RE: Message Requesting Immediate Consideration: **Bond Act – BPL26
(2326) – Flood Mitigation; IMA w/Yonkers.**

This will confirm my request that the Board of Legislators allow submission of the referenced communication to be submitted to the Board of Legislators September 18, 2023 Agenda.

Transmitted herewith for your review and approval is a bond act (the “Bond Act”) which, if adopted by your Honorable Board, would authorize the County of Westchester (the “County”) to issue up to One Hundred Twenty-Eight Thousand Seven Hundred Fifty (\$128,750.00) Dollars in bonds of the County to finance a component of capital project BPL26 - Flood Mitigation (“BPL26”). Also attached is an Act authorizing an intermunicipal agreement (“IMA”) with the City of Yonkers (the “City”) setting forth the terms of the flood mitigation project.

Therefore, since this communication is of the utmost importance, it is respectfully submitted that the County Board of Legislators accepts this submission for September 18, 2023 “blue sheet” calendar.

Thank you for your prompt attention to this matter.

Westchester County Board of Legislators
800 Michaelian Office Building
White Plains, New York 10601

Dear Honorable Members of the Board of Legislators:

Transmitted herewith for your review and approval is a bond act (the “Bond Act”) which, if adopted by your Honorable Board, would authorize the County of Westchester (the “County”) to issue up to One Hundred Twenty-Eight Thousand Seven Hundred Fifty (\$128,750.00) Dollars in bonds of the County to finance a component of capital project BPL26 - Flood Mitigation (“BPL26”). Also attached is an Act authorizing an intermunicipal agreement (“IMA”) with the City of Yonkers (the “City”) setting forth the terms of the flood mitigation project.

The Bond Act, in the amount of One Hundred Twenty-Eight Thousand Seven Hundred Fifty (\$128,750.00) Dollars, would fund up to 50% of the costs associated with a watershed study and flood area analysis in the vicinity of Clunie Avenue in the City of Yonkers, identified as Flood Problem Area YON-1 in the Stormwater Reconnaissance Plan for the Saw Mill River and Pocantico River Watershed. The study will take approximately eight (8) months to complete.

The IMA, a copy of which is attached, will set forth the responsibilities of the County and the City in connection with the project. In accordance with the IMA, the County and the City will each provide up to fifty (50%) percent of the total cost of the project which is Two Hundred Twelve Thousand Five Hundred (\$212,500.00) Dollars. The County will pay to the City, on a reimbursement basis, an amount not to exceed One Hundred Six Thousand Two Hundred Fifty (\$106,250.00) Dollars.

In 2011 your Honorable Board enacted the Westchester County Storm Water Management Law (“SWML”) to assist municipalities with storm water management (flood mitigation). *See* Laws of Westchester County Chapter 241, Article III-A, Sections 241.252-241.260. The SWML provides for the evaluation of flooding within the County through preparation of watershed “reconnaissance plans”, and the SWML authorizes County cooperation with municipalities, including funding assistance, to improve storm water management and reduce flooding.

By Act No. 120-2014, your Honorable Board approved the Stormwater Reconnaissance Plan for the Saw Mill River and Pocantico River Watershed. Clunie Avenue in Yonkers is identified as an area of recurring flooding in this plan. Criteria for funding stormwater management (flood mitigation) projects are also described in the plan, including discretionary fund policy requirements to affirmatively further fair housing. The IMA requires the City to adopt regulations and policies consistent with the flood mitigation criteria in the Stormwater Reconnaissance Plan for the Saw Mill River and Pocantico River Watershed.

It should be noted that your Honorable Board has previously authorized the County to issue bonds which have financed prior components of this project as set forth in the attached fact sheet.

The Planning Department has advised that based on its review, the above referenced capital project may be classified as a “Type II” action pursuant to the State Environmental Quality Review Act (“SEQR”) and its implementing regulations, 6 NYCRR Part 617. Therefore, no environmental review is required. As you know, your Honorable Board may use such expert advice to reach its own conclusion.

It should be noted that since BPL26 is a “general fund” project, specific components are subject to a Capital Budget Amendment. Section 1 of the Bond Act authorizes an amendment to the County’s Capital Budget to the extent the project scope is inconsistent with any details set forth in the current Capital Budget. Accordingly, the Bond Act, in addition to authorizing the issuance of bonds for this project, will also amend the 2023 Capital Budget to reflect the specific location of this project component.

In addition, section 167.131 of the County Charter mandates that a capital budget amendment that introduces a new capital project or changes the location, size or character of an existing capital project be accompanied to the Board of Legislators by a report of the Westchester County Planning Board (the “Planning Board”) with respect to the physical planning aspects of the project. Accordingly, the Planning Board Report for BPL26 is annexed.

Based upon the foregoing, I recommend the adoption of the aforementioned Bond Act as well as the Act authorizing the IMA.

Sincerely,

George Latimer
County Executive

**THE HONORABLE BOARD OF LEGISLATORS
THE COUNTY OF WESTCHESTER**

Your Committee is in receipt of a transmittal from the County Executive recommending approval of a bond act (the “Bond Act”), which if adopted, would authorize the County of Westchester (the “County”) to issue up to \$128,750.00 in bonds to finance a component of capital project BPL26 - Flood Mitigation (“BPL26”). Also attached is an Act authorizing an intermunicipal agreement (“IMA”) with the City of Yonkers (the “City”) setting forth the terms of the flood mitigation project.

Your Committee is advised that the Bond Act, prepared by the law firm of Hawkins Delafield & Wood LLP, would fund up to 50% of the costs associated with a watershed study and flood area analysis in the vicinity of Clunie Avenue in the City of Yonkers, identified as Flood Problem Area YON-1 in the Stormwater Reconnaissance Plan for the Saw Mill River and Pocantico River Watershed. The study will take approximately eight (8) months to complete.

