

(BOND) ACT 22 - 2025

Reference RD017  
Consolidated Bond Act Amending 215-2023

**HONORABLE BOARD OF LEGISLATORS  
THE COUNTY OF WESTCHESTER, NEW YORK**

Your Committee is in receipt of an amended bond act, prepared by the law firm Norton Rose Fulbright, which would amend Bond Act No. 215-2023, which authorized the County of Westchester (“County”) to issue bonds for design, construction management, and construction for various improvement to transfer stations and the Materials Recovery Facility in and for the County’s Refuse Disposal District No. 1 (“District”) in connection with Capital Project RD017 – Material Recovery Facility and Transfer Station Rehabilitation (“RD017”) by (1) increasing the estimated maximum amount and the amount of bonds authorized for said purpose by \$2,930,000 to \$18,760,000, and (2) representing a consolidation of (i) \$2,800,000 from Act No. 99-2019, plus (ii) \$130,000 from Act No. 85-2020 (“Bond Act Amending 85-2020”).

The Bond Act Amending 215-2023 would authorize \$18,760,000 in bonds of the County to finance the costs of design, construction management and construction costs for various improvements to transfer stations and the Materials Recovery Facility for the District, including, but not limited to, incidental expenses in connection therewith, replacement of new compactors and optical sorters, reconstruction of paper bunkers, rehabilitation of tipping floors, reconstruction of the roof with reinforcement for the potential installation of solar panels.

The Department of Environmental Facilities (“Department”) has advised that the Consolidated Bond Act Amending 215-2023 is necessary to consolidate and reallocate unissued bond authorizations of prior bond act numbers 85-2020 and 99-2019 into 215-2023. Through dedicated efforts to reduce costs where possible, the Refuse and Recycling Division (“Division”) of the Department has realized cost savings in connection with certain bonded projects.

Bond Act 215-2023 authorized financing for facility and processing upgrades at the District Transfer Stations and Material Recovery Facility (“MRF”), for which design is and/or will be undertaken by a consultant, and procurement will be managed in house. The first project expected to be completed under RD017 is the Yonkers transfer station/MRF roofs and related equipment. Design for that component was already has a completed and the Department of Public Works and Transportation is in the process of preparing bid documents. It is estimated that construction will take nine months to complete and will begin after award and execution of the construction contracts.

The Department has further advised that these components of RD017 have previously received financing approval of your Honorable Board, and RD017 has previously received approval by the New York State Comptroller ("Comptroller") in accordance with Section 268 of the New York State County Law by an Order of the Comptroller dated January 26, 2018.

The Department of Planning has advised your Committee that based on its review, RD017 may be classified as a Type "II" action pursuant to the State Environmental Quality Review Act and its implementing regulations, 6 NYCRR Part 617 ("SEQR"). Therefore, no environmental review is required. Your Committee has reviewed the annexed SEQR documentation and concurs with this recommendation.

It should be noted that an affirmative vote of two-thirds of the members of your Honorable Board is required in order to adopt the Amended Bond Act. Your Committee recommends the adoption of the proposed Amended Bond Act.

Section (B). The amendments of the bond act set forth in Section (A) of this act shall in no way affect the validity of the liabilities incurred, obligations issued, or action taken pursuant to said bond act, and all such liabilities incurred, obligations issued, or action taken shall be deemed to have been incurred, issued or taken pursuant to said bond act, as so amended.

Section (C). This Act shall take effect immediately upon approval by the County Executive.
