# HONORABLE BOARD OF LEGISLATORS THE COUNTY OF WESTCHESTER, NEW YORK

Your Committee is in receipt of a transmittal from the County Executive recommending approval by the County of Westchester ("County") of a bond act ("Bond Act") in the amount of \$2,000,000 to finance capital project SOS95 – Pumping Station Rehabilitation Program – Ossining SSD ("SOS95"). The Bond Act, which was prepared by the law firm Norton Rose Fulbright, will finance the cost of design and construction management for the rehabilitation of the County's Croton Pumping Station in the Ossining Sanitary Sewer District.

The Department of Environmental Facilities ("Department") has advised that the work includes the replacement or repair of all mechanical, plumbing, fire protection, HVAC, odor control, electrical, instrumentation, structural, and architectural systems. This includes, but is not limited to, bar screens, pumps, piping and valves, gas and fire detection equipment, odor control equipment, conduit and wire, lighting, electrical distribution equipment, emergency generator, control panels, floors, walls, windows, and roofs.

The Department has advised that following bonding authorization, design will be scheduled and is anticipated to take twelve months to complete. It is estimated that construction will take twelve months to complete and will begin after award and execution of the construction contracts. It is anticipated that the design work will be completed by consultants.

The Planning Department has advised your Committee that based on its review, SOS95 has been classified as a Type "II" action pursuant to the State Environmental Quality Review Act ("SEQR") and its implementing regulations, 6 NYCRR Part 617. Therefore, no further environmental review is required. Your Committee has reviewed the annexed SEQR documentation and concurs with this conclusion.

It should be noted that an affirmative vote of two-thirds of the members of your Honorable Board is required in order to adopt the Bond Act. Your Committee recommends the adoption of the proposed Bond Act.

STATE ENVIRONMENTAL QUALITY REVIEW FOR CAPITAL PROJECT:

SOS95 Pumping Station Rehabilitation Program - Ossining SSD

PROJECT/ACTION: Per Capital Project Fact Sheet as approved by the Planning Department on

05-09-2022 (Unique ID: 1918)

With respect to the State Environmental Quality Review Act and its implementing regulations 6 NYCRR Part 617, the Planning Department recommends that no further environmental review is required for the proposed action, because the project or component of the project for which funding is requested may be classified as a **TYPE II action** pursuant to section(s):

• 617.5(c)(27): conducting concurrent environmental, engineering, economic, feasibility and other studies and preliminary planning and budgetary processes necessary to the formulation of a proposal for action, provided those activities do not commit the agency to commence, engage in or approve such action.

**COMMENTS:** The current request is for design and construction management. It is noted that funds for construction management will not be expended unless the County approves funding for construction of the project. Further environmental review will be conducted following completion of design and prior to approval of funding for construction.
