

RESOLUTION NO. 97 2021

RESOLVED, that this Board hold a public hearing on the proposed modification to the Peekskill Sanitary Sewer District by the addition of one (1) parcel of property located in the Town of Cortlandt, more particularly described as Hill and Dale Road, Sec. 45.5, Block 1, Lot 3 (Formerly Sec. 45.5, Block 1, Lots 2 & 3), pursuant to Section 237.131 of the Laws of Westchester County. The public hearing will be held at 7:30 P.M. on the 10th day of May, 2021 in the Chambers of the Board of Legislators, 8th Floor, Michaelian Office Building, White Plains, New York. The Clerk of the Board shall cause notice of the time and date of such hearing to be published at least once in one or more newspapers published in the County of Westchester and selected by the Clerk of the Board for that purpose in the manner and time required by law. Such Notice shall be substantially in the form attached hereto.

**HONORABLE BOARD OF LEGISLATORS
THE COUNTY OF WESTCHESTER**

Your Committee is in receipt of a transmittal from the County Executive in which the County Executive states that the Commissioner of Environmental Facilities (the “Commissioner”) has advised him that the Town of Cortlandt (“Town”) has requested pursuant to the attached resolution of the Town that the Peekskill Sanitary Sewer District (“District”) be modified to add one (1) parcel of property more particularly described as Hill and Dale Road, Sec. 45.5, Block 1, Lot 3 (Formerly Sec. 45.5, Block 1, Lots 2 & 3) (hereinafter the “Parcel”), which Parcel is not currently in any County Sanitary Sewer District and has never been in any County Sewer District in the past.

Your Committee is informed that the analysis prepared by the Department of Environmental Facilities (the “Department”) dated April 6, 2021 and attached hereto, indicates that the proposed addition of the Parcel represents an increase of 0.0081% to the Equalized Full Value of the District. The addition of the Parcel will not cause significant changes in the tax rate of the District.

According to the Department, the proposal to add the Parcel is feasible because: 1) the matter was requested by the Town; 2) the facilities necessary to connect the Parcel to County facilities (i.e., gravity sewers) will be constructed at the total expense of the Town; 3) maintenance of the completed facilities will be the responsibility of the Town and not the District; 4) the Peekskill Water Resource Recovery Facility (the “Plant”) has a design flow of 10 MGD and the present average daily flow is 6.1 MGD, while the average daily flow the Parcel will generate after inclusion is 400 GPD, and therefore the Plant and the County Trunk Sewer have sufficient capacity to accommodate the Parcel; 5) the subject expansion will not result in any significant effect on the tax structure of the District; and 6) the Parcel proposed to be added to the District is not now in any County sewer district and will be required to pay a surcharge over a ten year period.

Your Committee notes that Section 237.131 of the County Administrative Code authorizes the alteration or change of a sewer district. However, your Honorable Board may only alter or change the district after it has held a public hearing after notice has been given by

publication in such manner and for such time as the Board shall direct. Therefore, attached hereto is a Resolution, which, if adopted by your Honorable Board, would authorize the date and time of the public hearing. Your Committee recommends adoption of said Resolution.

Furthermore, Sections 237.131 and 237.141 of the County Administrative Code confer authority to determine what charges, if any, will be paid by the Parcel. Your Committee has been informed that the Department recommends that an aggregate surcharge of \$3,400.00 to be paid in each of ten equal annual installments of \$340.00, be assessed against the Parcel. This surcharge reflects capital costs incurred from inception of the District in 1970 through 2020. This formula has been used in past legislation for parcels added to a sanitary sewer district.

The Planning Department has advised that based on its review, the proposed addition of the Parcel constitutes a Type II action under the State Environmental Quality Review Act ("SEQRA"), and its implementing regulations, 6 NYCRR, Part 617.5(c)(11), (13) and (33), and therefore no further environmental review is required. Your Committee has reviewed the annexed SEQRA documentation and concurs with this conclusion.

