

**HONORABLE BOARD OF LEGISLATORS
THE COUNTY OF WESTCHESTER, NEW YORK**

Your Committee is in receipt of a transmittal from the County Executive recommending approval of a bond act (the "Bond Act") in the total aggregate amount of \$4,750,000 to authorize the County of Westchester (the "County") to finance the following three capital projects:

- B0115 - Infrastructure Rehabilitation, Mount Vernon District Office (2021-2025) ("B0115")
- B0117 Infrastructure Rehabilitation, 450 Saw Mill River Road, Ardsley (2021-2025) ("B0117"); and
- B0125 Infrastructure Rehabilitation, Record Center, Elmsford ("B0125")

Your Committee is advised that the Bond Act, prepared by the law firm of Hawkins Delafield & Wood, would authorize the County to issue bonds in the total amount of \$4,750,000 in the respective amounts as set forth in column A below, to finance the cost of the respective purposes as set forth in column B of the schedule below.

A	B
\$3,900,000	design, construction management and construction associated with the replacement of the roof, installation of new flashing, bulkhead rehabilitation and associated work at the Reginald A. LaFayette County Office Building, formerly known as the Mount Vernon District Office Building (B0115)
\$475,000	design, construction management and construction associated with the installation of parapet safety railings at all open roof perimeters at 450 Saw Mill River Road, in Ardsley (B0117)
\$375,000	for design, construction management and construction associated with the installation of parapet safety railings at all open roof perimeters at the Record Center in Elmsford (B0125)

The Department of Public Works and Transportation ("Department") has advised your Committee with respect to B0115 that the roof at the Reginald A. LaFayette County Office Building, formerly known as the Mount Vernon District Office Building, is over 20 years old and has experienced water infiltration into the building. The warranty has expired and the replacement of the roof is necessary to maintain the integrity of the building envelope. Following bonding authorization,

design will be scheduled and is anticipated to take nine months to complete. It is anticipated that the design work will be completed by in-house staff. It is estimated that construction will take twelve months and will begin after the award and execution of the construction contracts.

The Department has further advised your Committee with respect to B0117 and B0125 that the parapet safety railings are being installed at 450 Saw Mill River Road in Ardsley and at the Records Center in Elmsford in conjunction with the New York Power Authority photovoltaic system project. The parapet railing system will provide adequate fall protection for personnel maintaining and servicing the equipment on the roof. Following bonding authorization, design will be scheduled and is anticipated to take four months to complete. It is anticipated that the design work will be completed by in-house staff. It is estimated that construction will take six months to complete and will begin after the award and execution of the construction contracts.

Your Committee is advised that the proposed Bond Act authorizes financing for like objects or purposes in connection with multiple capital projects. It is hoped that by combining projects that have the same objects and purposes into a single bond act, the County can dramatically reduce the amount of bond legislation that your Honorable Board would be required to review, thereby expediting the approval process and avoiding backlogs.

The Planning Department has advised your Committee that based on its review, the above-referenced capital projects may be classified as Type "II" actions pursuant to the State Environmental Quality Review Act ("SEQR") and its implementing regulations, 6 NYCRR Part 617. Therefore, no environmental review is required. Your Committee has reviewed the annexed SEQR documentation and concurs with this recommendation.

It should be noted that an affirmative vote of two-thirds of the members of your Honorable Board is required in order to adopt the Bond Act. Your Committee recommends the adoption of the proposed Bond Act.
