

RESOLUTION 12 - 2024
(BOND) ACT 26 - 2024
ACT 27 - 2024

**HONORABLE BOARD OF LEGISLATORS
THE COUNTY OF WESTCHESTER**

Your Committee is in receipt of a communication from the County Executive recommending the enactment of the following:

Land Purchase and Conveyance. An Act (the “Land Acquisition Act”) to authorize the purchase and subsequent conveyance of approximately +/- 0.68 acres (29,621 square feet) of real property located at 1, 7-11, 25, 29 and 33 North MacQuesten Parkway (the “Property”) in the City of Mount Vernon (the “City”) to Qwest Towers LLC, its successors, assigns or any entity created to carry out the purposes of the proposed transaction (the “Developer”), as part of the County’s program to support the creation of affordable housing units that affirmatively further fair housing. The Land Acquisition Act also authorizes the County to grant and accept any property rights necessary in furtherance thereof. It should be noted that the Development includes 2,615 square feet of retail space, this space is not part of the acquisition by the County. A condominium ownership structure will be set up by the Developer for the retail space prior to the County’s acquisition of the real property. The County will only acquire the property containing the affordable AFFH Units and their associated parking and amenities, excluding the retail space.

Acquisition Financing. A New Homes Land Acquisition Bond Act (the “NHLA Bond Act”), prepared by the firm of Hawkins Delafield & Wood LLP, to authorize the issuance of bonds of the County in a total amount not to exceed \$6,125,000 as a part of Capital Project BPL30 New Homes Land Acquisition II. The Department of Planning (“Planning”) has advised that subject to the receipt of approval of your Honorable Board, the proposed NHLA Bond Act will authorize an amount not to exceed \$6,125,000 to purchase the Property from the current owner to create two hundred twenty-nine (229) affordable rental housing units, including one superintendent’s unit, that will affirmatively further fair housing (the “Affordable AFFH Units”) and one hundred sixty-three (163) parking spaces for use by the residents in two buildings of thirteen and fifteen stories on two sites (the “Development”). . The 2,615 square feet of retail space included in the Development will not be part of the acquisition by the County.

Resolution. A Resolution adopting a Negative Declaration (the “Resolution”) in accordance with the requirements of the State Environmental Quality Review Act as further described herein.

Upon acquisition, the County will file a Declaration of Restrictive Covenants against the Property, to require that the proposed Affordable AFFH Units be marketed and leased in accordance with an approved affordable fair housing marketing plan to households earning at or below 30% and up to 80% of the Westchester County area median income. The Affordable AFFH Units will remain affordable for a period of not less than fifty (50) years noting that the income limits are subject to change based on the median income levels at the time of initial occupancy and subsequent occupancies, as established by the U.S. Department of Housing and Urban Development.

Your Committee is advised that in accordance with the Land Acquisition Act, the County will subsequently convey the Property to the Developer for One (\$1.00) Dollar to construct the Development.

Your Committee is further advised that additional funds for the Development are anticipated to be provided from Tax Exempt Bonds issued by the New York State Housing Finance Agency, Federal and State Low Income Housing Tax Credits allocated by New York State Homes and Community Renewal (“HCR”), HCR Subsidy, Brownfield Tax Credits, and Westchester County Housing Flex Fund subsidy for an estimated total development cost of approximately \$146.27 Million.

Your Committee has been advised by Planning that based on its review, the proposed Development is classified as a “Type I” action under the State Environmental Quality Review Act (“SEQRA”) pursuant to 6 NYCRR Part 617, the implementing regulations of SEQRA. Planning has also advised that pursuant to a resolution adopted on July 12, 2023, the Mount Vernon City Council (the “City”) determined that the Development met all the criteria of the Mount Vernon West Form-Based Code, would not result in any new potential significant adverse impacts that were not previously studied during the Generic Environmental Impact Statement

("GEIS") review of the Mount Vernon West rezoning and that no additional or supplemental environmental review by the City was required.