Based on the above facts and the Feasibility Report prepared by the Department, your Committee concurs with the recommendation of the County Executive and recommends that your Honorable Board adopt the annexed Resolution which will authorize publication of the Legal Notice for the public hearing as required by the Administrative Code in such matters, and, after such hearing, urges your Honorable Board to adopt the annexed Act which accomplishes the addition of the Parcel to the District.

It should be noted that a vote of not less than a majority of the voting strength of the Board of Legislators is required to pass this Act.

RESOLUTION

NUMBER 65-21

(RE: AUTHORIZE REQUEST TO HAVE A PARCEL LOCATED WITHIN THE TOWN INCLUDED IN THE PEEKSKILL SANITARY SEWER DISTRICT AND FORWARD SAME TO WESTCHESTER COUNTY FOR CONSIDERATION)

WHEREAS, by letter dated January 28, 2021 from Arlene Salkow and Alex Weiss, Owner and Contract Vendee of Section 45.5, Block 1, Lot 3 property described below was received by the Town Board of the Town of Cortlandt at the Town Board Meeting held February 9, 2021 for a parcel located at Hill and Dale Road, Cortlandt Manor, New York 10567; and

WHEREAS, the owner(s) has requested the Town of Cortlandt petition the County of Westchester to have said property included into the Peekskill Sanitary Sewer District; said property is designated as follows:

Section 45.5 Block 1, Lot 3
(Formerly Section 45.5 Block 1, Lots 2 & 3)
Hill and Dale Road
Cortlandt Manor, NY 10567

Owner: Arlene Salkow
Contract Vendee: Alex Weis

NOW, THEREFORE, BE IT RESOLVED, that the Town Board of the Town of Cortlandt, on behalf of the above mentioned owner and contract vendee in the Town of Cortlandt, does hereby petition the County of Westchester to include said parcel designated above into the Peekskill Sanitary Sewer District.

DEPARTMENT OF ENVIRONMENTAL FACILITIES

April 6, 2021

FEASIBILITY REPORT
IN THE MATTER OF

THE ENLARGEMENT FOR A CERTAIN PROPERTY
IN THE
PEEKSKILL SANITARY SEWER DISTRICT
TOWN OF CORTLANDT

MP

Vincent F. Kopicki, P.E.
Commissioner
Environmental Facilities

The Town of Cortlandt has petitioned that one (1) property currently not included in the Peekskill Sanitary Sewer District be added to the Peekskill Sanitary Sewer District.

A. The identification of the property not currently within the boundaries of the Peekskill Sanitary Sewer District and to be added is contained in the attached Resolution prepared by the Town Clerk, Town of Cortlandt. Said property is not currently in any County Sanitary Sewer District, and has never been in any County Sewer District in the past. The property is known as Hill and Dale Road, designated as Section 45.5, Block 1, Lot 3 (formerly Section 45.5, Block 1, Lots 2 & 3).

B. EFFECT ON SEWER DISTRICT TAX RATE:

Full Equalized Valuations, which are assessed values adjusted for equalization rates, form the basis on which the sewer district tax levies are apportioned by the County Board of Legislators. The following are the full equalized valuations in the 2021 tax levy pertinent to the subject property:

Full Value of District

<u>CITIES/TOWNS</u>	<u>ASSESSED VALUE</u>	<u>EQ. PERCENT</u>	<u>FULL VALUE</u>
Cortlandt	\$ 13,840,248	1.53%	\$ 904,591,373
Peekskill	122,499,888	2.83	4,328,617,951
Somers	29,449,911	11.61	253,659,871
Yorktown	53,040,254	2.23	2,378,486,726
Total			\$7,865,355,921
(Town of Cortlandt) Total Value of the property to be added			+ <u>637,255</u>
Total Full Value of District as Amended:			\$7,865,993,176

* represents a 0.0081% increase in the FEV of the District

C. The Surcharge Calculation for the property which is not now in a County Sewer District and is proposed for inclusion in the Peekskill Sanitary Sewer District is as follows:

If: e = added area's share in District equity or surcharge amount;

A = added area's f.e.v., 2021 Rolls

D = District f.e.v., 2021 rolls, before proposed additions

and E = District equity in existing facilities or the total of debt service and advances from district levies to pay the capital costs of those facilities, for the period 1970 through 2020.

