

RESOLUTION 33 - 2023
ACT 50 - 2023

**HONORABLE BOARD OF LEGISLATORS
THE COUNTY OF WESTCHESTER**

Your Committee is in receipt of a transmittal from the County Executive in which the County Executive states that the Commissioner of Environmental Facilities has advised him that the Towns of Mt. Pleasant and New Castle (the "Towns") have requested, pursuant to the attached Resolutions of the Towns, that the Saw Mill Valley Sanitary Sewer District (the "District") be modified to remove four (4) parcels of property from the District. Two (2) of the parcels are located in Mt. Pleasant and two (2) are located in New Castle. The parcels located in Mt. Pleasant are more particularly described by street address and tax map designation as: 1 Bristol Place, Section 99.6, Block 2, Lot 4; and 146 Hardscrabble Road, Section 99.17, Block 2, Lot 28. The parcels located in New Castle are more particularly described as: 42 Pond Hill Road, Section 92.18, Block 1, Lot 10; and 63 Brevoort Road, Section 100.8, Block 3, Lot 27.1 (All four parcels shall hereinafter be referred to collectively as the "Parcels"). The Parcels are not currently connected to the County sewer system. The removal of the Parcels from the District is being requested because the Parcels are not serviced by sanitary sewers and it is not anticipated that sanitary sewers will be constructed for these Parcels in the foreseeable future.

Your Committee is informed that the attached Feasibility Report prepared by the Department of Environmental Facilities ("Feasibility Report") dated November 29, 2022 indicates that the proposed removal of the Parcels represents a net decrease of 0.016% to the Equalized Full Value of the District. Therefore, the removal of the Parcels will not cause significant changes in the tax rate of the District.

According to the Department of Environmental Facilities, the proposal to remove the Parcels is feasible because: (1) the proposed changes were requested by the Towns; (2) the subject changes require no engineering modifications to the District facilities and there is no impact on the County facilities because the Parcels were never connected to the sewerage system; (3) the subject changes remove from ad valorem taxation properties that have not benefited and foreseeably will not benefit from connection to District facilities based on information received from the Towns; (4) the subject changes free reserve capacity at the District treatment plant for future enlargement of the District from surrounding areas without the capital costs of expanding treatment facilities; (5) the subject Parcels, once removed from the District, will be required to petition the County to re-enter the District and the County is not obligated to reserve any capacity

for these Parcels once they have been removed; and (6) the subject Parcels were reviewed by the Westchester County Health Department.

Your Committee notes that Chapter 237.131 of the County Administrative Code authorizes the Board of Legislators (the "Board") to alter or change the sewer districts. However, the Board may only alter or change the districts after a public hearing is held thereon by the Board, upon notice thereof given by publication in such manner and for such time as the Board shall direct. Therefore, attached hereto is a Resolution which will authorize Legal Notice for the public hearing as required by the Administrative Code.

Your Committee is advised that the removal of the Parcels would constitute an Unlisted Action under Article 8 of the Environmental Conservation Law, which requires an appropriate environmental review. Your Committee has carefully considered the proposed legislation. It has reviewed the attached Short Environmental Assessment Form (EAF) and the criteria contained in Section 617.7 of Title 6 of the New York State Code of Rules and Regulations, the SEQR regulations, to identify the relevant areas of environmental concern. For the reasons set forth in the attached EAF, your Committee believes that the proposed action will not have any significant adverse impact on the environment and urges your Honorable Board to adopt the annexed resolution by which this Board would issue a Negative Declaration for this proposed action.

Based on the above facts, the Feasibility Report prepared by the Department of Environmental Facilities and the review by the Planning Department, your Committee concurs with the recommendation of the County Executive and recommends your Honorable Board adopt the annexed Resolution which will authorize Legal Notice for the public hearing which is required by the Administrative Code in such matters, and, after such hearing, urges your Honorable Board to adopt the annexed Act which accomplishes the removal of said Parcels from the District. It should be noted that a vote of not less than a majority of the voting strength of the Board of Legislators is required to pass this Act.

