Westchester County Board of Legislators
800 Michaelian Office Building
White Plains, New York 10601

Dear Honorable Members of the Board of Legislators:

Transmitted herewith for your review and approval is a bond act ("Bond Act") which, if adopted, would authorize the County of Westchester ("County") to issue bonds in the amount of \$2,000,000 to finance the following capital project:

BPL26 – Flood Mitigation ("BPL26").

The Bond Act, in the amount of \$2,000,000, would finance the County's share of the cost of preparation of surveys, preliminary and detailed plans, specifications and estimates necessary for planning watershed-based flood mitigation measures and grant application materials, to identify potential projects to reduce flooding and flood damage, as well as a list of prioritized projects and to prepare designs, cost estimates and supporting analyses and other documentation required for common grant applications from state and federal agencies, resulting in a portfolio of draft applications when grant funding becomes available.

The Department of Planning ("Department") has advised that flooding throughout the County continues to impact residents, businesses and infrastructure more frequently and intensely and requires a watershed-wide understanding and approach. While the New York State Department of Environmental Conservation is currently preparing watershed-based flood mitigation plans for portions of the County under its Resilient NY program, other County areas continue to be impacted by flooding. This funding will allow the County to prepare plans that identify projects and strategies to reduce flooding and increase resiliency for the remainder of the County.

Following bonding authorization, preparation of the plans, including conceptual design of proposed projects will be scheduled and is anticipated to take a total of three years to complete for all remaining watersheds. Plans will be prepared individually for each remaining watershed by a qualified consultant.

Based on the importance of this project to the County, favorable action on the proposed Bond Act is respectfully requested.

Sincerely,

George Latimer
County Executive

**HONORABLE BOARD OF LEGISLATORS
THE COUNTY OF WESTCHESTER, NEW YORK**

Your Committee is in receipt of a transmittal from the County Executive recommending approval by the County of Westchester (“County”) of a bond act (“Bond Act”) in the amount of \$2,000,000 to finance capital project BPL26 – Flood Mitigation (“BPL26”). The Bond Act, which was prepared by the law firm Hawkins, Delafield & Wood, will finance the County’s share of the cost of preparation of surveys, preliminary and detailed plans, specifications and estimates necessary for planning watershed-based flood mitigation measures and grant application materials, to identify potential projects to reduce flooding and flood damage, as well as a list of prioritized projects and to prepare designs, cost estimates and supporting analyses and other documentation required for common grant applications from state and federal agencies, resulting in a portfolio of draft applications when grant funding becomes available.

The Department of Planning (“Department”) has advised that flooding throughout the County continues to impact residents, businesses and infrastructure more frequently and intensely and requires a watershed-wide understanding and approach. While the New York State Department of Environmental Conservation is currently preparing watershed-based flood mitigation plans for portions of the County under its Resilient NY program, other County areas continue to be impacted by flooding. This funding will allow the County to prepare plans that identify projects and strategies to reduce flooding and increase resiliency for the remainder of the County.

Following bonding authorization, preparation of the plans, including conceptual design of proposed projects will be scheduled and is anticipated to take a total of three years to complete for all remaining watersheds. Plans will be prepared individually for each remaining watershed by a qualified consultant.

The Department has advised your Committee that based on its review, BPL26 may be classified as a Type “II” action pursuant to the State Environmental Quality Review Act (“SEQR”) and its implementing regulations, 6 NYCRR Part 617. Therefore, no environmental review is required. Your Committee has reviewed the annexed SEQR documentation and concurs with this recommendation.

It should be noted that an affirmative vote of two-thirds of the members of your Honorable Board is required in order to adopt the Bond Act. Your Committee recommends the adoption of the proposed Bond Act.
