

**HONORABLE BOARD OF LEGISLATORS
THE COUNTY OF WESTCHESTER, NEW YORK**

Your Committee is in receipt of an amended bond act (“Amended Bond Act”) in the total amount of \$11,500,000 which includes \$1,500,000 in previously authorized bonds of the County of Westchester (“County”) to finance Capital Project SSM21 – Saw Mill Section B Relief Sewer (“SSM21”). The Amended Bond Act, which was prepared by the law firm Norton Rose Fulbright, is required to finance the cost of design, construction management and construction costs for a new relief sewer for a section of the County’s Saw Mill Section B sanitary trunk sewer along Hunt’s Lane in the Town of New Castle in order to handle all existing and future sewer flow in this area of the District. Presently the work is also expected to include the relocation of an existing 6 inch diameter water main, excavation, backfill, tunneling, paving, and other piping and roadwork, and incidental expenses in connection therewith, in and for the benefit of the County’s Saw Mill Sanitary Sewer District.

The Department of Environmental Facilities (“Department”) has advised that design for SSM21 was originally scheduled to begin in 2024, but the schedule has been accelerated at the request of The Town of New Castle and Village of Mt. Kisco in order to reevaluate the current sewer flow agreement. Accordingly, design has begun and the current request is for financing of construction costs.

Design is currently being undertaken by a consultant and is expected to be completed by the first quarter of 2022. It is estimated that construction is estimated to take twelve months to complete and will begin after award and execution of the construction contracts.

It should be noted that your Honorable Board has previously authorized the County to issue bonds to finance SSM21, as follows: Bond Act No. 105-2020 in the amount of \$1,500,000 to finance design and construction management in connection with SSM21. These bonds have not been sold. Accordingly, it is now requested that Bond Act No. 105-2020 be amended to increase the total amount authorized by \$10,000,000, for a total authorized amount, as amended, of \$11,500,000 to revise the scope of Bond Act No. 105-2020 to include work associated with the construction phase of SSM21 and to increase the period of probable usefulness of said bonds.

The Planning Department has advised your Committee that based on its review, SSM21 has been classified as an "Unlisted" action under the State Environmental Quality Review Act ("SEQR"). A Resolution, and proposed Negative Declaration, along with a Short Environmental Assessment Form, prepared by the Planning Department, are attached to assist your Honorable Board in complying with SEQR. Should your Honorable Board conclude that the proposed action will not have any significant impact on the environment; it must approve the Resolution adopting the Negative Declaration prior to enacting the aforementioned Amended Bond Act.

It should be noted that an affirmative vote of two-thirds of the members of your Honorable Board is required in order to adopt the Amended Bond Act. Your Committee recommends the adoption of the proposed Amended Bond Act.

Short Environmental Assessment Form Part 3 Determination of Significance

For every question in Part 2 that was answered “moderate to large impact may occur”, or if there is a need to explain why a particular element of the proposed action may or will not result in a significant adverse environmental impact, please complete Part 3. Part 3 should, in sufficient detail, identify the impact, including any measures or design elements that have been included by the project sponsor to avoid or reduce impacts. Part 3 should also explain how the lead agency determined that the impact may or will not be significant. Each potential impact should be assessed considering its setting, probability of occurring, duration, irreversibility, geographic scope and magnitude. Also consider the potential for short-term, long-term and cumulative impacts.

The new sewer line will supplement an existing sewer line which frequently sees flows exceeding best management practices. The size of the new pipe will match the size of the existing sections of pipe on each end, which are both 30 inches in diameter. The new pipe will have the capacity to accommodate additional flow to serve those that are in the district but not yet connected, as well as potential expansions of the district, which would be subject to additional SEQRA review. The new sewer line will not follow the existing sewer line as the existing route involves multiple turns and crossings under the Metro North Railroad, which present maintenance issues.

The installation of the new sewer main and all associated work will occur within the paved area or right-of-way of Hunts Lane, between Hunts Place and 180 Hunts Lane. As the project will only occupy land which has previously been disturbed for roadway and utility construction, the project is not anticipated to have any impact on archaeological resources. As well, the project will not occur within or proximate to any state or federal wetlands, and will have no impact on them.

The project occurs adjacent to the Chappaqua Coal/Fuel and Humble Oil Site, C360120, under the Brownfield Cleanup Program. The site had previously been used to store coal, feed, and petroleum fuels until 1966. The site has since been remediated and redeveloped for residential use. The site is currently under an environmental easement and a site management plan. NYSDEC reports that soil contaminants may be found in soils off site. If soil contamination is encountered during project construction, soil testing will be conducted and any contaminated soils will be disposed of appropriately. As such, the project will result in no releases of contaminated materials, and will have no impact on public health and safety.

- Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action may result in one or more potentially large or significant adverse impacts and an environmental impact statement is required.
- Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action will not result in any significant adverse environmental impacts.

All other matters, except as provided herein relating to such bonds, including determining whether to issue such bonds having substantially level or declining annual debt service and all matters related thereto, prescribing whether manual or facsimile signatures shall appear on said bonds, prescribing the method for the recording of ownership of said bonds, appointing the fiscal

agent or agents for said bonds, providing for the printing and delivery of said bonds (and if said bonds are to be executed in the name of the County by the facsimile signature of the Commissioner of Finance and, providing for the manual countersignature of a fiscal agent or of a designated official of the County), the date, denominations, maturities and interest payment dates, place or places of payment, and also including the consolidation with other issues, shall be determined by the Commissioner of Finance. It is hereby determined that it is to the financial advantage of the County not to impose and collect from registered owners of such bonds any charges for mailing, shipping and insuring bonds transferred or exchanged by the fiscal agent, and, accordingly, pursuant to paragraph c of Section 70.00 of the Local Finance Law, no such charges shall be so collected by the fiscal agent. Such bonds shall contain substantially the recital of validity clause provided for in Section 52.00 of the Local Finance Law and shall otherwise be in such form and contain such recitals in addition to those required by Section 52.00 of the Local Finance Law, as the Commissioner of Finance shall determine.

1) Such obligations are authorized for an object or purpose for which said County is not authorized to expend money, or

2) The provisions of law which should be complied with at the date of publication of this Bond Act are not substantially complied with,

and an action, suit or proceeding contesting such validity is commenced within twenty days after the date of such publication, or

3) Such obligations are authorized in violation of the provisions of the Constitution.

Section 14. This Bond Act shall constitute a statement of official intent for purposes of Treasury Regulations Section 1.150 - 2. Other than as specified in this Bond Act, no moneys are,

or are reasonably expected to be, reserved, allocated on a long-term basis, or otherwise set aside with respect to the permanent funding of the object or purpose described herein.

Section 15. This Bond Act, which shall take effect immediately in accordance with the provisions of Section 33.10 of the Local Finance Law and as provided in Section 107.71 of the Westchester County Charter, shall be published in summary form in the official newspaper of said County for purposes of this Bond Act, together with a notice of the Clerk and Chief Administrative Officer of the County Board of Legislators in substantially the form provided in Section 81.00 of the Local Finance Law.

Section (B). The amendments of the bond act set forth in Section (A) of this act shall in no way affect the validity of the liabilities incurred, obligations issued, or action taken pursuant to said bond act, and all such liabilities incurred, obligations issued, or action taken shall be deemed to have been incurred, issued or taken pursuant to said bond act, as so amended.

Section (C). This Act shall take effect immediately upon approval by the County Executive.
