

ACT 36 - 2026
(BOND) ACT 37 - 2026

Reference SSM21

**HONORABLE BOARD OF LEGISLATORS
THE COUNTY OF WESTCHESTER, NEW YORK**

Your Committee is in receipt of a transmittal from the County Executive recommending approval by the County of Westchester ("County") of an act, which, if adopted, will amend the County's current-year capital budget ("Capital Budget Amendment"), as well as adoption of a related amended bond act (the "Amended Bond Act") in the amount of \$11,000,000, to finance capital project SSM21 – Saw Mill Section B Relief Sewer ("SSM21").

Your Committee is advised that the Capital Budget Amendment will amend the County's current-year capital budget to increase the County share for SSM21 by \$11,000,000. The Department of Environmental Facilities ("Department") has advised that the Capital Budget Amendment is required to fund the increased construction costs associated with this project.

The Amended Bond Act, in the total amount of \$26,000,000, which includes \$15,000,000 in previously authorized bonds of the County, would finance the cost of design, construction management and construction costs for a new relief sewer for a section of the County's Saw Mill Section B sanitary trunk sewer along Hunts' Lane in the Town of New Castle in order to handle all existing and future sewer flow in this area of the County's Saw Mill Sanitary Sewer District ("District"). The Department has advised that all of the bids submitted for the contract work exceeded the available construction budget. The increase in cost is attributable to geologic nonconformity in the subsurface conditions. During the bidding process, prospective bidders requested further geotechnical analysis, which demonstrated much harder rock. The new data suggested increased duration for micro tunneling operations, which will ultimately lead to higher construction costs. Due to the geologic history in Westchester County, which involved millions of years of bedrock formation followed by glacial erosion and scouring, there is often nonconformity in the subsurface. As a result, geological conditions may differ in locations within close proximity of each other.

Your Committee is advised that the design work was performed by outside consultants. It is anticipated that the additional construction work will take approximately thirty (30) months to complete and will begin after award and execution of the construction contracts.

Your Committee notes that this Honorable Board has previously authorized the County to issue bonds which to finance this project, as follows: Bond Act No. 216-2023 in the amount of \$15,000,000 to

finance design and construction management in connection with SSM21. These bonds have not been sold. Accordingly, it is now requested that Bond Act No. 216-2023 be amended to increase the amount authorized thereunder by \$11,000,000, for a total authorized amount, as amended, of \$26,000,000.

The Planning Department has advised your Committee that based on its review, the above-referenced capital project has been classified as an “Unlisted” action under the State Environmental Quality Review Act, and its implementing regulations, 6 NYCRR Part 617 (“SEQR”) and that SSM21 was previously reviewed by the Westchester County Board of Legislators, which classified the project as an Unlisted action under SEQR. In accordance with SEQR, a Short Form Environmental Form was prepared and, on October 18, 2021, a Negative Declaration was issued by the Board of Legislators (Resolution 178-2021). In 2023, an amended bond act was authorized to provide additional funds for the project with no change to the scope of the project. Since the current request is for an increase in funding with no change in the scope of the project, the original Negative Declaration remains valid and no further environmental review is required. Your Committee has reviewed the annexed SEQR documentation and concurs with this recommendation.

The Planning Department has further advised your Committee that the Planning Board has previously reviewed this project and issued a report, and that since there is no change in the scope of the work and this is simply a change in the financing plan, no further action by the Planning Board is necessary at this time.

Your Committee has carefully considered the proposed Capital Budget Amendment, as well as the related Amended Bond Act, and recommends approval of both of the proposed Acts, noting that the Amended Bond Act may only be enacted following adoption of the Capital Budget Amendment. It should also be noted that an affirmative vote of two-thirds of the members of your Honorable Board is required in order to amend the County’s Capital Budget and to adopt the Amended Bond Act.

SUBJECT: **STATE ENVIRONMENTAL QUALITY REVIEW FOR CAPITAL PROJECT
SSM21 SAW MILL SECTION B RELIEF SEWER**

The Planning Department has reviewed the above referenced capital project (Fact Sheet Unique ID: 3073) in accordance with the State Environmental Quality Review Act and its implementing regulations, 6 NYCRR Part 617 (SEQR).

The project was previously reviewed by the Westchester County Board of Legislators, which classified the project as an Unlisted action under SEQR. In accordance with SEQR, a Short Environmental Assessment Form was prepared and, on October 18, 2021, a Negative Declaration was issued by the Board of Legislators (Resolution 178-2021). In 2023, an amended bond act was authorized to provide additional funds for the project with no change in the scope of the project.

Since the current request is to authorize a further increase in bond funding to finance the cost of construction with no change in the scope of the project, the original Negative Declaration remains valid and no further environmental review is required.

Please do not hesitate to contact me if you have any questions regarding this matter.

Section 5. The faith and credit of the County of Westchester, New York, are hereby irrevocably pledged for the payment of the principal of and interest on such obligations as the same respectively become due and payable. The Commissioner of Finance is hereby authorized to enter into such agreements as said Commissioner of Finance shall determine reasonable and necessary to facilitate the issuance, sale, resale and, or repurchase of such bonds or notes pursuant to the provisions of Section 54.90 of the Local Finance Law. Such bonds and, or notes shall be of such terms, form and contents, and shall be sold in such manner, as may be prescribed by said Commissioner of Finance.

- 3) Such obligations are authorized in violation of the provisions of the Constitution.

Section 14. This Bond Act shall constitute a statement of official intent for purposes of Treasury Regulations Section 1.150 - 2. Other than as specified in this Bond Act, no moneys are, or are reasonably expected to be, reserved, allocated on a long-term basis, or otherwise set aside with respect to the permanent funding of the object or purpose described herein.

Section 15. This Bond Act, which shall take effect immediately in accordance with the provisions of Section 33.10 of the Local Finance Law and as provided in Section 107.71 of the Westchester County Charter, shall be published in summary form in the official newspaper of said County for purposes of this Bond Act, together with a notice of the Clerk of the Board of Legislators in substantially the form provided in Section 81.00 of the Local Finance Law.

Section (C). This Act shall take effect immediately upon approval by the County Executive.

Comments:

A 2026 Capital Budget Amendment (CBA) is requested to fund additional construction and construction management costs for the Saw Mill Section B Relief Sewer. The total CBA request is for \$11 million in 2026 appropriations which is shown in "Under Review." This accounts for the \$9 million described below plus \$2 million for additional construction management costs and construction contingency.

The bids were received on December 10th, 2025 and exceeded the available construction funding. During bidding, potential bidders requested further geotechnical analysis which demonstrated much harder rock. The new data suggested increased duration for micro tunneling operations which will ultimately lead to higher construction costs. Due to the geologic history in Westchester County which involved millions of years of bedrock formation followed by glacial erosion and scouring, there is often nonconformity in the subsurface. As a result, geological conditions may differ in locations within close proximity of each other. The results of the recent data is attributed to these geologic conditions.

Given the new data, the consultant provided a revised construction estimate which increased the costs by approximately \$6 million. To ensure appropriate funds are requested, DEF opted to allow for the bids to close prior to requesting additional funds so that actual construction costs are obtained.
