

**RESOLUTION 115 - 2025
(BOND) ACT 257 - 2025
ACT 258 - 2025**

Reference BPL26 (Unique ID# 2981)

**HONORABLE BOARD OF LEGISLATORS
THE COUNTY OF WESTCHESTER, NEW YORK**

Your Committee is in receipt of a transmittal from the County Executive recommending approval of a bond act ("Bond Act"), which, if adopted, would authorize the County of Westchester ("County") to issue up to \$2,000,000.00 in bonds of the County to finance a component of capital project BPL26 – Flood Mitigation ("BPL26"). Also attached is an act ("IMA Act") authorizing the County to enter into an intermunicipal agreement ("IMA") with the Town of Rye ("Town"), setting forth the terms of the flood mitigation project ("Project").

Your Committee is advised that the Bond Act, in the amount of \$2,000,000.00, is necessary to finance the County's share of the cost of the Project in the area of Rye Town Park, in the Town, ("Property") as part of the Storm Water Reconnaissance Plan for the Coastal Long Island Sound Basin ("Plan"), which was adopted by your Honorable Board by Act No. 134 2014 on August 4, 2014.

The Department of Planning ("Department") has advised that the Project will address significant recurring flooding on the Property as well as in the Property's immediate vicinity.

Design for the Project has been completed by a consultant retained by the Town. The Department estimates that the Project's construction phase will take no more than two years to complete and will begin after award and execution of the construction contracts, which are subject to the approval of construction financing by your Honorable Board.

Your Committee is further advised that the proposed IMA sets forth the responsibilities of the County and the Town in connection with the Project. Under the proposed IMA, the Town will grant the County a non-exclusive easement over the Property in order to facilitate the issuance of County bonds to finance the capital project's construction, and such easement shall encumber the Property for so long as the bonds of the County are outstanding. The Town shall construct, operate, maintain, repair, replace, inspect, or restore the Project. In accordance with the IMA, the County and the Town will each provide up to fifty percent of the total cost of the Project, which

is estimated to be \$3,800,000.00. The County will pay to the Town, on a reimbursement basis, an amount not to exceed \$1,900,000.00. Should the Project costs exceed the amount contributed by the County, the Town shall be solely responsible for any additional amount. Following construction, the Town will be responsible for the operation, maintenance, scheduling, and security of the Property and the Project at its expense. The term of the IMA will commence upon execution, and will continue for a period at least equal to the life of any County bonds issued to fund the Project, which is estimated to be thirty years.

In 2011, your Honorable Board enacted the Westchester County Storm Water Management Law ("SWML") to assist municipalities with storm water management (flood mitigation). See Laws of Westchester County ("LWC") Chapter 241, Article III-A, Sections 241.252-241.260. The SWML provides for the evaluation of flooding within the County through preparation of watershed "reconnaissance plans," and the SWML authorizes County cooperation with municipalities, including funding assistance, to improve storm water management and reduce flooding.

The Property is located within an area designated as a flood hazard area by the Federal Emergency Management Agency and shown on the flooding or storm water management maps included in the Plan. As such, the area meets the definition of "Flood or Storm Water Management Problem," pursuant to LWC Section 241.253(6), and is eligible for County funding as a "Storm Water Management Project," pursuant to LWC Section 241.256. Criteria for funding flood mitigation projects are also described in the Plan, including discretionary fund policy requirements to affirmatively further fair housing. The IMA requires the Town to adopt regulations and policies consistent with the flood mitigation criteria in the Plan for the Coastal Long Island Sound Watershed.

It should be noted that your Honorable Board has authorized the County to issue bonds in connection with previous components of BPL26 as indicated in the annexed fact sheet.

It should also be noted that since BPL26 is a "general fund" project, specific components are subject to a capital budget amendment. Section 1 of the Bond Act authorizes an amendment

to the County's capital budget to the extent the Project scope is inconsistent with any details set forth in the current capital budget. Accordingly, the Bond Act, in addition to authorizing the issuance of bonds for this Project, will also amend the current-year capital budget to reflect the specific location of this Project component.

