

**RESOLUTION NO. 100 - 2025
(BOND) ACT 212 - 2025**

Reference RCC17

**HONORABLE BOARD OF LEGISLATORS
THE COUNTY OF WESTCHESTER, NEW YORK**

Your Committee is in receipt of a transmission from the County Executive recommending approval by the County of Westchester ("County") of an amended bond act ("Amended Bond Act") which, if adopted, will authorize the County to issue up to \$15,000,000 in additional bonds of the County to finance capital project RCC17 – County Center Facility Improvements ("RCC17").

The Amended Bond Act in the total amount of \$25,050,000 was prepared by the law firm Hawkins, Delafield & Wood, and includes \$10,050,000 in previously authorized bonds of the County. The additional bonds totaling \$15,000,000 would finance RCC17 as follows: \$14,514,000 would finance the planning, construction and construction management associated with the replacement of the roof other associated building renovations and flood mitigation, drainage, and related improvements other related improvements the County Center Building, and \$10,536,000 would finance the replacement of the existing generator and switch gear electrical systems.

The Department of Parks, Recreation and Conservation ("Department") has advised that the County Center has been vulnerable to flooding due to its close proximity to the Bronx River and Fulton Brook, which endangers critical electrical infrastructure.

Design is currently being undertaken by in-house staff and a consultant, and is expected to be completed by the fourth quarter of 2025. It is estimated that construction will take thirty six months to complete and will begin after award and execution of the construction contracts.

It should be noted that your Honorable Board has authorized the County to issue bonds for RCC17 as indicated in the annexed fact sheet and as follows: Bond Act No. 249-2023 in the amount of \$10,050,000, which authorized financing for design, construction and construction management associated with roof replacement and other County Center building renovations. These bonds have not been sold. Accordingly, it is now requested that Bond Act No. 249-2023 be amended to increase the amount authorized by \$15,000,000, for a total authorized amount, as amended, of \$25,050,000, and to revise the scope of Bond Act No. 249-2023 to include additional work associated with RCC17.

The Planning Department has advised your Committee that based on its review, RCC17 has been classified as an "Unlisted" action under the State Environmental Quality Review Act and its implementing regulations, 6 NYCRR Part 617 ("SEQR"). A Resolution, and Short Environmental Assessment Form ("EAF"), prepared by the Planning Department, are attached to assist your Honorable Board in complying with SEQR. For the reasons set forth in the attached EAF, your Committee believes that the proposed action will not have any significant adverse impact on the environment and recommends the adoption of the Resolution. As you know, a determination of significance must be made prior to enacting the aforementioned Bond Act.

Your Committee has carefully considered the Amended Bond Act, and recommends approval of the Amended Bond Act. It should be noted that an affirmative vote of two-thirds of the members of your Honorable Board is required in order to adopt the Amended Bond Act.

Short Environmental Assessment Form Part 3 Determination of Significance

For every question in Part 2 that was answered "moderate to large impact may occur", or if there is a need to explain why a particular element of the proposed action may or will not result in a significant adverse environmental impact, please complete Part 3. Part 3 should, in sufficient detail, identify the impact, including any measures or design elements that have been included by the project sponsor to avoid or reduce impacts. Part 3 should also explain how the lead agency determined that the impact may or will not be significant. Each potential impact should be assessed considering its setting, probability of occurring, duration, irreversibility, geographic scope and magnitude. Also consider the potential for short-term, long-term and cumulative impacts.

The project will not have significant adverse impact as it involves replacement and rehabilitation work within previously developed/disturbed areas of an existing county facility.

Concrete pads will be located in the parking area to rear of the building, much of which will be on existing pavement. Approximately up to four trees may need to be removed for access and construction for the proposed relocation of the generators and associated equipment. The trees to be removed consist of three native red oaks and one invasive Norway maple. However, the three native species will be replaced on a three to one basis to be located on site where possible. If additional trees cannot be accommodated on the project site, replacement trees will be planted elsewhere within the Bronx River reservation. Exterior flood mitigation and drainage infrastructure activities will occur on previously disturbed areas.

The site is located within the Bronx River Parkway Reservation, which is on the National Register of Historic Places. The County Center is a contributing component associated with the designation of the Bronx River Parkway Reservation on the National Register. The project involves replacement and/or relocation of non historic elements. The proposed median barrier will be sympathetic to the adjacent existing historic structures which are on the national register. As such, the project will not have adverse impact on the site's historic character.

As County parkland, the County Center is also designated a Critical Environmental Area. All County park lands were designated Critical Environmental Areas as they possess recreational, educational, social, cultural and ecological values for residents and visitors. Proposed work shall preserve those functions and provide resiliency as needed.

- ☐ Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action may result in one or more potentially large or significant adverse impacts and an environmental impact statement is required.
- ☒ Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action will not result in any significant adverse environmental impacts.
