### HONORABLE BOARD OF LEGISLATORS THE COUNTY OF WESTCHESTER, NEW YORK

Your Committee is in receipt of a transmittal from the County Executive recommending approval by the County of Westchester ("County") of a bond act ("Bond Act") in the amount of \$1,500,000 to finance capital project SPK12 – Peekskill Wastewater Treatment Plant Mechanical Sludge Handling Upgrades ("SPK12"). The Bond Act, which was prepared by the law firm Norton Rose Fulbright, will finance the costs of design and construction management for the replacement of plant components not related to odor control at the Peekskill Water Resource Recovery Facility, including the replacement of all sludge collection mechanisms in primary and final tanks, underground PVC overhead piping and valves, sludge chopper pumps and primary and final tank grease skimmers, as well as incidental expenses.

The Department of Environmental Facilities ("Department") has advised that primary sludge pump components have recently been experiencing failures, requiring costly interim repairs. The primary sludge pumps and associated controls have reached the end of their useful lives and replacement is necessary to ensure process reliability and environmentally compliant operation.

It is anticipated that the design work will be completed by a consultant. Following bonding authorization, design will be scheduled and is anticipated to take twelve months to complete. It is estimated that construction will take twenty-four months to complete and will begin after award and execution of the construction contracts.

The Planning Department has advised your Committee that based on its review, SPK12 may be classified as a Type "II" action pursuant to the State Environmental Quality Review Act ("SEQR") and its implementing regulations, 6 NYCRR Part 617. Therefore, no environmental review is required. Your Committee has reviewed the annexed SEQR documentation and concurs with this recommendation.

It should be noted that an affirmative vote of two-thirds of the members of your Honorable Board is required in order to adopt the Bond Act. Your Committee recommends the adoption of the proposed Bond Act.

PROJECT/ACTION: Per Capital Project Fact Sheet as approved by the Planning Department on

04/10/2025 (Unique ID: 2911)

With respect to the State Environmental Quality Review Act and its implementing regulations 6 NYCRR Part 617, the Planning Department recommends that no environmental review is required for the proposed action, because the project or component of the project for which funding is requested may be classified as a TYPE II action pursuant to section(s):

617.5(c)(27): conducting concurrent environmental, engineering, economic, feasibility and other studies and preliminary planning and budgetary processes necessary to the formulation of a proposal for action, provided those activities do not commit the agency to commence, engage in or approve such action.

**COMMENTS:** The current request is for design and construction management. However, funds for construction management will not be expended unless funding for construction is approved, which will be subject to further environmental review as may be required by SEQR.

BE IT ENACTED, by the Board of Legislators of the County of Westchester, New York (the "County"), by the affirmative vote of not less than two thirds of the entire voting strength thereof, as follows:

Section 1. For paying the design and construction management costs for the replacement of plant components not related to odor control at the Peekskill Water Resource Recovery Facility, in and for said County, including the replacement of all sludge collection mechanisms in primary and final tanks, underground PVC overhead piping and valves, sludge chopper pumps and primary and final tank grease skimmers, incidental expenses in connection with such project, a class of objects or purposes, there are hereby authorized to be issued \$1,500,000

An annual appropriation shall be made in each year sufficient to pay the principal of and interest on such obligations becoming due and payable in such year. To the extent not paid from the assessment of properties assessable for this purpose in the County's Peekskill Sanitary Sewer District, or other sources, there shall annually be levied on all the taxable real property of said County a tax sufficient to pay the principal of and interest on such obligations, as the same become due and payable.

Section 6. Such bonds shall be in fully registered form and shall be signed in the name of the County by the manual or facsimile signature of the Commissioner of Finance and a facsimile

The Commissioner of Finance is hereby authorized to enter into such agreements as said Commissioner of Finance shall determine reasonable and necessary to facilitate the issuance, sale, resale and, or repurchase of such bonds or notes pursuant to the provisions of Section 54.90 of the Local Finance Law. Such bonds and, or notes shall be of such terms, form and contents, and shall be sold in such manner, as may be prescribed by said Commissioner of Finance.

Section 9. The power to issue and sell notes to the New York State Environmental Facilities Corporation pursuant to Section 169.00 of the Local Finance Law is hereby delegated to the Commissioner of Finance. Such notes shall be of such terms, form and contents as may be prescribed by said Commissioner of Finance consistent with the provisions of the Local Finance Law.

Section 11. The intent of this Bond Act is to give the Commissioner of Finance sufficient authority to execute those applications, agreements, instruments or to do any similar acts necessary to effect the issuance of the aforesaid bonds and, or notes without resorting to further action of this Board of Legislators.

Section 12.
