Westchester County Board of Legislators  
800 Michaelian Office Building  
White Plains, New York 10601

Dear Honorable Members of the Board of Legislators:

Transmitted herewith for your review and approval is a bond act (the "Bond Act") which, if adopted by your Honorable Board, would authorize the County of Westchester (the "County") to issue up to Two Hundred Thousand (\$200,000.00) Dollars in bonds of the County to finance a component of capital project BLA1A - Parkland and Historical Preservation Program ("BLA1A").

The Bond Act, in the amount of Two Hundred Thousand (\$200,000.00) Dollars, would fund design associated with the rehabilitation of Habirshaw County Park in the City of Yonkers, a component of Hudson RiverWalk. Improvements to the Park will include surface and site furniture replacements, landscaping and drainage improvements. This project is being funded through the Westchester Legacy Program.

Following bonding authorization, design will be scheduled and is anticipated to take six (6) months to complete and will be performed by in-house staff. Construction is estimated to take six (6) months and will begin after award and execution of the construction contracts, subject to your Honorable Board's approval of construction funding.

As your Honorable Board is aware, the Westchester Legacy Program is a County initiative to acquire, protect and enhance open space lands in Westchester County. To date, the Legacy Program is credited with preserving over 2,000 acres of open space in Westchester County. The acquired properties include linear parks, urban parks, active recreation facilities as well as large tracts of open space forever preserved in their natural state.

The Legacy Program was established to aggressively pursue land acquisition with three major priorities: 1) to preserve green space, protect our county's natural habitats and protect rivers, streams and lakes and to provide passive recreation areas; 2) to purchase park land for active recreation such as baseball and soccer fields, trailways and bike paths; and 3) to acquire land for historic preservation and protection of our cultural heritage.

The Planning Department has advised that based on its review, the above referenced capital project may be classified as a "Type II" action pursuant to the State Environmental Quality Review Act ("SEQR") and its implementing regulations, 6 NYCRR Part 617. Therefore, no environmental review is required. As you know, your Honorable Board may use such expert advice to reach its own conclusion.

It should be noted that since BLA1A is a “general fund” project, specific components are subject to a Capital Budget Amendment. Section 1 of the Bond Act authorizes an amendment to the County’s Capital Budget to the extent the project scope is inconsistent with any details set forth in the current Capital Budget. Accordingly, the Bond Act, in addition to authorizing the issuance of bonds for this project, will also amend the 2023 Capital Budget to reflect the specific location of this project component.

In addition, section 167.131 of the County Charter mandates that a capital budget amendment that introduces a new capital project or changes the location, size or character of an existing capital project be accompanied to the Board of Legislators by a report of the Westchester County Planning Board (the “Planning Board”) with respect to the physical planning aspects of the project. Accordingly, the Planning Board Report for BPL26 is annexed.

Based upon the foregoing, I recommend the adoption of the aforementioned Bond Act.

Sincerely,

A handwritten signature in dark ink, appearing to read "George Latimer", written in a cursive style.

**THE HONORABLE BOARD OF LEGISLATORS  
THE COUNTY OF WESTCHESTER**

Your Committee is in receipt of a transmittal from the County Executive recommending approval of a bond act (the “Bond Act”), which if adopted, would authorize the County of Westchester (the “County”) to issue up to \$200,000.00 in bonds to finance a component of capital project BLA1A - Parkland and Historical Preservation Program (“BLA1A”).

Your Committee is advised that the Bond Act, prepared by the law firm of Hawkins Delafield & Wood LLP, would fund design associated with the rehabilitation of Habirshaw County Park in the City of Yonkers, a component of Hudson RiverWalk. Improvements to the Park will include surface and site furniture replacements, landscaping and drainage improvements. This project is being funded through the Westchester Legacy Program.

Following bonding authorization, design will be scheduled and is anticipated to take six (6) months to complete and will be performed by in-house staff. Construction is estimated to take six (6) months and will begin after award and execution of the construction contracts, subject to your Honorable Board’s approval of construction funding.

As your Honorable Board is aware, the Westchester Legacy Program is a County initiative to acquire, protect and enhance open space lands in Westchester County. To date, the Legacy Program is credited with preserving over 2,000 acres of open space in Westchester County. The acquired properties include linear parks, urban parks, active recreation facilities as well as large tracts of open space forever preserved in their natural state.

The Legacy Program was established to aggressively pursue land acquisition with three major priorities: 1) to preserve green space, protect our county’s natural habitats and protect rivers, streams and lakes and to provide passive recreation areas; 2) to purchase park land for active recreation such as baseball and soccer fields, trailways and bike paths; and 3) to acquire land for historic preservation and protection of our cultural heritage.

The Planning Department has advised your Committee that based on its review, the above referenced capital project may be classified as a Type “II” action pursuant to the State Environmental Quality Review Act (“SEQR”) and its implementing regulations, 6 NYCRR Part 617. Therefore, no environmental review is required. Your Committee has reviewed the annexed SEQRA documentation and concurs with this recommendation.

