Westchester County Board of Legislators
800 Michaelian Office Building
White Plains, New York 10601

Dear Members of the Board of Legislators:

Transmitted herewith for your review and approval is a bond act ("Bond Act") which, if adopted, would authorize the County of Westchester ("County") to issue bonds in the amount of \$200,000 to finance the following capital project:

B0132 – Photovoltaic (PV) Systems ("B0132").

The Bond Act, in the amount of \$200,000 would finance the cost of a study to evaluate locations for installation of potential photovoltaic (PV) systems at County buildings, parking areas, and grounds to supply electricity for County operations. Photovoltaic (PV) systems are a renewable energy resource used to generate electricity without relying on fossil fuels. The use of these systems will enable the County to migrate away from fossil fuels while providing an economic benefit.

The Department of Public Works and Transportation ("Department") has advised that the first phase of the project will evaluate locations for PV systems considering solar potential, ease of installation and cost. A plan for the installation of the PV systems will be developed based on the results of the evaluations and programmed as future phases of this capital project. The Department will then explore grant funding from federal and state agencies.

Following bonding authorization, the study will be scheduled and is anticipated to take nine (9) months to complete and will be performed by a consultant.

Based on the importance of this project to the County, favorable action on the proposed Bond Act is respectfully requested.

Sincerely,

A handwritten signature in black ink, appearing to be "K. W. Jenkins", written over a printed name and title.

Westchester County Executive

**HONORABLE BOARD OF LEGISLATORS
THE COUNTY OF WESTCHESTER, NEW YORK**

Your Committee is in receipt of a transmittal from the County Executive recommending approval by the County of Westchester (“County”) of a bond act (“Bond Act”) in the amount of \$200,000 to finance capital project B0132 – Photovoltaic (PV) Systems (“B0132”). The Bond Act, which was prepared by the law firm Harris Beach Murtha, will finance the cost of a study to evaluate locations for installation of potential photovoltaic (PV) systems at County buildings, parking areas, and grounds to supply electricity for County operations. Photovoltaic (PV) systems are a renewable energy resource used to generate electricity without relying on fossil fuels. The use of these systems will enable the County to migrate away from fossil fuels while providing an economic benefit.

The Department of Public Works and Transportation (“Department”) has advised that the first phase of the project will evaluate locations for PV systems considering solar potential, ease of installation and cost. A plan for the installation of the PV systems will be developed based on the results of the evaluations and programmed as future phases of this capital project. The Department will then explore grant funding from federal and state agencies.

Following bonding authorization, the study will be scheduled and is anticipated to take nine (9) months to complete and will be performed by a consultant.

The Department of Planning has advised your Committee that based on its review, the authorization of the proposed capital project may be classified as a Type “II” action pursuant to the State Environmental Quality Review Act and its implementing regulations, 6 NYCRR Part 617 (“SEQR”). Therefore, no environmental review is required. Your Committee has reviewed the annexed SEQR documentation and concurs with this recommendation.

It should be noted that an affirmative vote of two-thirds of the members of your Honorable Board is required in order to adopt the Bond Act. Your Committee recommends the adoption of the proposed Bond Act.
