9:30 AM

Committee Room

CALL TO ORDER

Joint with the Committee on Budget & Appropriations

Please note: Meetings of the Board of Legislators and its committees are held at the Michaelian Office Building, 148 Martine Avenue, White Plains, New York, 10601, and remotely via the WebEx video conferencing system. Legislators may participate in person or via Webex. Members of the public may attend meetings in person at any of its locations, or view it online on the Westchester County Legislature's website: <https://westchestercountyny.legistar.com/> This website also provides links to materials for all matters to be discussed at a given meeting. *With a quorum present, Chair Pierce called the meeting to order at 10:11AM.*

Others in Attendance: DEF: Vincent Kopicki (remote); DPW: April Gasparri (remote), Francisco Tejada (remote) and Christopher Prashad; BOL: Legislator Jewel Williams Johnson, Legislator Judah Holstein, Legislator Colin Smith (remote), Legislator Catherine Parker (remote), Gregory Casciato (remote), Lisa Hochman (remote), Jill Axelrod and James Silverberg

Present: Legislator Pierce, Legislator Barr, Legislator Williams, Legislator Williams Johnson, Legislator Woodson-Samuels and Gashi

MINUTES APPROVAL

I. ITEMS FOR DISCUSSION

1. [ACT-2024-16](#) **BOND ACT-SBB16-Blind Brook WRRF Effluent Forcemain**

A BOND ACT authorizing the issuance of THREE MILLION (\$3,000,000) DOLLARS in bonds of Westchester County to finance Capital Project SBB16 - Blind Brook WRRF Effluent Forcemain.

SUBMITTED BY: COMMITTEES ON BUDGET & APPROPRIATIONS AND PUBLIC WORKS & TRANSPORTATION

Guests: DEF: Commissioner Vincent Kopicki and Deputy Commissioner Nat Federici

This Bond Act is for the investigation, design and construction management for repair or replacement of the pipeline. Some of the issues seen include a blockage and a crack in the pipe which was repaired with an emergency contract in 2023. Water discharged into the Sound from this pipe is fully treated and clean water. Passing this item would help avoid future issues. Storm water is discharged by the municipality and if it falls into the facility then it is

discharged through the storm water line. The Blind Brook plant is not a combined sewer system plant as in other areas.

On motion of Legislator Woodson-Samuels, seconded by Legislator Barr, the above item was signed by committee and referred to Board of Legislators. The motion carried by the following vote:

Aye: Legislator Pierce, Legislator Barr, Legislator Williams, Legislator Williams Johnson, Legislator Woodson-Samuels and Gashi

2. [ACT-2024-17](#) **BOND ACT-SW034-Heavy Equipment and Vehicle Replacement**

A BOND ACT authorizing the issuance of EIGHT HUNDRED THOUSAND (\$800,000) DOLLARS in bonds of Westchester County to finance Capital Project SW034 - Heavy Equipment and Vehicle Replacement.

SUBMITTED BY: COMMITTEES ON BUDGET & APPROPRIATIONS AND PUBLIC WORKS & TRANSPORTATION

Guests: DEF: Commissioner Vincent Kopicki and Deputy Commissioner Nat Federici

This Bond Act is an ongoing replacement or purchase of new heavy equipment. They are looking to purchase two trailer mounted mobile generators, which can be used in emergency conditions where either there is no fixed generator present, or as a back up to an existing fixed generator. Increasing weather related outages that have created the need for this purchase.

On motion of Legislator Woodson-Samuels, seconded by Legislator Barr, the above item was signed by committee and referred to Board of Legislators. The motion carried by the following vote:

Aye: Legislator Pierce, Legislator Barr, Legislator Williams, Legislator Williams Johnson, Legislator Woodson-Samuels and Gashi

3. [ACT-2024-12](#) **BOND ACT-A0139-Fuel Farm Improvements**

A BOND ACT authorizing the issuance of EIGHT HUNDRED FIFTY THOUSAND (\$850,000) DOLLARS in bonds of Westchester County to finance Capital Project A0139 - Fuel Farm Improvements.