Your Committee is further advised that since BLA1A is a “general fund” project, specific components are subject to a Capital Budget Amendment. Section 1 of the Bond Act authorizes an amendment to the County’s Capital Budget to the extent the project scope is inconsistent with any details set forth in the current Capital Budget. Accordingly, the Bond Act, in addition to authorizing the issuance of bonds for this project, will also amend the 2021 Capital Budget to reflect the specific location of this project component.

In addition, section 167.131 of the County Charter mandates that a capital budget amendment that introduces a new capital project or changes the location, size or character of an existing capital project be accompanied to the Board of Legislators by a report of the Westchester County Planning Board (the “Planning Board”) with respect to the physical planning aspects of the project. Accordingly, the Planning Board Report for BLA1A is annexed.

Please note that an affirmative vote of two-thirds of the members of your Honorable Board is required in order to adopt the Bond Act.

Based on the importance of this project to the County, your Committee recommends favorable action on the annexed Bond Act.

### FIVE YEAR CAPITAL PROGRAM (in thousands)

	Ultimate	Approp-						Under
	Total Cost	riated	2023	2024	2025	2026	2027	Review
								5,000
Gross	28,300	23,300						
Less non-County Shares								
Net	28,300	23,300						5,000

### Project Description:

This project continues Capital Project BLA01 Parkland Acquisition/Westchester Legacy Program. The Legacy Program is designed to aggressively pursue land acquisition for three major objectives:

1. Purchase parkland for active recreation such as baseball and soccer fields, trailways, and bike paths.
2. Preserve green space, protect natural habitats and protect rivers, streams, and lakes.
3. Preserve land for historic preservation and protection of our cultural landscape.

The 2023 capital budget amendment (CBA) is to add a specific site to this general fund program. The funding in 2023 will be for the design of park improvements to the County owned Habirshaw Park in the City of Yonkers. The funding for the design of Habirshaw County Park improvements in 2023 will utilize funds from the existing 2020 appropriations.

### APPROPRIATION/FUNDING REQUESTS:

2020: Funding for acquisition of properties for parkland and historic preservation (\$1,000,000)  
 2021: Creation of a new park in Ludlow Park, Yonkers (\$10,000,000); 4<sup>th</sup> Street Playground, Mt. Vernon (\$2,000,000); RiverWalk Improvements, Yonkers (\$5,000,000)  
 2022: Funding for environmental reviews for the design and construction of RiverWalk trail connections in Tarrytown (\$1,300,000)  
 2023: Funding for a True Linear RiverWalk Park in Yonkers (\$5,000,000) and Flint Park Turf Field, Larchmont (\$1,000,000), Habirshaw County Park (2020 appropriations)  
 Under Review: Additional funding for parkland preservation

**JUSTIFICATION:** Under the predecessor project, BLA01, funding at varying amounts was leveraged with funding from the state and local governments or private sources and was intended to enable the County to play a very meaningful role in open space preservation and to take advantage of opportunities to purchase or otherwise protect critical resources.

The Westchester County park and open space system has contributed greatly to the quality of life in the County. Municipal officials and residents throughout Westchester have indicated that open space preservation remains a top priority. The acquisition and protection of lands for environmental protection helps to build on this legacy. The County has played an important role in expanding opportunities for active recreation; traditionally it was municipalities and school districts that developed athletic fields.

The 1999 Open Space Policies were adopted by both the Planning and Parks Boards. These policies have goals for a continued County park and open space acquisition program that includes:

1. Provision of opportunities for active and passive recreation, with emphasis on locations close to concentrations of the County's population;
2. Establishment of a series of open space linkages to provide a connected system of parklands;

3. Preservation of significant amounts of the Hudson River waterfront;
4. Protection of environmentally significant properties; and
5. Preservation of properties considered to be of historic significance.

**CONSISTENCY WITH PROGRAMS OR PLANS:** The project is consistent with the policies of *Westchester 2025*, the County's long-range land use policies, and the 1999 Open Space Policies in that it supports open space preservation, provides opportunities for active and passive recreation, promotes open space linkages, preserves environmentally significant properties and helps preserve properties considered to be of historic significance.

**Planning Board Analysis:**

**PL2:** The Planning Board supports this project to improve parkland in the densely populated City of Yonkers. The Planning Board supports projects with the goal to keep park facilities in a well-maintained state. Performing physical improvements on a priority basis reflects a comprehensive approach to undertaking capital improvements. The scope of work should be compatible with the original design intent of the park's elements and should be consistent with the character of the park's landscaping and site features.

As per Westchester County policy, stormwater management must be addressed with every capital project. Designs should comply with the NYS Stormwater Management Design Manual and the NYS Standards and Specifications for Erosion and Sediment Control.
