

**HONORABLE BOARD OF LEGISLATORS  
THE COUNTY OF WESTCHESTER, NEW YORK**

Your Committee is in receipt of a transmittal from the County Executive recommending approval by the County of Westchester (“County”) of a bond act (“Bond Act”) in the amount of \$1,200,000 to finance capital project BPL35 Hilltop Hanover Farm and Environmental Center (“BPL35”). The Bond Act, which was prepared by the law firm Hawkins, Delafield & Wood, will finance the cost of preparation of surveys, preliminary and detailed plans, specifications and estimates and related feasibility studies and analysis necessary for the construction of improvements to the County’s Hilltop Hanover Farm and Environmental Center, including advancing the master plan to provide feasibility analysis and conceptual layout and design of buildings and infrastructure in accordance with the master plan recommendations, and fund design of needed electrical upgrades, architectural and cultural resources analysis and documentation.

The Department of Planning (“Department”) has advised that while the Master Plan provides an exciting and comprehensive vision for the future of the facility, the infrastructure, buildings and accessory structures at Hilltop Hanover Farm continue to require rehabilitation and upgrades in order to meet the existing and planned facility programming and activity needs, including the existing crop and livestock programs as well as the native plant program, which has been extremely successful and requires additional investment in infrastructure to achieve its potential. BPL35 will address health, safety and security issues for visitors, staff and livestock at the site and promote best practices for environmental stewardship and sustainable and resilient living.

Projects that do not require substantive design will be designed in-house or utilizing on-call consultant services. More substantive projects—such as the continued development of the master plan, the preparation of an associated building, site and cultural resources study, and the design of an electrical system upgrade will be designed by appropriate consultants. Following bonding authorization, all projects will be moved forward to implementation. The master plan continuation and related work will begin in Fall of 2023 and take approximately twelve months to complete. The electrical system design will begin in early 2024 and take six to twelve months to complete. Design and implementation of needed building, site and infrastructure rehabilitation will begin as soon as needed and take approximately six to twelve months to complete. Construction funding

(\$800,000) for the rehabilitation work is proposed under a separate bond act. All projects will be coordinated with the master plan.

It should be noted that your Honorable Board has previously authorized the County to issue bonds in connection with BPL35 as indicated in the annexed fact sheet.

The Department has advised your Committee that based on its review, the authorization of BPL35 may be classified as a Type "II" action pursuant to the State Environmental Quality Review Act and its implementing regulations, 6 NYCRR Part 617 ("SEQR"). Therefore, no environmental review is required. Your Committee has reviewed the annexed SEQR documentation and concurs with this recommendation.

It should be noted that an affirmative vote of two-thirds of the members of your Honorable Board is required in order to adopt the Bond Act. Your Committee recommends the adoption of the proposed Bond Act.
