with the proposed 2021 Capital Budget. It is the County's goal to submit this Bond Act now so that the referenced projects will be ready to proceed without delay in early 2021. In addition, please note that the proposed Bond Act authorizes financing for like objects or purposes in connection with multiple capital projects. It is hoped that by combining projects that have the same objects and purposes into a single bond act, the County can dramatically reduce the amount of bond legislation that your Honorable Board would be required to review, thereby expediting the approval process and avoiding backlogs.

The Planning Department has advised your Committee that based on its review, the above-referenced capital project has been classified as a Type "II" action pursuant to the State Environmental Quality Review Act ("SEQR") and its implementing regulations, 6 NYCRR Part 617. Therefore, no further environmental review is required. Your Committee has reviewed the annexed SEQR documentation and concurs with this conclusion.

It should be noted that an affirmative vote of two-thirds of the members of your Honorable Board is required in order to adopt the Bond Act. Your Committee recommends the adoption of the proposed Bond Act.

The

Such bonds shall contain substantially the recital of validity clause provided for in Section 52.00 of the Local Finance Law and shall otherwise be in such form and contain such recitals in addition to those required by Section 52.00 of the Local Finance Law, as the Commissioner of Finance shall determine.

or are reasonably expected to be, reserved, allocated on a long-term basis, or otherwise set aside with respect to the permanent funding of the object or purpose described herein.