SUBMITTED BY: COMMITTEES ON BUDGET & APPROPRIATIONS AND PUBLIC WORKS & TRANSPORTATION

Guests: DPW: April Gasparri, Airport Manager; Francisco Tejada, Deputy Airport Manager; and Brian Hegt, Assistant to the Commissioner

This operational enhancement project request of \$850,000 is to replace the current infrastructure as it is aging and replacing it now will allow for continuity in operations. In 2023 the airport dispensed over 43 million gallons of jet A fuel and this project will allow for timely efficiency in delivering the fuel. Currently there is only one pump fueling and this project will serve as a back up to the current system. The lifespan is expected to be about the same, over 30 years. Designing will be in-house and construction will be placed for bidding.

On motion of Legislator Woodson-Samuels, seconded by Legislator Barr, the above item was signed by committee and referred to Board of Legislators. The motion carried by the following

vote:

Aye: Legislator Pierce, Legislator Barr, Legislator Williams, Legislator Williams Johnson, Legislator Woodson-Samuels and Gashi

4. [ACT-2024-13](#) **BOND ACT-A0142-U.S. Customs and Border Protection Fac. and West Side Deicing Ramp**

A BOND ACT authorizing the issuance of TWO MILLION, ONE HUNDRED THOUSAND (\$2,100,000) DOLLARS in bonds of Westchester County to finance Capital Project A0142 - U.S. Customs and Border Protection Facility and West Side Deicing Ramp.

SUBMITTED BY: COMMITTEES ON BUDGET & APPROPRIATIONS AND PUBLIC WORKS & TRANSPORTATION

Guests: DPW: April Gasparri, Airport Manager; Francisco Tejada, Deputy Airport Manager; and Brian Hegt, Assistant to the Commissioner

The request of \$2,100,000 is the estimation for the entire project. This project passed the Type II SEQRA and also required a map change of their FAA airport layout plan as it triggers a national environmental analysis. In 2016 the United States Customs and Border Protection (CBP) requested from the County an independent facility including equipment and processing tools up to their current standards. This facility will bring the standard to federal regulations. Since this is a new building, they have a goal to make it as energy efficient as possible. The screening process at this facility is for general aviation passengers and flight crews crossing the international border inbound and plays a role for those heading outbound, not for commercial airlines. This project will also create a common-use deicing collection pad will be for general aviation on the west side, which currently does not have access to this important environmental resource. Currently about eight percent of the airport's deicing fluid – all from the aircraft on the west side of the airport - goes directly into the sewers.

On motion of Legislator Woodson-Samuels, seconded by Legislator Williams, the above item was signed by committee and referred to Board of Legislators. The motion carried by the following vote:

Aye: Legislator Pierce, Legislator Barr, Legislator Williams, Legislator Williams Johnson, Legislator Woodson-Samuels and Gashi

5. [ACT-2024-14](#) **BOND ACT-A0147-Terminal Systems Infrastructure**

A BOND ACT authorizing the issuance of FIVE MILLION, THREE HUNDRED THOUSAND (\$5,300,000) DOLLARS in bonds of Westchester County to finance Capital Project A0147 - Terminal Systems Infrastructure.

SUBMITTED BY: COMMITTEES ON BUDGET & APPROPRIATIONS AND PUBLIC WORKS & TRANSPORTATION

Guests: DPW: April Gasparri, Airport Manager; Francisco Tejada, Deputy Airport Manager; and Brian Hegt, Assistant to the Commissioner

This is a two-part project of \$5.3 million addressing the baggage handling (\$2.17 million) and the addition of a back-up generator (\$3.125 million). Baggage handling refers to commercial passengers' checked luggage and with the current system in place, there have been either delays in baggage arrivals for passengers and/or they travel on different flights. Funding for

this project will improve baggage screening functionality as well as upgrading the electronic systems to function more efficiently. At this moment there is one back-up generator is undersized and shared with the parking garage. Although it is still in working condition, during an outage it does not give power to everything that is needed and in turn negatively affects passengers. The new generator will be able to provide all of the energy needed for a smooth transition.

On motion of Legislator Woodson-Samuels, seconded by Legislator Williams, the above item was signed by committee and referred to Board of Legislators. The motion carried by the following vote:

Aye: Legislator Pierce, Legislator Barr, Legislator Williams, Legislator Williams
Johnson, Legislator Woodson-Samuels and Gashi

II. OTHER BUSINESS

III. RECEIVE & FILE

ADJOURNMENT

Moved by Legislator Woodson-Samuels, seconded by Legislator Barr, the Committee adjourned at 11:09am.
