Westchester County Board of Legislators 800 Michaelian Office Building White Plains, New York 10601

Dear Members of the Board of Legislators:

Transmitted herewith for your review and approval is a Bond Act (the "Bond Act") which, if adopted, would authorize the County of Westchester ("County") to issue \$750,000 in bonds to finance a component of the following capital project:

SPK95 – Pumping Station Rehabilitation Program – Peekskill SSD ("SPK95").

The Bond Act, in the total amount of \$750,000, would provide construction funding to repair the foundation of the existing catwalk at the Water Street Pumping Station that connects the pumping station and the onsite storage tank. Work will include, but shall not be limited to: shoring of the existing catwalk pier foundation; stabilization of the existing embankment slope; installation of a new retaining wall around the pumping station's influent chamber; and restoration of the cathodic protection of the existing steel tank.

Design of project SPK95 has been completed by outside consultants. It is estimated that construction of the project will take eight (8) months to complete and will begin after award and execution of the construction contracts.

It should be noted that your Honorable Board has previously authorized the County to issue bonds for an unrelated component of project SPK95 as described in the attached fact sheet.

The Planning Department has advised that based on its review, the above-referenced capital project has been classified as a Type II action under the State Environmental Quality Review Act and its implementing regulations, 6 NYCRR, Part 617 ("SEQR"). Therefore, no further environmental review is required. As you know, your Honorable Board may use such expert advice to reach its own conclusion.

Telephone: (914) 995-2900 E-mail: ceo@westchestergov.com

Based on the importance of this project to the County, favorable action on the proposed Bond Act is respectfully requested.

Sincerely,

George Latimer County Executive

HONORABLE BOARD OF LEGISLATORS THE COUNTY OF WESTCHESTER, NEW YORK

Your Committee is in receipt of a transmission from the County Executive recommending approval of a bond act (the "Bond Act") which, if adopted, will authorize the County of Westchester ("County") to issue \$750,000 in bonds to finance a component of capital project SPK95 - Pumping Station Rehabilitation Program – Peekskill SSD ("SPK95").

Your Committee is advised that the Bond Act, prepared by the law firm of Norton Rose and Fulbright, would provide construction funding to repair the foundation of the existing catwalk at the Water Street Pumping Station that connects the pumping station and the onsite storage tank. Work will include, but shall not be limited to: shoring of the existing catwalk pier foundation; stabilization of the existing embankment slope; installation of a new retaining wall around the pumping station's influent chamber; and restoration of the cathodic protection of the existing steel tank.

Your Committee is advised that the design of project SPK95 has been completed by outside consultants. It is estimated that construction of the project will take eight (8) months to complete and will begin after award and execution of the construction contracts.

It should be noted that your Honorable Board has previously authorized the County to issue bonds for an unrelated component of project SPK95 as set forth in the attached fact sheet.

The Planning Department has advised your Committee that based on its review, the above-referenced capital project has been classified as a Type "II" action pursuant to the State Environmental Quality Review Act ("SEQR") and its implementing regulations, 6 NYCRR Part 617. Therefore, no further environmental review is required. Your Committee has reviewed the annexed SEQR documentation and concurs with this conclusion.

Your Committee is advised that an affirmative vote of two-thirds of the members of this Honorable Board is required in order to adopt the Bond Act. Your Committee has carefully considered the proposed Bond Act and recommends approval of same.

STATE ENVIRONMENTAL QUALITY REVIEW FOR CAPITAL PROJECT:

SPK95 Pumping Station Rehabilitation Program - Peekskill SSD

PROJECT/ACTION:

Per Capital Project Fact Sheet as approved by the Planning Department on

04-04-2022 (Unique ID: 1888)

With respect to the State Environmental Quality Review Act and its implementing regulations 6 NYCRR Part 617, the Planning Department recommends that no further environmental review is required for the proposed action, because the project or component of the project for which funding is requested may be classified as a **TYPE II action** pursuant to section(s):

- 617.5(c)(2): replacement, rehabilitation or reconstruction of a structure or facility, in kind, on the same site, including upgrading buildings to meet building, energy, or fire codes unless such action meets or exceeds any of the thresholds in section 617.4 of this Part;
- 617.5(c)(9): construction or expansion of a primary or accessory/appurtenant, nonresidential structure or facility involving less than 4,000 square feet of gross floor area and not involving a change in zoning or a use variance and consistent with local land use controls, but not radio communication or microwave transmission facilities.

COMMENTS: The scope of work involves the installation of rock-filled gabions and rip-rap covering an area approximately 10 feet wide by 80 feet long on the embankment adjacent to the Water Street Pumping Station, with added rip-rap around the pier footing for the catwalk, and a low gabion retaining wall, approximately 40 feet in length, at the base of the slope to resolve erosion and sedimentation issues.