The IMA, a copy of which is attached, will set forth the responsibilities of the County and the City in connection with the flood mitigation project. In accordance with the IMA, the County and the City will each provide up to fifty (50%) percent of the total cost of the project which is \$212,500.00. The County will pay to the City, on a reimbursement basis, an amount not-to-exceed \$106,250.00.

Your Committee is advised that your Honorable Board enacted the Westchester County Storm Water Management Law (“SWML”) in 2011 to assist municipalities with storm water management (flood mitigation). *See* Laws of Westchester County Chapter 241, Article III-A, Sections 241.252-241.260. The SWML provides for the evaluation of flooding within the County through preparation of watershed “reconnaissance plans”, and the SWML authorizes County cooperation with municipalities, including funding assistance, to improve storm water management and reduce flooding.

By Act No. 120-2014, your Honorable Board approved the Stormwater Reconnaissance Plan for the Saw Mill River and Pocantico River Watershed. Clunie Avenue in Yonkers is identified as an area of recurring flooding in this plan. Criteria for funding stormwater

management (flood mitigation) projects are also described in the plan, including discretionary fund policy requirements to affirmatively further fair housing. The IMA requires the City to adopt regulations and policies consistent with the flood mitigation criteria in the Stormwater Reconnaissance Plan for the Saw Mill River and Pocantico River Watershed.

Your Committee notes that your Honorable Board has previously authorized the County to issue bonds which have financed prior components of this project as set forth in the attached fact sheet.

The Planning Department has advised your Committee that based on its review, the above referenced capital project may be classified as a Type “II” action pursuant to the State Environmental Quality Review Act (“SEQR”) and its implementing regulations, 6 NYCRR Part 617. Therefore, no environmental review is required. Your Committee has reviewed the annexed SEQRA documentation and concurs with this recommendation.

Your Committee is further advised that since BPL26 is a “general fund” project, specific components are subject to a Capital Budget Amendment. Section 1 of the Bond Act authorizes an amendment to the County’s Capital Budget to the extent the project scope is inconsistent with any details set forth in the current Capital Budget. Accordingly, the Bond Act, in addition to authorizing the issuance of bonds for this project, will also amend the 2023 Capital Budget to reflect the specific location of this project component.

In addition, section 167.131 of the County Charter mandates that a capital budget amendment that introduces a new capital project or changes the location, size or character of an existing capital project be accompanied to the Board of Legislators by a report of the Westchester County Planning Board (the “Planning Board”) with respect to the physical planning aspects of the project. Accordingly, the Planning Board Report for BPL26 is annexed.

Please note that an affirmative vote of two-thirds of the members of your Honorable Board is required in order to adopt the Bond Act, while an affirmative vote of a majority of the voting strength of your Honorable Board is required to adopt the Act authorizing the IMA.

Based on the importance of this project to the County, your Committee recommends favorable action on the annexed Bond Act and Act authorizing the IMA.

PROJECT DESCRIPTION

This project is intended to provide a share of the cost of funding flood mitigation projects that are proposed by local municipalities and approved by the County. This is a general fund, specific projects are subject to a Capital Budget Amendment.

The program enables Westchester County to partner with municipalities and other government agencies to provide funding for flood control or flood damage reduction projects. Through partnerships with municipalities and other government entities such as the U.S. Army Corps of Engineers and the New York State Department of Environmental Conservation, the County will work to reduce flooding problems and impacts on people and property throughout the county.

A flood mitigation analysis will be conducted addressing flood problem areas identified in the respective stormwater reconnaissance plans.

- 1) \$128,750 to conduct a Saw Mill River watershed flood area analysis for developed areas in the vicinity of Clunie Avenue in Yonkers. The investigations are intended to identify and assess potential drainage and flood prevention improvements for the area, which may include installation of stormwater conveyance, detention, and mechanical pumping systems. County staff will be reviewing the project scope and associated costs in more detail prior to execution of an IMA.

- 2023: \$17.5m, \$7m for Village of Mamaroneck from the Sheldrake and Mamaroneck Rivers combined with the 2022 appropriation, the total project cost is \$18m. BOL add of \$300,000 for Town of

Mamaroneck Drainage Study, \$200,000 for Yonkers Scotti Field flood projects, and \$5m for various flood mitigation projects throughout Westchester County.
\$1.5m for Hillside Avenue Bridge, Village of Mamaroneck

JUSTIFICATION:

Westchester communities have been subject to flooding for decades. As development occurred, floodplains were filled and opportunities for flood storage were lost. Additional stormwater runoff was being generated from the newly created impervious surfaces. There has been an increase in the intensity of storms, resulting in greater volumes of water in a shorter period of time. With more water and fewer places for it to go, we experience flooding. Westchester County is committed to working with municipalities to address this serious problem.

CONSISTENCY WITH PROGRAMS OR PLANS:

The project is consistent with the policies of *Westchester 2025*, the County's long-range land use policies, in that it will help "preserve and protect the county's natural resources and environment, both physical and biotic" and will help "safeguard Westchester from natural and manmade disasters."

PLANNING BOARD ANALYSIS

PL2: The Planning Board supports the County's participation in the above local flood mitigation projects for the following reasons:

- **Municipal flood mitigation projects are expected to lessen the severity of flooding and/or reduce flood-related impacts on public and private properties.**
- **Municipal flood mitigation projects are expected to better protect the public's safety during flooding events.**
- **Several municipal flood mitigation projects are expected to provide secondary benefits, such as controlling polluted stormwater runoff and, therefore, improving water quality in the Long Island Sound and Hudson River watersheds.**
