Westchester County Board of Legislators
800 Michaelian Office Building
White Plains, New York 10601

Dear Honorable Members of the Board of Legislators:

Transmitted herewith for your review and approval is a bond act (the "Bond Act") which, if adopted by your Honorable Board, would authorize the County of Westchester (the "County") to issue up to Four Hundred Fifty Thousand (\$450,000.00) Dollars in bonds of the County to finance a component of capital project BPL26 - Flood Mitigation ("BPL26"). Also attached is an Act authorizing an intermunicipal agreement ("IMA") with the Town of Greenburgh (the "Town") setting forth the terms of the flood mitigation project.

The Bond Act, in the amount of Four Hundred Fifty Thousand (\$450,000.00) Dollars, would fund up to 50% of the costs associated with Preliminary Engineering services that will develop proposed projects for flood mitigation in the Troublesome Brook and Manhattan Park Brook watersheds in the Town of Greenburgh, the Troublesome Brook identified as flood problem areas GRB-7 and GRB-16 and the Manhattan Park Brook identified as flood problem areas GRB-1, GRB-2 and GRB-3 in the Bronx River Stormwater Reconnaissance Plan. The analysis will take approximately six (6) months to complete.

The IMA will set forth the responsibilities of the County and the Town in connection with the project. In accordance with the IMA, the County and the Town will each provide up to fifty (50%) percent of the total cost of the project which is Eight Hundred Thirty-Five Thousand, Five Hundred (\$835,500.00) Dollars. The County will pay to the Town, on a reimbursement basis, an amount not to exceed Four Hundred Seventeen Thousand, Seven Hundred Fifty (\$417,750.00) Dollars. It should be noted that the Bond Act for \$450,000.00, also includes additional County costs for staff hours and administration of the project.

In 2011 your Honorable Board enacted the Westchester County Storm Water Management Law ("SWML") to assist municipalities with storm water management (flood mitigation). *See* Laws of Westchester County Chapter 241, Article III-A, Sections 241.252-241.260. The SWML provides for the evaluation of flooding within the County through preparation of watershed "reconnaissance plans", and the SWML authorizes County cooperation with municipalities, including funding assistance, to improve storm water management and reduce flooding.

By Act No. 124-2014, your Honorable Board approved the Stormwater Reconnaissance Plan for the Bronx River Watershed. Troublesome Brook and Manhattan Park Brook are identified as areas of recurring flooding in this plan. Criteria for funding stormwater management (flood mitigation) projects are also described in the plan, including discretionary fund policy requirements to

affirmatively further fair housing. The IMA requires the Town to adopt regulations and policies consistent with the flood mitigation criteria in the Stormwater Reconnaissance Plan for the Bronx River Watershed.

It should be noted that your Honorable Board has previously authorized the County to issue bonds which have financed prior components of this project as set forth in the attached fact sheet.

It should be further noted that since BPL26 is a "general fund" project, specific components are subject to a Capital Budget Amendment. Section 1 of the Bond Act authorizes an amendment to the County's Capital Budget to the extent the project scope is inconsistent with any details set forth in the current Capital Budget. Accordingly, the Bond Act, in addition to authorizing the issuance of bonds for this project, will also amend the 2025 Capital Budget to reflect the specific location of this project component.

In addition, section 167.131 of the County Charter mandates that a Capital budget amendment that introduces a new capital project or changes the location, size or character of an existing capital project be accompanied to the Board of Legislators by a report of the Westchester County Planning Board (the "Planning Board") with respect to the physical planning aspects of the project. Accordingly, the Planning Board Report for BPL26 and the Planning Board resolution approving same are annexed.

Based upon the foregoing, I recommend the adoption of the aforementioned Bond Act as well as the Act authorizing the IMA.

Sincerely,

A handwritten signature in black ink, appearing to read 'KWJ', with a long, sweeping horizontal line extending to the right.

**THE HONORABLE BOARD OF LEGISLATORS
THE COUNTY OF WESTCHESTER**

Your Committee is in receipt of a transmittal from the County Executive recommending approval of a bond act (the “Bond Act”), which if adopted, would authorize the County of Westchester (the “County”) to issue up to \$450,000.00 in bonds to finance a component of capital project BPL26 - Flood Mitigation (“BPL26”). Also attached is an Act authorizing an intermunicipal agreement (“IMA”) with the Town of Greenburgh (the “Town”) setting forth the terms of the flood mitigation project.