Your Committee is further advised by Planning that since the County was not an involved agency in connection with the rezoning and did not participate in the preparation of the GEIS, the County must conduct its own environmental review. Therefore, Planning prepared the attached Full Environmental Assessment Form ("EAF") which includes two Part I forms, one for each building that were provided by the City. Parts 2 and 3 of the Full EAF, which constitute the cumulative evaluation of impacts from both sites, has been drafted and are attached for the Committees consideration. Your Committee has carefully reviewed the EAF and for the reasons set forth in the EAF, your Committee believes that the proposed action will not have any significant adverse impact on the environment and urges your Honorable Board to adopt the annexed Resolution in order to issue a Negative Declaration for the Development.

Your Committee has been further advised that in accordance with Section 167.131 of the County Charter, on August 1, 2023, the County Planning Board adopted Resolution No. 23-12, which is annexed hereto, that recommends funding for the purchase and conveyance of the Property. In addition, the report of the Commissioner of Planning is annexed pursuant to Section 191.41 of the County Charter.

Based on the importance of creating more affordable housing units that affirmatively further fair housing in the County, your favorable action on the annexed Resolution and Acts is respectfully requested, noting that the Land Acquisition Act and the NHLA Bond Act require the affirmative vote of two-thirds of the members of your Honorable Board.

SUBJECT: Acquisition of Real Property – 1, 7-11, 25, 29 and 33 North
MacQuesten Parkway -City of Mount Vernon

Pursuant to Section 191.41 of the County Charter, submitted herewith is the required report of the Commissioner of Planning on the proposed acquisition and subsequent conveyance of +/- 0.68 acres of real property located at 1, 7-11, 25, 29 and 33 North MacQuesten Parkway in the City of Mount Vernon, identified on the City tax maps as Section 164.88: Block 1073; Lots: 20, 21, 24, 25 & 26. (the "Property") for the purpose of creating 229 affordable housing units (the "Affordable AFFH Units"), including one superintendent's unit that will affirmatively further fair housing ("AFFH"). The development will also provide approximately 163 parking spaces for residents. It should be noted that the Development also includes 2,615 square feet of retail space, this space is not part of the acquisition by the County. A condominium ownership structure will be set up by the Developer for the retail space prior to the County's acquisition of the real property. The County will only acquire the property/condominium units containing the affordable AFFH Units and their associated parking and amenities, excluding the retail space.

The County of Westchester ("the County") intends to finance the purchase of the Property from the current owner in an amount not to exceed \$6,125,000 as a part of Capital Project BPL30 New Homes Land Acquisition II. Upon acquisition of the Property, the County will file a Declaration of Restrictive Covenants to require that the Affordable AFFH Units are marketed and leased in accordance with an approved affirmative fair housing marketing plan and will remain available to eligible households for a period of not less than 50 years. The County will then convey ownership of the Property to Qwest Towers LLC (the "Developer"), its successors or assigns, for One (\$1.00) Dollar.

The Developer proposes to construct two towers of thirteen-stories and fifteen stories on the Property that will include a mix of affordable studio, one, two and three-bedroom rental apartments that will be leased to households who earn at or below 30% and up to 80% of the area median income (collectively the "Development").

I recommend funding for acquisition and conveyance of the Property for the following reasons:

1. The acquisition of this Property will advance the County's efforts to provide fair and affordable housing;
2. The acquisition and subsequent conveyance of the Property to develop fair and affordable housing is consistent with development policies adopted by the County Planning Board as set forth in *Westchester 2025 - Context for County and Municipal Planning in Westchester County and Policies to Guide County Planning*, adopted May 6, 2008, and amended January 5, 2010, and the recommended strategies set forth in *Patterns for Westchester: The Land and the People*, adopted December 5, 1995;
3. The Development is proposed to include green technology, such as energy efficient appliances, lighting and heating systems and water-conserving fixtures to reduce operating and maintenance costs, minimize energy consumption and conserve natural resources. A green roof will be installed to minimize runoff from rainfalls. The Development is designed to meet the green building standards of Enterprise Green Communities;
4. The Development is consistent with the land use policies and regulations of the City of Mount Vernon; and
5. On August 1, 2023, the County Planning Board adopted a resolution to recommend County financing towards the purchase the Property to support the Development.