Your Committee is advised that LWC Section 167.131 mandates that a capital budget amendment that introduces a new capital project or changes the location, size or character of an existing capital project be accompanied to the Board of Legislators by a report of the Westchester County Planning Board (the "Planning Board") with respect to the physical planning aspects of the project. Accordingly, the Planning Board report for BPL26 is annexed.

The Planning Department has advised your Committee that based on its review, the Project may be classified as an "Unlisted" action under the State Environmental Quality Review Act and its implementing regulations, 6 NYCRR Part 617 ("SEQR"). A Resolution, and Short Environmental Assessment Form ("EAF"), prepared by the Planning Department, are attached to assist your Honorable Board in complying with SEQR. For the reasons set forth in the attached EAF, your Committee believes that the proposed action will not have any significant adverse impact on the environment and recommends the adoption of the Resolution prior to enacting the aforementioned Bond Act.

Please note that an affirmative vote of two-thirds of the members of your Honorable Board is required in order to adopt the Bond Act, while a simple majority of the voting strength of your Honorable Board is required to adopt the IMA Act.

Based on the importance of this Project to the County, your Committee recommends favorable action on the annexed proposed Acts.

WHEREAS, this Honorable Board has determined that the proposed Project would constitute an action under Article 8 of the Environmental Conservation Law, known as the State Environmental Quality Review Act (“SEQR”); and

WHEREAS, pursuant to SEQR and its implementing regulations (6 NYCRR Part 617), this Project is classified as an “Unlisted” action, which requires this Honorable Board to make a determination as to whether the proposed action will have a significant impact on the environment; and

WHEREAS, the County is assuming the role of Lead Agency and conducting an uncoordinated review as permitted by SEQR; and

WHEREAS, in accordance with SEQR and its implementing regulations, a Short Environmental Assessment Form (“EAF”) has been prepared to assist this Honorable Board in its environmental assessment of this proposed action; and

WHEREAS, this Honorable Board has carefully considered the proposed action and has reviewed the attached EAF and the criteria set forth in Section 617.7 of the implementing regulations and has identified the relevant areas of environmental concern, as described in the attached EAF, to determine if this proposed action will have a significant adverse impact on the environment.

NOW, THEREFORE, be it resolved by the County Board of Legislators of the County of Westchester, State of New York, as follows:

RESOLVED, that based upon this Honorable Board's review of the EAF and the reasons set forth therein, this Board finds that there will be no significant adverse impact on the environment in connection with the Project; and be it further

Part 1 - Project Information. The applicant or project sponsor is responsible for the completion of Part 1. Responses become part of the application for approval or funding, are subject to public review, and may be subject to further verification. Complete Part 1 based on information currently available. If additional research or investigation would be needed to fully respond to any item, please answer as thoroughly as possible based on current information.

Complete all items in Part 1. You may also provide any additional information which you believe will be needed by or useful to the lead agency; attach additional pages as necessary to supplement any item.

Part 1 - Project and Sponsor Information			
Name of Action or Project: Rye Town Park Pond Drainage			
Project Location (describe, and attach a location map): 95 Dearborn Avenue, City of Rye, NY			
Brief Description of Proposed Action: Install new piping to divert stormwater from the Forest Avenue-Oakland Beach Avenue Intersection away from Rye Town Park pond. Stormwater from the City of Rye would no longer enter the pond thereby drastically reducing its load during storm events and limiting its tributary area to only surface runoff from the park. Additionally, modifications to the pond spillway and outlet channel area (to allow ponding) could effectively eliminate beach flooding from stormwater in storms as great as the 100-year event. The recommended project includes installing a new pipe from Forest Avenue through Rye Town Park and the park parking lot and out to Dearborn Avenue, then turning east down Dearborn Avenue and ultimately discharging directly into Long Island Sound at the end of Dearborn Avenue.