Your Committee is advised that the Bond Act, prepared by the law firm of Hawkins Delafield & Wood LLP, would fund up to 50% of the costs associated with Preliminary Engineering services that will develop proposed projects for flood mitigation in the Troublesome Brook and Manhattan Park Brook watersheds in the Town of Greenburgh, the Troublesome Brook identified as flood problem areas GRB-7 and GRB-16 and the Manhattan Park Brook identified as flood problem areas GRB-1, GRB-2 and GRB-3 in the Bronx River Stormwater Reconnaissance Plan. The analysis will take approximately six (6) months to complete.

The IMA will set forth the responsibilities of the County and the Town in connection with the project. In accordance with the IMA, the County and the Town will each provide up to fifty (50%) percent of the total cost of the project which is Eight Hundred Thirty-Five Thousand, Five Hundred (\$835,500.00) Dollars. The County will pay to the Town, on a reimbursement basis, an amount not to exceed Four Hundred Seventeen Thousand, Seven Hundred Fifty (\$417,750.00) Dollars. It should be noted that the Bond Act for \$450,000.00, also includes additional County costs for staff hours and administration of the project.

Your Committee is advised that this Honorable Board enacted the Westchester County Storm Water Management Law (“SWML”) in 2011 to assist municipalities with storm water management (flood mitigation). *See* Laws of Westchester County Chapter 241, Article III-A, Sections 241.252-241.260. The SWML provides for the evaluation of flooding within the County through preparation of watershed “reconnaissance plans”, and the SWML authorizes

County cooperation with municipalities, including funding assistance, to improve storm water management and reduce flooding.

By Act No. 124-2014, your Honorable Board approved the Stormwater Reconnaissance Plan for the Bronx River Watershed. Troublesome Brook and Manhattan Park Brook are identified as areas of recurring flooding in this plan. Criteria for funding stormwater management (flood mitigation) projects are also described in the plan, including discretionary fund policy requirements to affirmatively further fair housing. The IMA requires the Town to adopt regulations and policies consistent with the flood mitigation criteria in the Stormwater Reconnaissance Plan for the Bronx River Watershed.

Your Committee notes that this Honorable Board has previously authorized the County to issue bonds which have financed prior components of this project as set forth in the attached fact sheet.

The Planning Department has advised your Committee that based on its review, the above referenced capital project may be classified as a Type “II” action pursuant to the State Environmental Quality Review Act (“SEQR”) and its implementing regulations, 6 NYCRR Part 617. Therefore, no environmental review is required. Your Committee has reviewed the annexed SEQRA documentation and concurs with this recommendation.

Your Committee is further advised that since BPL26 is a “general fund” project, specific components are subject to a Capital Budget Amendment. Section 1 of the Bond Act authorizes an amendment to the County’s Capital Budget to the extent the project scope is inconsistent with any details set forth in the current Capital Budget. Accordingly, the Bond Act, in addition to authorizing the issuance of bonds for this project, will also amend the 2025 Capital Budget to reflect the specific location of this project component.

In addition, section 167.131 of the County Charter mandates that a capital budget amendment that introduces a new capital project or changes the location, size or character of an existing capital project be accompanied to the Board of Legislators by a report of the Westchester County Planning Board (the “Planning Board”) with respect to the physical planning aspects of the project. Accordingly, the Planning Board Report for BPL26 and the Planning Board resolution approving same are annexed.

Please note that an affirmative vote of two-thirds of the members of your Honorable Board is required in order to adopt the Bond Act, while an affirmative vote of a majority of the voting strength of your Honorable Board is required to adopt the Act authorizing the IMA.

Based on the importance of this project to the County, your Committee recommends favorable action on the annexed Bond Act and Act authorizing the IMA.

Project Description:

This project is intended to provide a share of the cost of funding flood mitigation projects that are proposed by local municipalities and approved by the County. This is a general fund, specific projects are subject to a Capital Budget Amendment.

The program enables Westchester County to partner with municipalities and other government agencies to provide funding for flood control or flood damage reduction projects. Through partnerships with municipalities and other government entities such as the U.S. Army Corps of Engineers and the New York State Department of Environmental Conservation, the County will work to reduce flooding problems and impacts on people and property throughout the county.

Two flood mitigation studies will be conducted addressing flood problem areas identified in the respective stormwater reconnaissance plans.

- 1) Troublesome Brook and Manhattan Brook Flood Study; this project involves the preparation of an engineering study in two areas of the Town of Greenburgh—the Troublesome Brook and the Manhattan Brook. The study will identify potential solutions to alleviate recurring flooding in the areas, identified as Flood Problem Areas GRB-1, 2, 3, 7 & 16 in the Stormwater Reconnaissance Plan for the Bronx River Watershed at a County cost not to exceed \$450,000. County staff will be reviewing the project scope and associated costs in more detail prior to execution of an IMA.
- 2) Peach Lake Flood Study; this project involves the preparation of an engineering study in the area of Peach Lake in the Town of North Salem. The study will identify potential solutions to alleviate recurring flooding, identified as Flood Problem Areas NSM-5 in the Stormwater Reconnaissance Plan for the Croton River and Inland Long Island Sound Watershed at a County cost not to exceed \$150,000. County staff will be reviewing the project scope and associated costs in more detail prior to execution of an IMA.

