

**RESOLUTION NO.     – 2022**

WHEREAS, there is pending before this Honorable Board a Resolution to approve the inclusion of additional parcels of land within the Westchester County Agricultural District; and

WHEREAS, as this project is an “Unlisted” action under the State Environmental Quality Review Act (“SEQRA”), an Environmental Assessment Form has been prepared by the Department of Planning to assist this Honorable Board in complying with its responsibilities under SEQRA; and

WHEREAS, this Honorable Board has carefully considered this proposed action and has reviewed the Environmental Assessment Form and the criteria set forth in Section 617.7 of 6 NYCRR Part 617 of the SEQRA regulations and has identified the relevant areas of environmental concern, as are fully set forth in the attached “Negative Declaration”, to determine if this proposed action will have a significant impact on the environment.

NOW, THEREFORE, BE IT

RESOLVED, by the County Board of Legislators of the County of Westchester, State of New York, that based on this Honorable Board’s review of the Environmental Assessment Form and for the reasons set forth in the annexed “Negative Declaration,” it is determined that there will be no adverse impact on the environment from the inclusion of additional parcels of land within the Westchester County Agricultural District; and be it further

RESOLVED, that the Clerk of the Board of Legislators is authorized and directed to sign and date the Determination of Significance in the attached Environmental Assessment Form as Responsible Officer in Lead Agency; thereby executing and issuing a Negative Declaration on behalf of this Board pursuant to Article 8 of the Environmental Conservation Law; and to immediately file, publish and make available the Environmental Assessment Form pursuant to the requirements of Part 617 of Title 6 of the Official Compilation of the Codes, Rule and Regulations of the State of New York; and be it further

RESOLVED, that this Resolution shall take effect immediately.

**Short Environmental Assessment Form  
Part 3 Determination of Significance**

For every question in Part 2 that was answered “moderate to large impact may occur”, or if there is a need to explain why a particular element of the proposed action may or will not result in a significant adverse environmental impact, please complete Part 3. Part 3 should, in sufficient detail, identify the impact, including any measures or design elements that have been included by the project sponsor to avoid or reduce impacts. Part 3 should also explain how the lead agency determined that the impact may or will not be significant. Each potential impact should be assessed considering its setting, probability of occurring, duration, irreversibility, geographic scope and magnitude. Also consider the potential for short-term, long-term and cumulative impacts.

## STATE ENVIRONMENTAL QUALITY REVIEW

### ADDENDUM TO EAF

The Proposed Action is the recommendation by the Westchester County Board of Legislators to the New York State Commissioner of Agriculture concerning the inclusion of additional parcels of land within the Westchester County Agricultural District, as provided for under Section 303-b of Article 25-AA of New York State Agriculture and Markets Law. Inclusion of parcels of land within an agricultural district does not, in and of itself, supersede or modify existing land use ordinances or regulations. Consequently, additions of land to an existing agricultural district will not result in the physical alteration of the environment or otherwise have a negative impact on the environment. Rather, the addition of land to an existing agricultural district promotes the preservation of viable agricultural land and has other environmental benefits as described below. The New York State Department of Agriculture and Markets has determined that modifications to an agricultural district are an Unlisted action with respect to SEQR. The County Board of Legislators is conducting uncoordinated review as permitted for Unlisted actions.

The applications received for 2022 are described in more detail in the 2022 report of the Westchester County Agriculture and Farmland Protection Board. A list and map of the applications and individual parcels follows this narrative.

Agricultural land and the agricultural industry in Westchester County continue to be under considerable pressure to convert to other land uses, typically residential subdivision. Agricultural land contributes significantly to the quality of life in Westchester County by providing open space, links to cultural history, vegetative and wildlife habitat, and a local source of fresh food. The protection and enhancement of agricultural land is in furtherance of the County's goals, as described in the County Planning Board's long-range planning document, *Patterns for Westchester: the Land and the People*, and the County Agriculture and Farmland Protection Plan, to protect natural and cultural resources, preserve open space and community character, and reduce environmental impacts associated with development. The Westchester County Board of Legislators created the Agriculture and Farmland Protection Board and the Westchester County Agricultural District to protect agricultural land and enhance the agricultural industry in furtherance of these goals. New York State Agriculture and Markets Law requires that counties that have a certified agricultural district conduct an annual review of applications received for the inclusion of additional parcels of land within the agricultural district and submit recommendations, if warranted, to the New York State Commissioner of Agriculture.

Inclusion of additional agricultural parcels within the Agricultural District does not have a physical impact on the environment. Inclusion of land within the agricultural district furthers the goals and objectives of the County to:

- Preserve and protect the county's natural resources, including the drinking water supply;
- Assure a diverse and interconnected system of open space, supporting a variety of flora and fauna and providing contrast in the texture of the landscape;
- Enhance a broad economic base and economic opportunity within the county; and
- Protect the county's educational, cultural, historic and aesthetic resources for future generations.