SUBJECT: **STATE ENVIRONMENTAL QUALITY REVIEW FOR
BPL30, NEW HOMES LAND ACQUISITION II
1, 7-11, 25, 29 & 33 NORTH MACQUESTEN PARKWAY, MOUNT VERNON**

Pursuant to your request, Environmental Planning staff has reviewed the above referenced project with respect to the State Environmental Quality Review Act and its implementing regulations, 6 NYCRR Part 617 (SEQR).

The action involves the provision of County funding under capital project BPL30 - New Homes Land Acquisition II (Fact Sheet ID #2428) - to facilitate the construction of two affordable housing developments, one to be located at 1 & 7-11 North MacQuesten Parkway and the other at 25, 29 and 33 North MacQuesten Parkway in the City of Mount Vernon. County funds will be applied towards the purchase of approximately 0.68 acres of property (0.34 acre for each site), which will be transferred to a developer who will create approximately 114 units of affordable housing at one site and 115 units of affordable housing at the other. Known as the Q West Towers, the project will include the construction of a 13-story building and a 15-story building with ground floor retail space, residential amenities and approximately 80 and 83 parking spaces, respectively.

Although reviewed together, the two affordable housing projects are independent of each other and were each classified as an Unlisted action by the Mount Vernon City Council. Both of the proposed affordable housing developments are located in the City's MVW-H-Hub zoning district, which was the subject of a Generic Environmental Impact Statement (GEIS) for which Findings were adopted by the City Council in 2016. This resulted in the adoption of the Mount Vernon West Transit Oriented Form-based Zoning Ordinance. Under this ordinance, projects complying with the GEIS Findings are entitled to expedited review. Pursuant to a resolution adopted on July 12, 2023, the Mount Vernon City Council determined that these projects met all the criteria of the Mount Vernon West Form-Based Code, would not result in any new potential significant adverse impacts that were not previously studied during the GEIS review of the Mount Vernon West rezoning and that no additional or supplemental environmental review by the City was required.

Since the County of Westchester was not an involved agency in connection with the rezoning and GEIS, the County must conduct its own environmental review. As the County's action will be a single bond act supporting both projects which collectively will exceed 200 dwelling units, the County must classify the action as Type I. Attached, from the City, is Part 1 of the Full

Environmental Assessment Form (EAF) that was completed for each site. Parts 2 and 3 of the Full EAF, which constitute the cumulative evaluation of impacts from both sites, have been drafted and are attached for consideration by the Board of Legislators.

Please do not hesitate to contact me if you have any questions regarding this matter.

Project Location (describe, and attach a general location map): 25 & 29 North MacQuesten Parkway, Mount Vernon, New York		
Brief Description of Proposed Action (include purpose or need): Construction of a 15-story and cellar, 138'-6" tall, 143,365 sf mixed-use building containing 115 DUs and a 415 sf ground floor retail space on a 15,000 sf lot. The 108,600 sf residential portion of the building would contain residential units on the 3rd through 15th floors, a first floor residential lobby, and cellar space including a tenant storage room, a recreation room, and bike storage, laundry, and mechanical rooms. The project would include 81 accessory parking spaces in a 3-story, 34,350 sf portion of the building and 15,000 sf of open space on a green roof. The site is developed with a vacant 1-story, brick and frame building (25 North MacQuesten Parkway) and a 3-story frame structure containing ground floor commercial space and residential space on the 2nd and 3rd floors of the building (29 North MacQuesten Parkway). Both properties are owned by the City of Mt. Vernon and contain obsolete buildings in poor condition. Project Location (describe, and attach a general location map): 1, 7-11 North MacQuesten Parkway, Mount Vernon, New York		
Brief Description of Proposed Action (include purpose or need): Construction of a 13-story and cellar, 126'-6" tall, 157,800 sf mixed-use building containing 114 DUs and 2 ground floor retail spaces totaling 2,200 sf on a 14,860 sf lot. The 113,800 sf residential portion of the building would contain residential units on the 4th through 13th floors, a residential lobby on the 1st floor, and cellar space including a tenant storage, recreational, bike storage, laundry, and mechanical rooms. The project would include 80 accessory parking spaces in a 3-story, 41,800 sf portion of the building. (The project requires 80 parking spaces.) 14,860 sf of usable open space on a green roof of the building would be provided. The site is developed with a 4-story, multi-family residential building (1 North MacQuesten Parkway) and two 3-story multi-family residential structures that are currently vacant (7-11 North MacQuesten Parkway). 7-11 North MacQuesten Parkway is owned by the City of Mt. Vernon and contains obsolete buildings in poor condition. The project site is underdeveloped relative to the density permitted by the existing zoning mapped on the site. The April 2016 Final Generic FEIS for the Amendment to Zoning Code to Create Mount Vernon West Transit Oriented Form-Based Zoning District includes the subject property within the proposed MVW-H-Hub zoning district. The intent of this district is to encourage new higher density mixed-use transit oriented development in proximity to the Mt. Vernon West Metro-North train station.