Part 2 - Impact Assessment

Part 2 is to be completed by the Lead Agency.

Answer all of the following questions in Part 2 using the information contained in Part 1 and other materials submitted by the project sponsor or otherwise available to the reviewer. When answering the questions the reviewer should be guided by the concept "Have my responses been reasonable considering the scale and context of the proposed action?"

1. Will the proposed action create a material conflict with an adopted land use plan or zoning regulations?	☒	☐
2. Will the proposed action result in a change in the use or intensity of use of land?	☒	☐
3. Will the proposed action impair the character or quality of the existing community?	☒	☐

10. Will the proposed action result in an increase in the potential for erosion, flooding or drainage problems?	☒	☐
11. Will the proposed action create a hazard to environmental resources or human health?	☒	☐

Short Environmental Assessment Form Part 3 Determination of Significance

For every question in Part 2 that was answered "moderate to large impact may occur", or if there is a need to explain why a particular element of the proposed action may or will not result in a significant adverse environmental impact, please complete Part 3. Part 3 should, in sufficient detail, identify the impact, including any measures or design elements that have been included by the project sponsor to avoid or reduce impacts. Part 3 should also explain how the lead agency determined that the impact may or will not be significant. Each potential impact should be assessed considering its setting, probability of occurring, duration, irreversibility, geographic scope and magnitude. Also consider the potential for short-term, long-term and cumulative impacts.

The project will not have significant adverse impact as it involves the installation of new stormwater infrastructure in previously disturbed areas. New stormwater infrastructure will divert stormwater from the Forest Avenue-Oakland Beach Avenue intersection away from Rye Town Park pond. As such, a proposed pipe will run through Rye Town Park and the park parking lot and out to Dearborn Avenue, then turning east down Dearborn Avenue and discharging directly into Long Island Sound. A water treatment device and velocity dissipator will be installed as part of the project. Installation of this pipe and associated equipment will require minor earthwork within open space areas of the park. Erosion and sediment controls will be employed in accordance with State standards to minimize impacts during construction. Affected areas will be restored for their continued use as open space within the park.

The Rye Town Park and Oakland Beach are listed on the National Register of Historic Places. However, the action will install new subsurface drainage infrastructure that is will not affect the historic character of the adjacent buildings, park or beach. No modifications are proposed to any buildings nor is any disturbance planned for the beach. As stated previously, all open space areas that are disturbed, will be mitigated to ensure their previous functions are maintained within the park.

The project is intended to reduce flooding in connection with storm water from the City of Rye. Proposed improvements will have the capacity to attenuate up to the 100-year frequency storm originating from surrounding community which is already heavily disturbed. Excess stormwater will be metered back into the Long Island Sound as temporary impoundment drain and return to their pre-storm state. The overall drainage pattern will not change.

The proposed action is also a regulated activity requiring a Coastal Erosion Management Permit from the NYSDEC. Development under the permit requires actions be undertaken in a manner that minimizes damage to property and natural protective features, natural resources, minimizes erosion and protect human life.

☐ Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action may result in one or more potentially large or significant adverse impacts and an environmental impact statement is required.

☒ Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action will not result in any significant adverse environmental impacts.

(a) such obligations are authorized for an object or purpose for which the County is not authorized to expend money, or

(b) the provisions of law which should be complied with at the date of the publication of this Act or a summary hereof, are not substantially complied with,

and an action, suit or proceeding contesting such validity, is commenced within twenty days after the date of such publication, or

RECITALS

WHEREAS, in response to serious flooding issues throughout Westchester County, in 2011 the County enacted the Westchester County Storm Water Management Law ("SWML") to assist municipalities with storm water management (flood mitigation). See Laws of Westchester County Chapter 241, Article III-A, Sections 241.252-241.260. The SWML provides for the evaluation of flooding within the County through preparation of watershed "reconnaissance plans", and the SWML authorizes County cooperation with municipalities, including funding assistance, to improve storm water management and reduce flooding. The SWML authorizes the creation of a Storm Water Advisory Board (the "SWAB") to assist County municipalities in addressing flooding; and

