

**HONORABLE BOARD OF LEGISLATORS
THE COUNTY OF WESTCHESTER, NEW YORK**

Your Committee is in receipt of a transmittal from the County Executive recommending approval by the County of Westchester (“County”) of the following in connection Capital Project SPK26 – Gregory Brook Relief Sewer (“SPK26”):

- (1) a superseding bond act (the “Bond Act”) which, if adopted, would authorize the County of Westchester (the “County”) to issue up to \$1,900,000 in bonds of the County to finance the construction of a relief sewer on the Gregory Brook Intercepting Sewer located in the City of Peekskill (“Gregory Brook Relief Sewer”); and
- (2) a related amending bond act (the “Amending Bond Act”), which, if adopted, would amend Bond Act No. 83-2023, by (i) removing the authorization for \$400,000 bonds for design and construction management costs associated with project SPK26, and (ii) reflecting the correct estimated maximum cost and the amount of bonds authorized thereunder of \$2,900,000 for the remaining projects SOS07, SPK23, SY044, SY045, and SY053.

The Bond Act prepared by Norton Rose Fulbright, in the total amount of \$1,900,000, would finance the cost of design, construction management and construction associated with the construction of the Gregory Brook Relief Sewer. Work would include, but not be limited to, the installation and/or reconstruction of sanitary sewer pipes and manholes. but not be limited to, the installation and/or reconstruction of sanitary sewer pipes and manholes.

The Amending Bond Act would amend Bond Act No. 83 - 2023, by removing the authorization for \$400,000 bonds associated with project SPK26 for the construction of the Gregory Brook Relief Sewer, in the City of Peekskill, thereby reducing the estimated maximum cost and the amount of bonds authorized under Bond Act No. 83 - 2023 by \$400,000, and reflecting the correct estimated maximum cost and the amount of bonds authorized thereunder of \$2,900,000 for the remaining projects SOS07, SPK23, SY044, SY045, and SY053.

Your Committee has been advised by the Department of Environmental Facilities has advised that SPK26 is necessary to fix a portion of the McGregory Brook Intercepting Sewer that was constructed at a very flat slope. This portion of the sewer requires augmenting to handle potential flow increases in the upstream tributary areas. The sewer must be augmented with a relief sewer to increase flow capacity to equivalent levels found in upstream and downstream pipe segments.

Design is currently being undertaken by a consultant and is expected to be completed by the end of 2024. It is anticipated that construction will take 10 months to complete and will begin after award and execution of construction contracts.

The Department of Planning has advised your Committee that based on its review, the authorization of the proposed capital project may be classified as a Type "II" action pursuant to the State Environmental Quality Review Act and its implementing regulations, 6 NYCRR Part 617 ("SEQR"). Therefore, no environmental review is required. Your Committee has reviewed the annexed SEQR documentation and concurs with this recommendation.

It should be noted that an affirmative vote of two-thirds of the members of your Honorable Board is required in order to adopt the Bond Act and the Amending Bond Act. Your Committee has carefully considered the proposed Bond Act and Amending Bond Act, and recommends approval of both of the proposed Acts.