SAW MILL VALLEY SANITARY SEWER DISTRICT

TOWNS OF MOUNT PLEASANT & NEW CASTLE

Vincent Kopicki, P.E.
Commissioner
Environmental Facilities

The Towns of Mount Pleasant and New Castle have petitioned that four (4) properties currently included in the Saw Mill Valley Sanitary Sewer District be removed from the Saw Mill Valley Sewer District.

A. The identification of the properties presently within the Saw Mill Sewer District and to be removed are contained on the attached Town Resolutions of the Town of Mount Pleasant and the Town of New Castle, Request for Removal from the Saw Mill Valley Sanitary Sewer District as prepared by the Mount Pleasant and New Castle Town Clerks. The properties to be removed are listed in Section C. Table of Properties to be Removed.

B. EFFECT ON SEWER DISTRICT TAX RATE:

Full Equalized Valuations, which are assessed values adjusted for equalization rates, form the basis on which the sewer district tax levies are apportioned by the County Board of Legislators. The following are the full equalized valuations in the 2022 levy pertinent to the subject parcels:

D. Summary and Recommendations

The proposal to remove certain parcels in the Saw Mill Valley Sanitary Sewer Districts is feasible because:

1. The proposed changes were requested by the Towns of Mount Pleasant and New Castle.
2. The subject changes require no engineering modifications to the district facilities and there is no impact on the County facilities because these parcels were never connected to the sewerage system.
3. The subject changes remove from ad valorem taxation properties that have not benefited and foreseeably will not benefit from connection to District facilities based on information received from the Towns of Mount Pleasant and New Castle.
4. The subject changes free reserve capacity at the District treatment plant for future enlargement of the District from surrounding areas without the capital costs of expanding treatment facilities.
5. The subject parcels once removed from the district will be required to petition the County to re-enter the district. The County is not obligated to reserve any capacity for these parcels once they have been removed.
6. The subject parcels were reviewed by the Westchester County Health Department.

Brief Description of Proposed Action: Removal of 4 parcels from the Saw Mill Valley Sanitary Sewer District - 1 Bristol Place (99.6-2-4) and 146 Hardscrabble Road (99.17-2-28) are located in the Town of Mount Pleasant and 42 Pond Hill Road (92.18-1-10) and 63 Brevoort Road (100.8-3-27.1) are located in the Town of New Castle. At the request of the property owners, the Towns of Mount Pleasant and New Castle have petitioned the County to remove the subject parcels from the County sewer district on the basis that the parcels were never connected to the sewerage system and the respective Towns have no plans to extend local sewers to service these areas. The parcels are between 0.96 to 5.19 acres in size and each contain a single-family residence. The residences are served by on-site septic systems. The proposed district modification will remove from ad valorem taxation, a properties that have not, do not, nor are anticipated to receive district benefits.

Part 3 - Determination of significance. The Lead Agency is responsible for the completion of Part 3. For every question in Part 2 that was answered "moderate to large impact may occur", or if there is a need to explain why a particular element of the proposed action may or will not result in a significant adverse environmental impact, please complete Part 3. Part 3 should, in sufficient detail, identify the impact, including any measures or design elements that have been included by the project sponsor to avoid or reduce impacts. Part 3 should also explain how the lead agency determined that the impact may or will not be significant. Each potential impact should be assessed considering its setting, probability of occurring, duration, irreversibility, geographic scope and magnitude. Also consider the potential for short-term, long-term and cumulative impacts.