WHEREAS, the SWML enables the County to partner with County municipalities to provide funding for flood mitigation and/or flood damage reduction projects; and

WHEREAS, the SWML funding program is divided into "Phase I" funding and "Phase II" funding; and

WHEREAS, Phase I funding is up to fifty (50) percent toward the costs for the preparation of detailed design, specification and construction documents for flood mitigation and/or flood damage reduction projects; and

WHEREAS, Phase II funding is up to fifty (50) percent toward the costs for the implementation and construction of flood mitigation and/or flood damage reduction projects; and

WHEREAS, approval by the Board of Legislators for Phase I funding does not guarantee approval for Phase II funding; and

WHEREAS, the Municipality wishes to participate in the SWML funding program and has submitted an application to the County for Phase II financial assistance to address flooding problems within the Municipality; and

WHEREAS, a Storm Water Reconnaissance Plan has been prepared by the County departments of Planning and Public Works and Transportation pursuant to the SWML entitled the Stormwater Reconnaissance Plan for the Coastal Long Island Sound Watershed (the "Reconnaissance Plan"); and

WHEREAS, the Reconnaissance Plan was recommended by the SWAB to the County Executive and the Board of Legislators; and

WHEREAS, the Board of Legislators approved the Reconnaissance Plan on August 4th 2014 by Act No. 134 - 2014; and

WHEREAS, the area of flooding for which the Municipality wishes to participate in the SWML funding program is located within a Special Flood Hazard Area as defined by the Federal Emergency Management Agency and shown on the Flood Prone Areas Maps included in the Reconnaissance Plan; and

WHEREAS, pursuant to the SWML funding program and in an effort to protect County-owned and/or managed infrastructure, assets and property, including the protection of County bridges, sanitary sewer and/or storm water pipes, and County parkland and other municipal and private property, the County desires to contribute Phase II funding to the costs of a flood mitigation and/or flood damage reduction project known as the Rye Town Park (the "Project"), and further described herein, to be undertaken by the Municipality; and

WHEREAS, the Municipality has prepared designs, specifications and construction documents for the Project and the Project has been presented to and received support from the County Stormwater Advisory Board.

NOW, THEREFORE, in consideration of the mutual representations, covenants and agreements herein set forth, the County and the Municipality, each binding itself, its successors and assigns, do mutually promise, covenant and agree as follows:

ARTICLE I

TERM

Section 1.0. The recitals are hereby incorporated by reference into the body of this Agreement.

Section 1.1. The term of this Agreement shall be for a period commencing upon full execution thereof by both parties and approval of same by the Office of County Attorney, as evidenced by the date at the top of Page 1 of this Agreement, and shall continue for a period equal to or greater than the life of any bonds issued by the County to fund the County's portion of the Project.

ARTICLE II

TERMS OF PAYMENT, EASEMENT AND MUNICIPALITY REPRESENTATIONS

Section 2.0. Pursuant to the County's SWML funding program and in an effort to protect County-owned and/or managed infrastructure, assets and property, including the protection of County bridges, sanitary sewer and/or stormwater pipes, and County parkland and other municipal and private property, the County desires at this time to contribute Phase II funding toward construction costs of the Project, including any associated final designs and specifications. The Project is owned by the Municipality and consists of flood mitigation and/or flood damage reduction work. The scope of work for this Phase II funding agreement is more fully described in Schedule "A", attached hereto and made a part hereof. In consideration for the County's aforesaid contribution, the Municipality represents that it shall complete the design, specification, construction documents and construction of the Project in accordance with Schedule "A" and all of the other terms of this Agreement.

