

**HONORABLE BOARD OF LEGISLATORS
THE COUNTY OF WESTCHESTER, NEW YORK**

Your Committee is in receipt of a transmittal from the County Executive recommending approval by the County of Westchester ("County") of an amended bond act ("Amended Bond Act") in the total amount of \$560,000, which includes \$200,000 in previously authorized bonds of the County, to finance capital project SW010 – Asset Management Program for DEF Facilities ("SW010"). The Amended Bond Act, which was prepared by the law firm Norton Rose Fulbright, will finance the cost of development of asset management programs for the Water Resource Recovery Facilities ("WRRFs") in the County's Sanitary Sewer Districts ("Districts") for the County's Department of Environmental Facilities ("Department") to better plan future capital improvements, for the benefit the Districts.

The Department has advised that the development of an asset management program will allow for effective asset replacement, planning and prioritization to enable the Department to sustain its assets and meet service expectations for its seven WRRFs, forty-two pumping stations, two overflow retention facilities, 194 miles of interceptor sewers and two water districts. The current request is a continuation of a pilot program that was conducted at the Port Chester WRRF in 2016.

Following bonding authorization, the evaluation will be scheduled and is estimated to take twelve months to complete. It is anticipated that the evaluation will be completed by consultants. It is estimated that, after the evaluation is complete, implementation of an asset management program based on the results of the evaluation, will also take twelve months to complete.

It should be noted that your Honorable Board has previously authorized the County to issue bonds to finance SW010 as indicated in the annexed fact sheet and as follows: Bond Act No. 59-2020 in the amount of \$200,000 to finance cost of developing an asset management program for the Mamaroneck WRRF for the Department. These bonds have not been sold. Accordingly, it is now requested that Bond Act No. 59-2020 be amended to increase the amount authorized by \$360,000 for a total authorized amount, as amended, of \$560,000, and to revise the scope of Bond Act No. 59-2020 to include development of asset management programs for all Department assets.

The Planning Department has advised your Committee that based on its review, the above-referenced capital project has been classified as a Type "II" action pursuant to the State Environmental Quality Review Act ("SEQR") and its implementing regulations, 6 NYCRR Part 617. Therefore, no further environmental review is required. Your Committee has reviewed the annexed SEQR documentation and concurs with this conclusion.

It should be noted that an affirmative vote of two-thirds of the members of your Honorable Board is required in order to adopt the Amended Bond Act. Your Committee recommends the adoption of the proposed Amended Bond Act.