Then: $e = \frac{A}{D+A} \times E$

$$e = \frac{637,255}{7,865,355,921 + 637,255} \times 42,325,132$$

$$e = \frac{637,255}{7,865,993,176} \times 42,325,132$$

$$e = .00008101 \times \$42,325,132$$

$$e = \$3,428.82 \text{ (rounded to } \$3,400.00)$$

and: in each of 10 annual installments, a total surcharge of \$340.00 is to be collected from the added property and credited to the remaining properties of all Municipalities in the District, in each of the ten years.

D. Summary and Recommendations.

The proposed Peekskill Sanitary Sewer District Addition is feasible because:

1. The matter was requested by the Town of Cortlandt.
2. The facilities necessary to connect the property to County facilities (i.e. Gravity Sewers) will be constructed at the total expense of the Town of Cortlandt.
3. Maintenance of the completed facilities will be the responsibility of the Town of Cortlandt but not the Peekskill Sanitary Sewer District.
4. The Peekskill Water Resource Recovery Facility has a design flow of 10 MGD and the present average daily flow is 6.1 MGD. The average daily flow the parcels will generate is 400 gallons per day. The Facility and the County Trunk Sewer have sufficient capacity to accommodate this property.
5. The subject expansion will not result in any significant effect on the tax structure of the district.
6. The Territory proposed to be added to the Peekskill Sanitary Sewer District is not now in any County Sewer District and will be required to pay a surcharge over a ten year period.

TO: Vincent Kopicki, Commissioner
Department of Environmental Facilities

FROM: David S. Kvinge, AICP, RLA, CFM
Director of Environmental Planning

DATE: April 15, 2021

SUBJECT: **STATE ENVIRONMENTAL QUALITY REVIEW FOR ADDITION OF
ONE PROPERTY TO PEEKSKILL SANITARY SEWER DISTRICT
HILL AND DALE ROAD, TOWN OF CORTLANDT**

PROJECT/ACTION: Modification of the Peekskill Sanitary Sewer District to add one parcel—Section 45.5, Block 1, Lot 3 (formerly Lots 2 & 3)—located on Hill and Dale Road in the Town of Cortlandt. The parcel is approximately 0.89 acre in size. A single-family residence is proposed that will be able to access the sewer system via a lateral connection to an existing low pressure sanitary sewer force main on Hill and Dale Road.

With respect to the State Environmental Quality Review Act and its implementing regulations 6 NYCRR Part 617, the Planning Department recommends that no further environmental review is required because the project/action:

- DOES NOT MEET THE DEFINITION OF AN “ACTION” AS DEFINED UNDER SECTION 617.2(b)**
- MAY BE CLASSIFIED AS TYPE II PURSUANT TO SECTIONS:**
- 617.5(c)(11):** construction or expansion of a single-family, a two-family or a three-family residence on an approved lot including provision of necessary utility connections as provided in paragraph (13) of this subdivision and the installation, maintenance or upgrade of a drinking water well or a septic system or both, and conveyances of land in connection therewith;
 - 617.5(c)(13):** extension of utility distribution facilities, including gas, electric, telephone, cable, water and sewer connections to render service in approved subdivisions or in connection with any action on this list;
 - 617.5(c)(33):** adoption of regulations, policies, procedures and local legislative decisions in connection with any action on this list.

COMMENTS: Sewage from the Peekskill Sanitary Sewer District is treated at the Peekskill Water Resource Recovery Facility (WRRF), which has a design flow of 10 million gallons per day (MGD). The present average daily flow is 6.1 MGD. Since the residence is expected to generate

approximately 400 gallons of sewage per day, both the WRRF and County trunk sewer have sufficient capacity to accommodate this anticipated nominal additional flow.