The proposed action involves an act by the County Board of Legislators in order to modify a County-established sewer district, which is similar in nature to "the legislative adoption of a plan" in that there are no direct impacts to the environment because the action does not involve physical changes. The proposed action would remove from a district properties that are not receiving nor are anticipated to receive district services. Each of the parcels are already developed with a single-family residence that is served by a functioning on-site septic system. The Health Department has no record of septic problems or failures occurring at any of these sites within the past five years, which may otherwise warrant inclusion in the district. Additionally, the properties in the Town of Mount Pleasant are located in it's R-40 zoning district; as such, no new development is anticipated that would warrant a sewer connection. The properties in the Town of New Castle are located in it's R-1/2A and R-1A zoning district, which give them the potential to subdivide, but this is unlikely due to the existing development layout and environmental site limitations. The nearest local sewers are well over a hundred feet away in every case. Neither of the Towns have plans to extend it's local sewer lines to serve any of these properties. Since the properties were never connected to the sewer system, their removal from the district will have no physical impact on the County's sewer infrastructure.

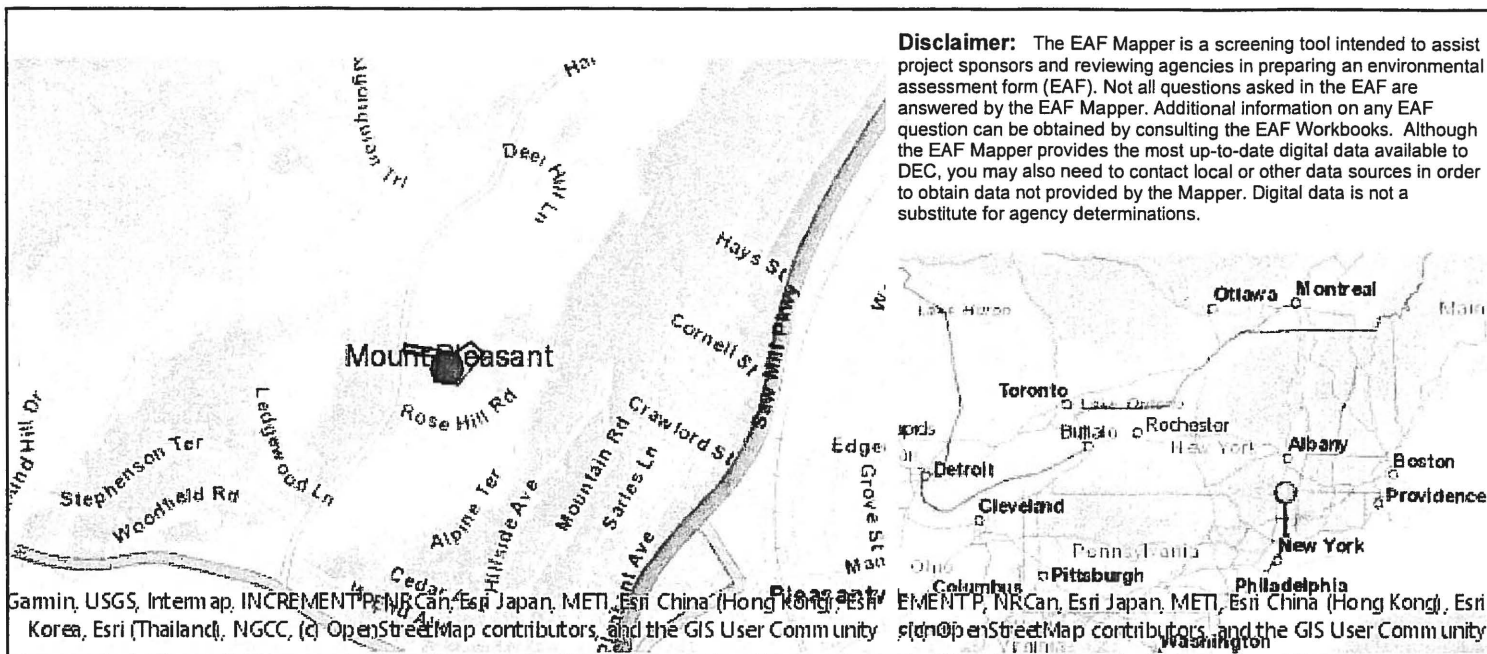

<input type="checkbox"/>	Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action may result in one or more potentially large or significant adverse impacts and an environmental impact statement is required.
