Your Committee is advised that the Bond Act, prepared by the law firm of Harris Beach, PLLC, would authorize the County to issue bonds in the total amount of \$10,425,000 to finance the cost of acquisition of equipment and furnishings for various departments in connection with the above-referenced capital projects.

Total Request: \$10,425,000

In addition, the Department of Public Works and Transportation has advised that the current bus wash was constructed as part of the original Cerrato Bus Garage in Valhalla which was built in 1994. The bus wash is 27 years old, and is beyond its useful life and requires frequent maintenance and repair. The Cerrato garage houses 86 buses all of which are washed every day. A new bus wash will be more energy efficient and would use less water.

The Department of Public Works and Transportation has advised that the proposed work replaces the existing courtroom doors which are original to the building. Due to HVAC issues within the space, the doors have warped and therefore no longer function correctly.

The Departments of Information Technology and Laboratories and Research have advised that the requested equipment and systems replacements are required as current equipment and systems have reached the end of their useful life.

Your Committee is advised that in a departure from the County's past practice, the County Budget Department is submitting this Bond Act to your Honorable Board simultaneously with the proposed 2021 Capital Budget. It is the County's goal to submit this Bond Act now so that the referenced projects will be ready to proceed without delay in early 2021. In addition, please note that the proposed Bond Act authorizes financing for like objects or purposes in connection with multiple capital projects. The attached Bond Act combines projects for the acquisition of equipment, IT systems, and furnishings into a single act as each would be assigned a period of probable usefulness of five years pursuant to New York State Local Finance Law. It is hoped that by combining projects that have the same objects and purposes into a single bond act, the County can streamline and reduce the cost of the debt authorization process, and dramatically reduce the amount of bond legislation that your Honorable Board would be required to review, thereby expediting the approval process and avoiding backlogs.

The Planning Department has advised your Committee that based on its review, the above-referenced capital projects have been classified as a Type "II" action pursuant to the State Environmental Quality Review Act ("SEQR") and its implementing regulations, 6 NYCRR Part 617. Therefore, no further environmental review is required. Your Committee has reviewed the annexed SEQR documentation and concurs with this conclusion.

It should be noted that an affirmative vote of two-thirds of the members of your Honorable Board is required in order to adopt the Bond Act. Your Committee recommends the adoption of the proposed Bond Act.