FUNDING REQUESTS:

- 2009: \$5,400,000 for the County contribution to flood mitigation projects in the Town of Mamaroneck (Gardens Lake), City of Rye/Village of Rye Brook (Blind Brook at Bowman Ave.), Village of Scarsdale (George Field Park, Cooper Green, Brewster Road and Butler Field) and the Village of Tarrytown (Loh Park neighborhood) and for the County contribution to the U.S Army Corps of Engineers' General Reevaluation Report (GRR) for the "Mamaroneck and Sheldrake Rivers Basin Flood Damage Reduction Study."
- 2018: \$70,000 for design of a flood mitigation plan for the Avon Circle area in the Village of Rye Brook.
- 2019: \$300,000 for a flood mitigation study along the Hutchinson River in Scarsdale, Eastchester and New Rochelle.
- \$1,000,000 for the replacement of the Hillside Avenue Bridge in the Village of Mamaroneck.
- 2021: 4,195,000 for five flood mitigation projects: 1) Grassy Sprain Reservoir Dam Outfall Improvements, City of Yonkers; 2) Decommissioning of the Upper Minkel Dam in the Town of New Castle; 3) replacement of Waverly Avenue Bridge, Town of Mamaroneck; 4) Paxton Avenue Flood Study, Village of Bronxville; 5) Peekskill-Hollow Brook Dam Rehabilitation, City of Peekskill

2022: \$3,800,000 for design and construction of flood mitigation at Avon Circle in the Village of Rye Brook
\$220,000 for flood mitigation study along the Pocantico River in Briarcliff Manor
\$130,000 for a flood mitigation study of the Gould Park-Pietro Place & Virginia Avenue Flood Study in Dobbs Ferry
\$450,000 for flood mitigation study of the Troublesome Brook and Manhattan Brook in the Town of Greenburgh
\$150,000 for a flood mitigation study of Peach Lake in the Town of North Salem

JUSTIFICATION: Westchester communities have been subject to flooding for decades. As development occurred, floodplains were filled and opportunities for flood storage were lost. Additional stormwater runoff was being generated from the newly created impervious surfaces. There has been an increase in the intensity of storms, resulting in greater volumes of water in a shorter period of time. With more water and fewer places for it to go, we experience flooding. Westchester County is committed to working with municipalities to address this serious problem.

CONSISTENCY WITH PROGRAMS OR PLANS: The project is consistent with the policies of *Westchester 2025*, the County's long-range land use policies, in that it will help "preserve and protect the county's natural resources and environment, both physical and biotic" and will help "safeguard Westchester from natural and manmade disasters."

Planning Board Analysis:

PL2: The Planning Board supports the County's participation in the above local flood mitigation projects for the following reasons:

- Municipal flood mitigation projects are expected to lessen the severity of flooding and/or reduce flood-related impacts on public and private properties.
- Municipal flood mitigation projects are expected to better protect the public's safety during flooding events.
- Several municipal flood mitigation projects are expected to provide secondary benefits, such as controlling polluted stormwater runoff and, therefore, improving water quality in the Long Island Sound and Hudson River watersheds.

RESOLUTION 22- 11

WESTCHESTER COUNTY PLANNING BOARD

Amendment of Planning Board Report on 2022 Capital Project Requests
BPL26 Flood Mitigation

WHEREAS, the County of Westchester has established Capital Project BPL26 Flood Mitigation, a general fund, to provide a share of the cost of funding flood mitigation projects that are proposed by local municipalities and approved by the County; and

WHEREAS, the preparation of a study focused on developing solutions to flooding in the areas of the Troublesome Brook and Manhattan Brook in the Town of Greenburgh, identified as Flood Problem Areas GRB-1, 2, 3, 7 & 16 in the Stormwater Reconnaissance Plan for the Bronx River Watershed; and

WHEREAS, the project has been reviewed and approved by the County Stormwater Advisory Board and will be subject to further detailed review by County staff; and

WHEREAS, the development of the plan will include consultation with the City of Yonkers, Village of Elmsford, and other neighboring municipalities, and any proposed solutions will not create or exacerbate flooding conditions in the City of Yonkers or elsewhere; and

WHEREAS, in furtherance of the above, the County Executive will be submitting legislation to the Board of Legislators to amend the Capital Project BPL26, Flood Mitigation, to add the project to Capital Project BPL26 and authorize bonding to fund up to 50% of eligible costs; and