Full Environmental Assessment Form
Part 2 - Identification of Potential Project Impacts

Agency Use Only (If applicable)
 Project : MTV Q West (BPL30)
 Date : November 2023

Part 2 is to be completed by the lead agency. Part 2 is designed to help the lead agency inventory all potential resources that could be affected by a proposed project or action. We recognize that the lead agency's reviewer(s) will not necessarily be environmental professionals. So, the questions are designed to walk a reviewer through the assessment process by providing a series of questions that can be answered using the information found in Part 1. To further assist the lead agency in completing Part 2, the form identifies the most relevant questions in Part 1 that will provide the information needed to answer the Part 2 question. When Part 2 is completed, the lead agency will have identified the relevant environmental areas that may be impacted by the proposed activity.

If the lead agency is a state agency **and** the action is in any Coastal Area, complete the Coastal Assessment Form before proceeding with this assessment.

Tips for completing Part 2:

- Review all of the information provided in Part 1.
- Review any application, maps, supporting materials and the Full EAF Workbook.
- Answer each of the 18 questions in Part 2.
- If you answer “Yes” to a numbered question, please complete all the questions that follow in that section.
- If you answer “No” to a numbered question, move on to the next numbered question.
- Check appropriate column to indicate the anticipated size of the impact.
- Proposed projects that would exceed a numeric threshold contained in a question should result in the reviewing agency checking the box “Moderate to large impact may occur.”
- The reviewer is not expected to be an expert in environmental analysis.
- If you are not sure or undecided about the size of an impact, it may help to review the sub-questions for the general question and consult the workbook.
- When answering a question consider all components of the proposed activity, that is, the “whole action”.
- Consider the possibility for long-term and cumulative impacts as well as direct impacts.
- Answer the question in a reasonable manner considering the scale and context of the project.

Full Environmental Assessment Form
Part 3 - Evaluation of the Magnitude and Importance of Project Impacts
and
Determination of Significance

Part 3 provides the reasons in support of the determination of significance. The lead agency must complete Part 3 for every question in Part 2 where the impact has been identified as potentially moderate to large or where there is a need to explain why a particular element of the proposed action will not, or may, result in a significant adverse environmental impact.

Based on the analysis in Part 3, the lead agency must decide whether to require an environmental impact statement to further assess the proposed action or whether available information is sufficient for the lead agency to conclude that the proposed action will not have a significant adverse environmental impact. By completing the certification on the next page, the lead agency can complete its determination of significance.

Reasons Supporting This Determination:

To complete this section:

- Identify the impact based on the Part 2 responses and describe its magnitude. Magnitude considers factors such as severity, size or extent of an impact.
- Assess the importance of the impact. Importance relates to the geographic scope, duration, probability of the impact occurring, number of people affected by the impact and any additional environmental consequences if the impact were to occur.
- The assessment should take into consideration any design element or project changes.
- Repeat this process for each Part 2 question where the impact has been identified as potentially moderate to large or where there is a need to explain why a particular element of the proposed action will not, or may, result in a significant adverse environmental impact.
- Provide the reason(s) why the impact may, or will not, result in a significant adverse environmental impact
- For Conditional Negative Declarations identify the specific condition(s) imposed that will modify the proposed action so that no significant adverse environmental impacts will result.
- Attach additional sheets, as needed.

