HONORABLE BOARD OF LEGISLATORS THE COUNTY OF WESTCHESTER, NEW YORK

Your Committee is in receipt of a transmittal from the County Executive recommending approval by the County of Westchester ("County") of an amended bond act ("Amended Bond Act") in the total amount of \$3,950,000, which includes \$650,000 in previously authorized bonds of the County, to finance capital project BPF33 – Fire Suppression System Replacement and Upgrade, Parking Structure, White Plains Complex ("BPF33"). The Amended Bond Act, which was prepared by the law firm Hawkins, Delafield & Wood, will finance design, construction and construction management in connection with the replacement of the fire suppression system on Levels B1, B2 and B3 and installation of fire detection system throughout the Michaelian Office Building ("MOB") parking structure.

The Department of Public Works and Transportation ("Department") has advised that the existing fire suppression system at the MOB parking structure is original to the 1970s-era parking structure and requires rehabilitation to remain in compliance with applicable codes.

Design of the fire suppression system on Levels B1, B2 and B3 and installation of the fire detection system throughout the MOB parking structure is currently being undertaken by a consultant and is expected to be completed by the third quarter of 2023. It is anticipated that construction will take thirty months and will begin after award and execution of the construction contracts.

It should be noted that your Honorable Board has authorized the County to issue bonds for BPF33 as follows: Bond Act No. 74-2018, which authorized the County to issue bonds in the amount of \$650,000 to finance design for BPF33 in connection with fire suppression enhancements at the White Plains parking structure, including the replacement of the existing fire suppression system on Levels B1 through B3 and the upgrade of the fire suppression system on Levels 1 through 8 including installation of complete new dry pipe sprinkler system. These bonds have not been sold. Accordingly, it is now requested that Bond Act No. 74-2018 be amended to increase the amount authorized by \$3,300,000, for a total authorized amount, as amended, of

\$3,950,000, to revise the scope of Bond Act No. 74-2018 to include work associated with the construction phase of BPF33, and to increase the period of probable usefulness of said bonds.

The Planning Department has advised your Committee that based on its review, BPF33 has been classified as a Type "II" action pursuant to the State Environmental Quality Review Act ("SEQR") and its implementing regulations, 6 NYCRR Part 617. Therefore, no further environmental review is required. Your Committee has reviewed the annexed SEQR documentation and concurs with this conclusion.

It should be noted that an affirmative vote of two-thirds of the members of your Honorable Board is required in order to adopt the Amended Bond Act. Your Committee recommends the adoption of the proposed Bond Act.

STATE ENVIRONMENTAL QUALITY REVIEW FOR CAPITAL PROJECT:

BPF33 Fire Suppression System Replacement and Upgrade, Parking Structure,

White Plains Complex

PROJECT/ACTION: Per Capital Project Fact Sheet as approved by the Planning Department on

05-17-2023 (Unique ID: 2203)

With respect to the State Environmental Quality Review Act and its implementing regulations 6 NYCRR Part 617, the Planning Department recommends that no further environmental review is required for the proposed action, because the project or component of the project for which funding is requested may be classified as a **TYPE II action** pursuant to section(s):

617.5(c)(2): replacement, rehabilitation or reconstruction of a structure or facility, in kind, on the same site, including upgrading buildings to meet building, energy, or fire codes unless such action meets or exceeds any of the thresholds in section 617.4 of this Part.

COMMENTS: The current request will fund construction of "Phase II" and design of "Phase III." While design without commitment to construct may be classified as Type II pursuant to section 617.5(c)(27), it is part of the overall project, which, as a whole, constitutes a Type II action. Furthermore, additional rehabilitation and upgrades in connection with the Michaelian Office Building parking garage, including associated site rehabilitation and installation of electric vehicle charging stations, will be funded by capital projects BPF40 and BPF39. The combined work of all of these capital projects for this single parking facility will not exceed any of the thresholds that would disqualify them from the Type II classification and are also considered meeting fire and energy codes.
