Westchester County Board of Legislators
800 Michaelian Office Building
White Plains, New York 10601

Dear Members of the Board of Legislators:

Transmitted herewith for your review and approval is a bond act ("Bond Act") which, if adopted, would authorize the County of Westchester ("County") to issue \$13,200,000 in bonds to finance the following capital project:

SNR21 – New Rochelle WRRF Boiler and Grit Systems Replacement ("SNR21").

The Bond Act, in the amount of \$13,200,000, would finance the cost of construction associated with the replacement of the grit collection system, installation of additional boilers to handle the increased heat load demand created by the upgrade of the entire New Rochelle Wastewater Resource Recovery Facility, replacement of the building management system, and replacement of the sludge cake pumps at the dewatering facility.

Following bonding authorization, design will be scheduled and is estimated to take approximately eighteen (18) months to complete and will be performed by an outside consultant. Construction is estimated to take approximately thirty (30) months to complete and will begin after award and execution of construction contracts.

Based on the importance of this project to the County, favorable action on the proposed Bond Act is respectfully requested.

Sincerely,

George Latimer
Westchester County Executive

**HONORABLE BOARD OF LEGISLATORS
THE COUNTY OF WESTCHESTER, NEW YORK**

Your Committee is in receipt of a transmittal from the County Executive recommending approval of a bond act (“Bond Act”) in the amount of \$13,200,000 which would authorize the County of Westchester (“County”) to finance capital project SNR21 – New Rochelle WRRF Boiler and Grit Systems Replacement (“SNR21”).

The Bond Act, which was prepared by the law firm Norton Rose Fulbright, will finance the cost of construction associated with the replacement of the grit collection system, installation of additional boilers to handle the increased heat load demand created by the upgrade of the entire New Rochelle Wastewater Resource Recovery Facility, replacement of the building management system, and replacement of the sludge cake pumps at the dewatering facility.

Following bonding authorization, design will be scheduled and is estimated to take approximately eighteen (18) months to complete and will be performed by an outside consultant. Construction is estimated to take approximately thirty (30) months to complete and will begin after award and execution of construction contracts.

The Planning Department has advised your Committee that based on its review, the above-referenced capital project may be classified as a Type “II” action pursuant to the State Environmental Quality Review Act (“SEQR”) and its implementing regulations, 6 NYCRR Part 617. Therefore, no environmental review is required. Your Committee has reviewed the annexed SEQR documentation and concurs with this recommendation.

It should be noted that an affirmative vote of two-thirds of the members of your Honorable Board is required in order to adopt the Bond Act. Your Committee recommends the adoption of the proposed Bond Act.
