

RESOLUTION NO. 36 - 2026
ACT 84 - 2026

**HONORABLE BOARD OF LEGISLATORS
THE COUNTY OF WESTCHESTER**

Your Committee is in receipt of a transmittal from the County Executive in which the County Executive states that the Commissioner of Environmental Facilities has advised him that the Town of Mount Pleasant (the "Town") has requested, pursuant to the attached Resolution of the Town, that the Saw Mill Valley Sanitary Sewer District (the "District") be modified to remove one (1) parcel of property more particularly described as 485 Chappaqua Road, Sec. 98.8, Block 1, Lot 2 (hereinafter the "Parcel") from the District. This removal is being requested because the Parcel is not serviced by sanitary sewers and it is not anticipated that sanitary sewers will be constructed for this Parcel in the foreseeable future.

Your Committee is informed that the analysis prepared by the Department of Environmental Facilities (the "Department") dated March 2, 2026 and attached hereto (the "Feasibility Report"), indicates that the proposed removal of the Parcel represents a net decrease of 0.0024% to the Equalized Full Value of the District. Therefore, the removal of the Parcel will not cause significant changes in the tax rate of the District.

According to the Department, the proposal to remove the Parcel is feasible because: 1) the proposed change was requested by the Town; 2) the subject change requires no engineering modifications to the District facilities and there is no impact on the County facilities because the Parcel was never connected to the sewerage system; 3) the subject change removes from ad valorem taxation a property that has not benefited and foreseeably will not benefit from connection to District facilities based on information received from the Town; 4) the subject change frees reserve capacity at the District treatment plant for future enlargement of the District from surrounding areas without the capital costs of expanding treatment facilities; 5) the subject

Parcel, once removed from the District will be required to petition the County to re-enter the District and the County is not obligated to reserve any capacity for the Parcel once it has been removed; and 6) the subject Parcel was reviewed by the Westchester County Health Department.

Your Committee notes that Section 237.131 of the Laws of Westchester County authorizes the alteration or change of a sewer district. However, your Honorable Board may only alter or change the district after it has held a public hearing, after notice has been given by publication in such manner and for such time as the Board shall direct. Therefore, attached hereto is a Resolution, which, if adopted by your Honorable Board, would authorize the date and time of the public hearing. Your Committee recommends adoption of said Resolution.

Your Committee is advised that the removal of the Parcel would constitute an Unlisted Action under Article 8 of the Environmental Conservation Law, which requires an appropriate environmental review. Your Committee has carefully considered the proposed legislation. It has reviewed the attached Short Environmental Assessment Form (“EAF”) and the criteria contained in Section 617.7 of Title 6 of the New York State Code of Rules and Regulations, the SEQR regulations, to identify the relevant areas of environmental concern. For the reasons set forth in the attached EAF, your Committee believes that the proposed action will not have any significant adverse impact on the environment and urges your Honorable Board to adopt the annexed resolution by which this Board would issue a Negative Declaration for this proposed action.

It should be noted that a vote of not less than a majority of the voting strength of the Board of Legislators is required to pass this Act.

Based on the above facts, the Feasibility Report prepared by the Department, and the review by the Planning Department, your Committee concurs with the recommendation of the

County Executive and recommends that your Honorable Board adopt the annexed Resolution which will authorize publication of the Legal Notice for the public hearing as required by the Laws of Westchester County in such matters, and, after such hearing, urges your Honorable Board to adopt the annexed Act which accomplishes the removal of the Parcel from the District.

3. The subject changes remove from ad valorem taxation properties that have not benefited and foreseeably will not benefit from connection to District facilities based on information received from the Town of Mount Pleasant.
4. The subject changes free reserve capacity at the District treatment plant for future enlargement of the District from surrounding areas without the capital costs of expanding treatment facilities.
5. The subject parcels once removed from the district will be required to petition the County to re-enter the district. The County is not obligated to reserve any capacity for these parcels once they have been removed.

Short Environmental Assessment Form Part 3 Determination of Significance

For every question in Part 2 that was answered "moderate to large impact may occur", or if there is a need to explain why a particular element of the proposed action may or will not result in a significant adverse environmental impact, please complete Part 3. Part 3 should, in sufficient detail, identify the impact, including any measures or design elements that have been included by the project sponsor to avoid or reduce impacts. Part 3 should also explain how the lead agency determined that the impact may or will not be significant. Each potential impact should be assessed considering its setting, probability of occurring, duration, irreversibility, geographic scope and magnitude. Also consider the potential for short-term, long-term and cumulative impacts.

The proposed action involves an act by the County Board of Legislators in order to modify a County-established sewer district, which is similar in nature to "the legislative adoption of a plan" in that there are no direct impacts to the environment because the action does not involve physical changes. The proposed action would remove from a district property that is not receiving nor is anticipated to receive district services. The parcel is already developed with a residence that is served by a functioning on-site septic systems. The Health Department has no record of septic problems or failures occurring at this site within the past five years, which may otherwise warrant inclusion in the district. Additionally, the property is located in the Town's R-40 One Family Residential zoning district; as such, no new development is anticipated that would warrant a sewer connection. The nearest local sewer is located over 650 feet away. The Town does not have any plans to extend its local sewer lines to serve this property. Since the property was never connected to the sewer system, its removal from the district will have no physical impact on the County's sewer infrastructure.

Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action may result in one or more potentially large or significant adverse impacts and an environmental impact statement is required.

Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action will not result in any significant adverse environmental impacts.
