Westchester County Board of Legislators  
800 Michaelian Office Building  
White Plains, New York 10601

Dear Members of the Board of Legislators:

Transmitted herewith for your review and approval is a bond act ("Bond Act") which, if adopted, would authorize the County of Westchester (the "County") to issue bonds in the amount of \$5,000,000 to finance a component of the following capital project:

B0114 – Infrastructure Rehabilitation, Valhalla Campus (2021 – 2025).

The Bond Act, in the amount of \$5,000,000, would finance the cost of design, construction management and construction associated with various upgrades to the boiler control system and related work at the Central Heating Plant on the Grasslands Campus.

The Department of Public Works and Transportation (the "Department") has advised that the existing boiler control system has reached the end of its useful life and is in need of replacement.

Following bonding authorization, design will be scheduled and is anticipated to take three (3) months to complete and will be performed by in-house staff. It is anticipated that construction will take approximately six (6) months to complete and will begin after award and execution of the construction contracts.

It should be noted that your Honorable Board has previously authorized the County to issue bonds for other phases of B0114, as described on the annexed fact sheet.

Based on the importance of this project to the County, favorable action on the proposed Bond Act is respectfully requested.

Sincerely,

Kenneth W. Jenkins  
Westchester County Executive

**HONORABLE BOARD OF LEGISLATORS  
THE COUNTY OF WESTCHESTER, NEW YORK**

Your Committee is in receipt of a transmittal from the County Executive recommending approval by the County of Westchester (“County”) of a bond act (“Bond Act”) in the amount of \$5,000,000, to finance a component of capital project B0114 – Infrastructure Rehabilitation, Valhalla Campus (2021 – 2025).

The Bond Act, which was prepared by the law firm Hawkins Delafield & Wood, LLP, will finance the cost of design, construction management and construction associated with various upgrades to the boiler control system and related work at the Central Heating Plant on the Grasslands Campus.

The Department of Public Works and Transportation (the “Department”) has advised that the existing boiler control system has reached the end of its useful life and is in need of replacement.

Following bonding authorization, design will be scheduled and is anticipated to take three (3) months to complete and will be performed by in-house staff. It is anticipated that construction will take approximately six (6) months and will begin after award and execution of the construction contracts.

Your Committee notes that your Honorable Board has previously authorized the County to issue bonds for other phases of B0114, as described on the annexed fact sheet.

The Planning Department has advised your Committee that based on its review, the above-referenced capital project may be classified as a Type “II” action pursuant to the State Environmental Quality Review Act (“SEQR”) and its implementing regulations, 6 NYCRR Part 617. Therefore, no environmental review is required. Your Committee has reviewed the annexed SEQR documentation and concurs with this recommendation.

It should be noted that an affirmative vote of two-thirds of the members of your Honorable Board is required in order to adopt the Bond Act.

For the reasons set forth above, your Committee recommends the adoption of the proposed Bond Act.
