Westchester County Board of Legislators
800 Michaelian Office Building
White Plains, New York 10601

Dear Members of the Board of Legislators:

Transmitted herewith for your review and approval is a bond act ("Bond Act") which, if adopted, would authorize the County of Westchester ("County") to issue bonds in the amount of \$550,000 to finance the following capital project:

A0099 – Airport Natural Gas Pipeline ("A0099").

The Bond Act, in the amount of \$550,000 would finance the cost of design of the installation of a new gas main extension at the Westchester County Airport, including all associated site work.

The Department of Public Works and Transportation ("Department") has advised that a natural gas pipeline is currently located at the southern boundary of the airport. The establishment of this utility service to various hangars and buildings will provide increased energy efficiency and the elimination of selected underground fuel storage tanks.

Following bonding authorization, design will be scheduled and is anticipated to take twelve months to complete. It is anticipated that the design work will be completed by consultants. It is estimated that construction will take twenty-four months to complete and will begin after award and execution of the construction contracts.

The Planning Department has advised that based on its review, the above-referenced capital project has been classified as a "Type II" action pursuant to the State Environmental Quality Review Act ("SEQR") and its implementing regulations, 6 NYCRR Part 617. Therefore, no further environmental review is required. As you know, your Honorable Board may use such expert advice to reach its own conclusion.

Based on the importance of this project to the County, favorable action on the proposed Bond Act is respectfully requested.

Sincerely,

George Latimer
County Executive