The County agrees to finance the design, specification, construction documents and construction for the Project on a reimbursement basis. It is recognized and understood by the Municipality that at the time of execution of this Agreement, the County has obtained appropriations and bonding authority to fund up to \$1,900,000.00 for the construction of the Project. The County share of the construction of the Project shall not exceed that amount. Eligible project construction costs up to \$3,800,000.00 shall be paid up to fifty (50) percent by the County (up to \$1,900,000.00) and fifty (50) percent by the Municipality; provided, however, should the total eligible project construction costs be less than \$3,800,000.00, the County shall only be responsible for fifty (50) percent of the lesser amount. The Municipality shall be responsible for all costs in relation to the Project that exceed the County's

contribution set forth herein, and under no circumstances or conditions, whether now existing or hereafter arising, or whether beyond the present contemplation of the parties, shall the County be expected or required to make any payment of any kind whatsoever or be under any other obligation or liability hereunder in connection with this Project except as herein expressly set forth.

The County does not provide or extend any warranty of fitness for a particular purpose or workmanship for any work undertaken in connection with, or paid under, this Agreement. Payment hereunder by the County shall operate as a release to the County from any and all obligations or liabilities in connection herewith to the Municipality, its contractor(s), or subcontractor(s) hereunder.

Section 2.1. The Municipality represents that within one (1) year of the date hereof that the "Flood Mitigation Criteria" developed by the SWAB and approved by the Board of Legislators will have been adopted in the Municipality's appropriate land use regulations, guidelines and policies or in stand-alone form, and documentation of the adoption of such policies must be provided to and approved by the Commissioner of the County Department of Planning ("Planning Commissioner"). It is understood and agreed to by the Municipality that the payment of County funds under this Agreement for the Project is contingent upon the Municipality's adoption of the aforesaid policies.

Section 2.2. The parties agree that all payments made by the County to the Municipality shall be on a reimbursement basis only. Any and all requests for payment to be made, including any request for partial payment upon completion of a portion of the Project, shall be submitted by the Municipality on properly executed payment vouchers of the County and paid only after approval by the Planning Commissioner and the Commissioner of the Westchester County Department of Public Works and Transportation ("DPWT Commissioner"). The Municipality agrees that it shall submit all documentation that the County may require to substantiate all requests for payment. All payment vouchers must be accompanied by a numbered invoice and must contain the invoice number where indicated. All invoices submitted during each calendar year shall utilize consecutive numbering and be non-repeating. In no event shall a *final* payment be made to the Municipality prior to completion of the Project and the approval of same by the Planning Commissioner and DPWT Commissioner. If at any time the Municipality shall neglect or fail to perform properly any of its obligations under this Agreement, the County shall have the right to withhold, in whole or in part, any payments otherwise due or to become due to the Municipality hereunder until such neglect or failure shall have been remedied to the reasonable satisfaction of the County.

Section 2.3. Prior to the construction of the Project, the Municipality agrees to convey to the County, its successors, and assigns a non-exclusive easement(s) (the "Easement(s)") in, upon, under and over that portion of the Municipality's property within which the Project is located (the "Property"), which Easement(s) shall be substantially in the form attached hereto and made a part hereof as Schedule "B". The Municipality shall be solely responsible for obtaining any and all easements on non-Municipally-owned property needed in connection with the carrying out of the Project and shall provide copies of said easements to the Planning Commissioner. Said easements shall name Westchester County as a Grantee solely for the purposes of carrying out the work needed to accomplish the Project and said easements shall be for a term equal to or greater than the life of any bonds issued by the County to fund the County's portion of the Project.

