

(BOND) ACT 6 - 2023

Reference B014E
B0124
BPF39

**HONORABLE BOARD OF LEGISLATORS
THE COUNTY OF WESTCHESTER, NEW YORK**

Your Committee is in receipt of a transmittal from the County Executive recommending approval of a bond act (the "Bond Act") in the total amount of \$13,300,000 to authorize the County of Westchester (the "County") to finance the following three (3) capital projects:

B014E– Exterior Infrastructure Improvement, White Plains Complex (2021-2025)
B0124– White Plains Complex Lighting Systems
BPF39– Electric Vehicle Charging Stations and Infrastructure

Your Committee is advised that the Bond Act, prepared by the law firm of Hawkins Delafield & Wood, LLP, would authorize the County to issue bonds in the total amount of \$13,300,000 to finance various capital projects, including:

- (i) Design, construction management and construction associated with the rehabilitation of the coping at the Richard J. Daronco Courthouse and the stucco at the Low Rise Building.
- (ii) Design, construction management and construction associated with the replacement of the existing lighting system at the Michaelian Office Building.
- (iii) Installation of electric vehicle (EV) charging stations and associated infrastructure at various County locations.

Your Committee is advised that the anticipated cost, anticipated project timeline, and whether the design is anticipated to be undertaken in-house staff or by consultants for each capital project is set forth below:

BOND ACT – BUILDINGS AND PARKING FACILITIES

Cap ID	Project	Anticipated Amount	Design Assignment	Time Frame (Months)	
				Design	Construction
B014E	Exterior Infrastructure Improvement, White Plains Complex (2021-2025)	\$500,000	Staff	3	6
B0124	B0124– White Plains Complex Lighting Systems	\$4,800,000	NYPA	Currently underway. To be completed by the 4 th quarter of 2022	9
BPF39	Electric Vehicle Charging Stations and Infrastructure	8,000,000	Staff	Will vary by location	Will vary by location
Total:		\$13,300,000			

Your Committee is advised that the proposed Bond Act authorizes financing for like objects or purposes in connection with three (3) capital projects. It is hoped that by combining projects that have the same objects and purposes into a single bond act, the County can reduce the amount of bond legislation that your Honorable Board would be required to review, thereby expediting the approval process and avoiding backlogs.

The Planning Department has advised your Committee that based on its review, the above-referenced capital project has been classified as a Type “II” action pursuant to the State Environmental Quality Review Act (“SEQR”) and its implementing regulations, 6 NYCRR Part 617. Therefore, no further environmental review is required. Your Committee has reviewed the annexed SEQR documentation and concurs with this conclusion.

It should be noted that an affirmative vote of two-thirds of the members of your Honorable Board is required in order to adopt the Bond Act. Your Committee recommends the adoption of the proposed Bond Act.

SUBJECT: **STATE ENVIRONMENTAL QUALITY REVIEW FOR CAPITAL PROJECT:
BPF39 Electric Vehicle Charging Stations and Infrastructure**

PROJECT/ACTION: Per Capital Project Fact Sheet as approved by the Planning Department on 09-22-2022 (Unique ID: 2077)

With respect to the State Environmental Quality Review Act and its implementing regulations, 6 NYCRR Part 617, the Planning Department recommends that no further environmental review is required for the proposed action, because the project or component of the project for which funding is requested may be classified as a **TYPE II action** pursuant to section(s):

- **617.5(c)(9):** construction or expansion of a primary or accessory/appurtenant, nonresidential structure or facility involving less than 4,000 square feet of gross floor area and not involving a change in zoning or a use variance and consistent with local land use controls, but not radio communication or microwave transmission facilities;
- **617.5(c)(13):** extension of utility distribution facilities, including gas, electric, telephone, cable, water and sewer connections to render service in approved subdivisions or in connection with any action on this list;
- **617.5(c)(27):** conducting concurrent environmental, engineering, economic, feasibility and other studies and preliminary planning and budgetary processes necessary to the formulation of a proposal for action, provided those activities do not commit the agency to commence, engage in or approve such action;
- **617.5(c)(31):** purchase or sale of furnishings, equipment or supplies, including surplus government property, other than the following: land, radioactive material, pesticides, herbicides, or other hazardous materials.

COMMENTS: The project will fund the purchase of electric vehicle charging stations to be added to existing or new county parking facilities to support/promote the use of electric vehicles, which will help to reduce greenhouse gas emissions. Purchase and installation of charging stations at existing parking facilities with nearby electrical access may be classified as Type II under the aforementioned sections. The addition of electric vehicle charging stations at new parking facilities or where electric service is not readily available at or near the project site will be reviewed further

for SEQR compliance at the time funding approval is being sought for the larger project or prior to contract approval for construction.
