

**THE HONORABLE BOARD OF LEGISLATORS  
THE COUNTY OF WESTCHESTER**

**DRAFT  
IMA ON FILE**

Your Committee is in receipt of a transmittal from the County Executive recommending approval of the following in connection with capital project RHW01 – Hillside Woods Restoration:

- 1) A Bond Act (“Bond Act”) to finance capital project RHW01; and
- 2) An Act to authorize an IMA with the Village of Hastings-on-Hudson (the “Village”) for the purpose of implementing capital project RHW01 (the “Act”).

Your Committee is advised that in 1993 the County of Westchester (the “County”) and the Village entered into an agreement (the “1993 Agreement”) to simultaneously purchase an undivided interest in Hillside Woods, an approximately 52 acre woodland in the Village, for the purpose of establishing the Hillside Woods and Park (hereinafter the “Park”). Pursuant to the terms of the 1993 Agreement, the Village agreed to assume full responsibility for the administration and management of the Park. Due to an overpopulation of deer, competing invasive plants, and poor light conditions on the forest floor, the Park is in a severely deteriorated condition. Both the Village and the County now seek to undertake an Urban Forestry Management Project to restore and regenerate the Park back to its natural condition (the “Project”). The Project will consist of, among other things, tree and invasive plant removal; tree and shrub replanting; and installation of deer fencing.

The Bond Act, prepared by the law firm of Hawkins Delafield & Wood LLP, would authorize the County to issue \$100,000.00 in bonds to finance the funding for the Project.

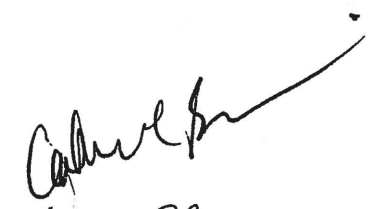

The Act would authorize the County to enter into an IMA with the Village. The IMA, a copy of which is attached, will set forth the responsibilities of the County and the Village in connection with the implementation of the Project. In accordance with the IMA, the Village will perform the work necessary to complete the Project. The County will pay to the Village, on a cost reimbursement basis, an amount not to exceed One Hundred Thousand (\$100,000.00) Dollars for the work.

The Planning Department has advised that, based on its review, this project falls within the definition of an "Unlisted" Action under Article 8 of SEQRA and its implementing regulations, 6 NYCRR Part 617, which requires an assessment of environmental impacts. Your Committee has carefully considered the proposed legislation. It has reviewed the attached Short Environmental Assessment Form ("EAF") and the criteria contained in Section 617.7 of the SEQRA regulations, to identify the relevant areas of environmental concern. For the reasons set forth in the attached EAF, your Committee believes that the proposed action will not have any significant adverse impact on the environment and urges your Honorable Board to adopt the annexed resolution by which this Board would issue a Negative Declaration for this proposed action.

Please note that an affirmative vote of two-thirds of the members of your Honorable Board is required in order to adopt the Bond Act, while a simple majority of the voting strength of your Honorable Board is required to adopt the Act authorizing the IMA.

Based on the importance of this project to the County, your Committee recommends favorable action on the annexed Bond Act and Act authorizing the IMA.

SUBJECT: **STATE ENVIRONMENTAL QUALITY REVIEW FOR CAPITAL PROJECT  
RHW01 HILLSIDE WOODS RESTORATION**

---

The Planning Department has reviewed capital project RHW01- Hillside Woods Restoration (Unique ID: 1606) in accordance with the State Environmental Quality Review Act and its implementing regulations, 6 NYCRR Part 617 (SEQR).

Pursuant to SEQR, this project meets the definition of an Unlisted action. This capital project is part of a larger forest management plan being implemented by the Village of Hastings-on-Hudson. The Village Board of Trustees reviewed the overall plan in accordance with SEQR and adopted a Negative Declaration for the project on February 19, 2020. However, the Village did not include the County as an involved agency in a coordinated review. As such, the County must conduct its own environmental review.

To assist the County in complying with the requirements of SEQR, attached is a Short Environmental Assessment Form for consideration by the Board of Legislators. Part 1 of this form was completed by the Village of Hastings-on-Hudson.

Please contact me if you require any additional information regarding this document.

### Short Environmental Assessment Form Part 3 Determination of Significance

For every question in Part 2 that was answered "moderate to large impact may occur", or if there is a need to explain why a particular element of the proposed action may or will not result in a significant adverse environmental impact, please complete Part 3. Part 3 should, in sufficient detail, identify the impact, including any measures or design elements that have been included by the project sponsor to avoid or reduce impacts. Part 3 should also explain how the lead agency determined that the impact may or will not be significant. Each potential impact should be assessed considering its setting, probability of occurring, duration, irreversibility, geographic scope and magnitude. Also consider the potential for short-term, long-term and cumulative impacts.

This project is being conducted in accordance with an Urban Forest Management Plan that was developed to restore the health of the forest at the adjoining park properties known as Hillside Woods and Hillside Park. Hillside Park is owned by the Village of Hastings-on-Hudson. Hillside Woods is jointly owned by the Village and the County of Westchester. Under capital project RHW01, the County will provide funding to the Village of Hastings to implement the management plan on 30 acres of the Hillside Woods section of the overall 80-acre management area. The County-sponsored work will include the removal of non-native and hazardous trees, the removal of invasive species, the installation of approximately 2,000 linear feet of chain-link fencing, and the purchase and installation of over 1,400 native trees and shrubs.

The Hillside Woods section contains intermittent streams that flow to the Saw Mill River and a small, approximately 0.2-acre, ephemeral pool that has been classified as a freshwater emergent wetland by the National Wetlands Inventory, but is not regulated by New York State. Large tree removals that are not near any trails will be conducted by girdling with selective applications of herbicides as necessary. The removal of invasive brush will be conducted by hand or mechanical means, so there will be minimal impacts associated with herbicides. Prevention of deer overgrazing and restoration of the natural understory will serve to protect the soil from erosion and protect water resources. Hillside Woods does not contain any NYS mapped cultural resources or historic buildings, aside from remnants of an old chimney, which will not be affected by this project. Since ground disturbance will be limited to plantings and small posts for fencing installation, impacts to archaeological resources are also not anticipated.

Although exclusion fencing will reduce available habitat to deer, immunocontraception efforts already being implemented by the Village to control the deer population will minimize some of the ramifications from this habitat loss. More importantly, this project will restore the natural diversity that will support native wildlife that have been adversely impacted by the decimation of the understory and the overtaking of the site by invasive species.

The project will serve to benefit the environment by restoring the eastern woodland ecology of a sizable portion of undeveloped land within a developed region of Westchester County.

Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action may result in one or more potentially large or significant adverse impacts and an environmental impact statement is required.

Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action will not result in any significant adverse environmental impacts.