Section 2.4. The Municipality represents warrants and guarantees that:

(a) It is a municipal corporation duly organized, validly existing under the laws of the State of New York; the execution and performance of this Agreement by the Municipality has been duly authorized by its governing body; this Agreement, and any other documents required to be delivered by the Municipality when so delivered, will constitute the legal, valid and binding obligations of the Municipality in accordance with their respective terms; and the Municipality will deliver to the County at the time of execution of this Agreement a resolution adopted by its governing body authorizing the execution of this Agreement, and any other documents required to be delivered by the Municipality, including the aforesaid Easement;

(b) The person signing this Agreement on behalf of the Municipality has full authority to bind the Municipality to all of the terms and conditions of this Agreement pursuant to the resolution granting such authority by the Municipality's governing body, as noted above;

(c) It is financially and technically qualified to perform its obligations hereunder, including without limitation, full implementation of the Project; and

(d) The Municipality acknowledges that the County is acting in reliance on the above representations.

ARTICLE III
MANAGEMENT OF THE PROJECT

Section 3.0. The Municipality shall be responsible for all construction phases of the Project, including, but not limited to, any additional study or engineering necessary to fully comply with the requirements of the funding program, final engineering, specifications and designs, and all phases of construction and post-construction elements. The Municipality shall submit any required documentation, including additional engineering or progress reports, to the DPWT Commissioner or his duly authorized representative and to the Planning Commissioner or her duly authorized designee for review, and said design plans and specifications shall be mutually approved by all parties. The Municipality shall fully complete the project tasks as set forth in Schedule "A" and submit proof of such completion to the County for its review and approval on or before five (5) years from the date of the execution of this Agreement by all parties. Notwithstanding the foregoing, the parties may agree to a twelve (12) month extension of time for completion, subject to all necessary legal approvals for such extension of time. In the event that the Municipality fails to complete the scope of work set forth in Schedule "A" and submit proof of such completion to the County in a timely manner as set forth herein, including any twelve (12) month extension agreed to between the parties, it shall remit all funds disbursed hereunder to the County within thirty (30) days of receipt of written request from the County unless an extension of time for completion is mutually agreed to between the parties, subject to all necessary legal approvals for said extension of time.

Section 3.1. In connection with the Project, the Municipality shall obtain all required approvals and permits and promptly execute and comply with all statutes, ordinances, rules, orders, regulations, codes and requirements of the Federal, State, County and municipal governments of the County. The Municipality shall also comply with any and all sanitary rules and regulations of the State and County Health Departments and with the State Environmental Quality Review Act. The Municipality shall comply with the aforementioned statutes, ordinances, rules, orders, regulations, codes and requirements in its implementation of the Project including, but not limited to management, operation, maintenance and supervision of same.

ARTICLE IV
FAIR AND AFFORDABLE HOUSING CONDITIONS

Section 4.0. The Municipality hereby commits to the County that it is in compliance with the terms and conditions set forth in the County's Discretionary Funding Policy annexed hereto and forming a part hereof as Schedule "E" or has submitted documentation to the satisfaction of the County that the Municipality is not considered an eligible municipality under these requirements.

Section 4.1. As further consideration for the County's financial contribution toward the Project, the Municipality certifies that it has adopted municipal zoning code provisions and/or policies which reflect the guidance provided in the Model Ordinance Provisions and the Municipality is committed to affirmatively further fair housing, including a ban on local residency requirements and preferences and other selection preferences that do not affirmatively further fair housing, except to the extent provided in the Model Ordinance Provisions.

Section 4.2. The Municipality agrees to offer to the County a Right of First Refusal to retain and/or purchase any and all land acquired in rem to be used for housing that affirmatively furthers fair housing ("AFFH").

Section 4.3. The Municipality agrees to actively affirmatively further fair housing through its land use regulations and other affirmative measures to assist the development of affordable housing.

Section 4.4. The Municipality further agrees to market housing units that affirmatively further fair housing in accordance with Westchester County's Affirmative Fair Housing Marketing Plan throughout the period of affordability.

Section 4.5. Nothing in this Agreement is intended to affect the County's interest in the Project or release the Municipality from its obligations under the law with respect to affordable AFFH units.

