(BOND) ACT 23 - 2021

**HONORABLE BOARD OF LEGISLATORS
THE COUNTY OF WESTCHESTER, NEW YORK**

Your Committee is in receipt of a transmittal from the County Executive recommending approval of a bond act (the "Bond Act") in the total aggregate amount of \$6,100,000 to authorize the County of Westchester (the "County") to finance the following seven capital projects for 2021:

BCR61 – Parking Structure Infrastructure Improvements
RB04D – Park Avenue Viaduct Over Bronx River Parkway, Yonkers (BIN 3348850)
RB04E – Austin Avenue Bridge Over I-87, Yonkers (BIN 3368150)
RB04C – Lincoln Avenue Bridge Over Blind Brook, Rye Brook (BIN 3348490)
RB03Z – Pump House Road Over Peekskill Hollow Brook, Cortlandt (BIN 3348430)
BLR12 – Labs & Research Facility Rehabilitation and Upgrade
BPF40 – Michaelian Office Building Parking Garage Rehabilitation

Your Committee is advised that the Bond Act, prepared by the law firm of Hawkins, Delafield & Wood, would authorize the County to issue bonds in the total amount of \$6,100,000 to finance the cost of preparation of surveys, preliminary and detailed plans, specifications and estimates necessary for planning the construction of various capital improvements in and for the County, including:

- (i) the Department of Corrections parking structure infrastructure,
- (ii) the rehabilitation of the concrete arch and abutments, waterproofing of the concrete arch, installing new pavement and sidewalks, and associated work of the Park Avenue viaduct over the Bronx River Parkway,
- (iii) the rehabilitation of the existing structure including replacement of the deck joints, bearing pads, concrete deck, painting of the existing steel members, reconstruction of the abutment walls and associated work of the Austin Avenue Bridge over I-87 in Yonkers,
- (iv) the rehabilitation of the existing structure including replacement of the concrete deck, painting of all existing steel members and associated work of the Lincoln Avenue Bridge over Blind Brook,
- (v) the removal and replacement of the existing asphalt wearing surface and waterproofing, structural deck rehabilitation, new elastomeric concrete joint system, new elastomeric bearings,

rehabilitation of undermined footing areas and concrete wingwalls, railing system to be strengthened, as necessary, and associated work and work in the stream channel will include cofferdams, new rip-rap and rehabilitation of scour locations for Pump House Road over Peekskill Hollow Brook,

(vi) possible additions and renovation strategy for the existing Labs & Research facility, and

(vii) the phase-one restoration of the Michaelian Office Building Parking Garage including rehabilitation of the concrete columns and beams, replacement of the ramps including new waterproofing, replacement of the existing fire alarm system, ventilation system, carbon monoxide detection system, rehabilitation of the electrical vault on levels B2 and B3, replacement of the existing expansion joint on both sides of Martin Luther King, Jr. Boulevard and associated plaza restoration, replacement of the existing lighting with new LED fixtures in the affected work areas, replacement of any plumbing and drainage piping as required, installation of an iDAS telecommunications system, and associated work.

The Department of Public Works and Transportation (“Department”) has advised that the two parking garages have deteriorated and the proposed work is required to maintain their structural integrity.

The Department has further advised that the New York State Department of Transportation issues a bridge condition rating to all bridges in New York State. This rating system, using a scale of 1 (“hazardous”) through 7 (“new”), is a weighted average of the condition of an evaluated bridge. A rating below 5 indicates that a bridge requires work and delay of this work could result in the continued deterioration of the bridge.

The Department has also advised that the anticipated cost estimates, Bridge Condition Rating or Pavement Condition Index rating, Annual Average Daily Traffic count, anticipated project timeline, and whether the design is anticipated to be undertaken in-house or by consultants for each capital project is set forth below.

Total Request: \$6,100,000

Your Committee is advised that in a departure from the County's past practice, the County Budget Department is submitting this Bond Act to your Honorable Board simultaneously with the proposed 2021 Capital Budget. It is the County's goal to submit this Bond Act now so that the referenced projects will be ready to proceed without delay in early 2021. In addition, please note that the proposed Bond Act authorizes financing for like objects or purposes in connection

with multiple capital projects. It is hoped that by combining projects that have the same objects and purposes into a single bond act, the County can dramatically reduce the amount of bond legislation that your Honorable Board would be required to review, thereby expediting the approval process and avoiding backlogs.

The Planning Department has advised your Committee that based on its review, the above-referenced capital project has been classified as a Type "II" action pursuant to the State Environmental Quality Review Act ("SEQR") and its implementing regulations, 6 NYCRR Part 617. Therefore, no further environmental review is required. Your Committee has reviewed the annexed SEQR documentation and concurs with this conclusion.

It should be noted that an affirmative vote of two-thirds of the members of your Honorable Board is required in order to adopt the Bond Act. Your Committee recommends the adoption of the proposed Bond Act.