Overall impacts on the environment will be minimal since both sites are already developed and within an urban setting. As such, the anticipated construction time of 2 years will not contribute to any further physical impact. Compliance with standard best management practices for construction and the City's noise ordinance will minimize community impacts during construction.

The new development will replace 1- to 4-story residential or mixed-use structures, 3 of which are currently vacant. Although the new buildings will be significantly taller, increasing shading and density, they are consistent with the City's recent zoning amendments and other recent developments within the Mount Vernon West zoning district. The City's form-based zoning promotes sustainability by concentrating higher density, mixed-use development close to public transit, in particular the Mount Vernon Train Station. Although potentially visible from the Bronx River Parkway, this section of the parkway is outside of the historic- designated area.

Each of the proposed buildings will consist of over 100,000 square feet of gross floor area. To reduce energy use, the buildings will be installed with energy efficient heating and cooling systems and appliances, as well as green roofs, which will also provide stormwater management benefits.

Pursuant to the City's review, additional demands on community services and traffic have been evaluated and comply with the City's criteria as summarized in the document: "Compliance of Proposed Q-West Towers Development with the Findings of the SEQRA Generic EIS Adopted for the MVW Rezoning." Based on the project's traffic analysis, only one intersection would result in a change in level of service from LOS D to LOS E; as such, no improvements were required by the City. Traffic impacts will be re-evaluated 6 months after full occupancy to determine whether minor adjustments in signal timing would be necessary.

County of Westchester, acting by and through it's Board of Legislators, _____ as lead agency that:

A. This project will result in no significant adverse impacts on the environment, and, therefore, an environmental impact statement need not be prepared. Accordingly, this negative declaration is issued.

B. Although this project could have a significant adverse impact on the environment, that impact will be avoided or substantially mitigated because of the following conditions which will be required by the lead agency:

There will, therefore, be no significant adverse impacts from the project as conditioned, and, therefore, this conditioned negative declaration is issued. A conditioned negative declaration may be used only for UNLISTED actions (see 6 NYCRR 617.d).

C. This Project may result in one or more significant adverse impacts on the environment, and an environmental impact statement must be prepared to further assess the impact(s) and possible mitigation and to explore alternatives to avoid or reduce those impacts. Accordingly, this positive declaration is issued.

Overall Project Description

This is a continuation of project BPL10 New Homes Land Acquisition Fund (NHLA). NHLA provides funds to acquire property for the construction of fair and affordable housing. The purpose of the Fund is to increase the inventory of available properties for fair and affordable housing development. In addition to the acquisition cost of properties, other costs associated with, and often required for, site acquisition may be considered eligible costs to be funded through the NHLA program. Such associated costs may include, but are not limited to, closing costs, appraisals, property surveys, environmental assessments, hazardous materials reports and demolition of existing structures. Demolition may be particularly critical in the County's urban areas where existing structures need to be removed to allow construction of fair and affordable units. Funds can be used in all municipalities. This is a general fund, specific projects are subject to a Capital Budget Amendment.

A Capital Budget Amendment ("CBA") is requested to add the property to Capital Projects BPL30 and to authorize the County to purchase the vacant land from the current owner for an amount not to exceed \$6,125,000 to support the construction of two residential buildings of thirteen and fifteen stories with 229 Affordable AFFH rental units (including one employee unit) and 161 parking spaces. Upon acquisition, the County will file a Declaration of Restrictive Covenants to require that the units will be marketed to households who earn less than 30% and up to 80% of the County Area Median Income for a period of no less than 50 years, and further that the units will be leased and marketed to eligible households under an approved Affordable Housing Marketing plan. The County will then convey ownership to Qwest Towers LLC (the "Developer") its successors or assigns for one dollar (\$1.00).

Energy Efficiencies:

THE BUILDING WILL BE CONSTRUCTED WITH ENERGY EFFICIENT APPLIANCES, LIGHTING, HEATING SYSTEMS, WATER CONSERVING FIXTURES AND A GREEN ROOF. THE DEVELOPMENT IS DESIGNED TO MEET THE STANDARDS OF ENTERPRISE GREEN COMMUNITIES.
