**HONORABLE BOARD OF LEGISLATORS
THE COUNTY OF WESTCHESTER, NEW YORK**

Your Committee is in receipt of a transmittal from the County Executive recommending approval of a bond act (the “Bond Act”) in the total aggregate amount of \$9,075,000 to authorize the County of Westchester (the “County”) to finance the following six capital projects for 2021:

BES20 – DES Backup Generator
BLR10 – Labs and Research Infrastructure Improvements (2017-2021)
B0114 – Infrastructure Rehabilitation, Valhalla Campus (2021-2025)
B0115 – Infrastructure Rehabilitation Mount Vernon District Office (2021-2025)
B015C – Interior Infrastructure Repairs, White Plains Complex (2011-2015)
B015E – Interior Infrastructure Repairs, White Plains Complex (2021-2025)

Your Committee is advised that the Bond Act, prepared by the law firm of Hawkins, Delafield & Wood, would authorize the County to issue bonds in the total amount of \$9,075,000 to finance the cost of acquisition and/or the design, construction management and construction of various building system improvements as outlined below.

(i) Acquisition of an emergency generator for the County Department of Emergency Services facility. The Department of Public Works and Transportation (“Department”) has advised that the existing generator has reached the end of its useful life and does not provide 100% redundancy to the facility. The new generator will also support the planned improvements to the facility.

(ii) Infrastructure improvements to address replacement of uninterrupted power supply (“UPS”) servicing the forensic and toxicology divisions of the County Department of Labs and Research. The Department has advised that the existing UPS is no longer functioning. The UPS is required to protect the sensitive laboratories equipment from voltage fluctuations and surges in addition to providing emergency power to the equipment.

(iii) Replacement of the existing 15 KV manhole cable racks which the Department has advised have deteriorated. The cable racks support the electrical distribution cables at the Valhalla campus.

(iv) Installation of a building management system (“BMS”) in the Department Operations Building and associated work at the County’s Valhalla Campus. The Department has advised that

the Operations Building is not currently part of the Department's County-wide BMS system which controls and monitors a building's heating, cooling and ventilation systems. This work will allow the Department to more efficiently manage the building's systems.

(v) Upgrades to the water storage tank system and associated work at the County's Mount Vernon district office for DPW. This work is required to refurbish and disinfect the existing 10,000 gallon water tank which provides potable water to the building.

(vi) Replacement of existing radiator valves, steam traps; steam riser expansion joints and associated work at the County's Michaelian Office Building for DPW. These components, some original to the building, are deteriorated and past their useful life.

(vii) Upgrades to the courtroom air systems and associated work at the Richard J. Daronco Courthouse Annex for DPW. The Department has advised that this work is required to provide better ventilation to the courtrooms.

The Department has advised that the anticipated cost estimates, anticipated project timeline, and whether the design is anticipated to be undertaken in-house or by consultants for each capital project is set forth below:

Total Request: \$9,075,000

Your Committee is advised that in a departure from the County’s past practice, the County Budget Department is submitting this Bond Act to your Honorable Board simultaneously with the proposed 2021 Capital Budget. It is the County’s goal to submit this Bond Act now so that the referenced projects will be ready to proceed without delay in early 2021. In addition, please note that the proposed Bond Act authorizes financing for like objects or purposes in connection with multiple capital projects. It is hoped that by combining projects that have the same objects and purposes into a single bond act, the County can dramatically reduce the amount of bond legislation that your Honorable Board would be required to review, thereby expediting the approval process and avoiding backlogs.

The Planning Department has advised your Committee that based on its review, the above-referenced capital projects have been classified as Type “II” actions pursuant to the State Environmental Quality Review Act (“SEQR”) and its implementing regulations, 6 NYCRR Part 617. Therefore, no further environmental review is required. Your Committee has reviewed the annexed SEQR documentation and concurs with this conclusion.

It should be noted that an affirmative vote of two-thirds of the members of your Honorable Board is required in order to adopt the Bond Act. Your Committee recommends the adoption of the proposed Bond Act.