Section 4.6. Should the Municipality fail to abide by any of the above conditions, the Municipality shall, upon thirty (30) days written notice by the County, refund any funds paid to the Municipality under this Agreement.

ARTICLE V
ACCOUNTING

Section 5.0. The Municipality shall cause accurate records and books of account to be maintained in which shall be entered all matters relating to this Agreement, including all liabilities thereof and all expenditures, and payments to any and all contractors or subcontractors involved in the Project. County's Discretionary Funding Policy attached hereto.

**WESTCHESTER COUNTY FAIR AND AFFORDABLE HOUSING
IMPLEMENTATION PLAN
August 9, 2010**

**Appendix D-2(ii): Discretionary Funding Allocation Policy
as approved January 10, 2012**

DISCRETIONARY FUNDING POLICY

In August 2009, Westchester County entered into a Stipulation and Order of Settlement and Dismissal in *US. ex rel. Anti-Discrimination Center of Metro New York v. Westchester County, New York* (the "Settlement Agreement"). Beginning on March 1, 2012, the grant of discretionary intermunicipal funding, including but not limited to County Open Space funds and CDBG funding, ("Discretionary Funding") to municipalities eligible under the Settlement Agreement ("Recipient Eligible Municipalities") shall be conditioned, as appropriate, upon the Recipient Eligible Municipality's commitment to affirmatively further fair housing within its borders. This policy does not apply to municipalities in Westchester County other than the Recipient Eligible Municipalities.

Each Recipient Eligible Municipality shall be required to commit to the County, in writing, that it is in compliance with the following terms and conditions in connection with its commitment to affirmatively further fair housing:

- (a) Recipient Eligible Municipality has adopted municipal zoning code provisions and/or policies which reflect the guidance provided in the Model Ordinance Provisions approved pursuant to the Settlement Agreement and demonstrate a commitment by the Recipient Eligible Municipality to affirmatively further fair housing, including a ban on local residency requirements and preferences and other selection preferences that do not affirmatively further fair housing, except to the extent provided in the Model Ordinance Provisions;
- (b) Recipient Eligible Municipality will offer the County a Right of First Refusal to retain and/or purchase any and all land acquired in rem to be used for housing that affirmatively furthers fair housing; and
- (c) Recipient Eligible Municipality will actively further implementation of the Settlement Agreement through its land use regulations and other affirmative measures to assist the development of affordable housing.

Such commitments by Recipient Eligible Municipality shall be stated in the funding agreement between the County and the Recipient Eligible Municipality.

The funding agreement will also provide that housing units that affirmatively further fair housing must be marketed in accordance with Westchester County's Affirmative Fair Housing Marketing Plan approved pursuant to the Settlement Agreement, throughout the period of affordability.

Applications for Discretionary Funding submitted by non-municipal entities will be reviewed to determine whether or not such entity is acting as an agent of a municipality for purposes of the project for which funding is sought. If such entity is deemed to be acting in the capacity of agent for a municipality, the application will be subject to a review of the agent-municipality's compliance with the policy of affirmatively furthering fair housing stated above. The determination as to whether an agency relationship exists will be based on the principles of law relating to agency relationships in New York State, and the fact that the non-municipal entity/applicant may be required by local municipal codes to obtain municipal approvals or abide by municipal processes for such approvals in connection with such application will not be determinative of the agency relationship. Westchester County will provide notice of all non-municipal applications for funding to the local municipality in which the funding is proposed to be spent.

The County's audit rights under any grant of or funding agreement for Discretionary Funding will extend to all documents, reports, and records which relate to the Recipient Eligible Municipality's commitment to affirmatively further fair housing as described herein. Should Recipient Eligible Municipality fail to abide by any of the above conditions, Recipient Eligible Municipality will be obliged, upon thirty (30) days written notice by the County to refund any Discretionary Funding paid to the Recipient Eligible Municipality.
